

UNFAIR!

Man's
Treatment
of
GOD

UNFAIR

In the world today many exploited minorities strive to obtain their rights. Yet one minority is the most mistreated of all.

It is a minority of one. His writings have been burned; his message suppressed. Those who have dared to stand in support of him have been ridiculed. His major spokesmen, including his own son, have been murdered. Through all of this, he has responded with love to those who have opposed him.

For too long man has chased after his own selfish pursuits. He has consistently shown little concern for the rights and feelings of others, especially for the rights and feelings of the one who loves him most.

We object to man's unfair treatment of the Creator of the universe, the God of the Bible, who alone is worthy of our unrivaled fidelity and devotion.

We stand unashamed and fervent in our support of the cause of Jesus Christ and the interests and rights of God.

We call all men to turn from their active rebellion or passive indifference and turn to God to receive his love and forgiveness.

We challenge you to treat God fairly.
