1. Applicants without ethnic background information are distributed proportionately to each of the ethnic/racial categories in all tables.
2. "All Other" includes Caucasian/White, Non-hispanic and Non-resident Alien.
3. Separate data for each of the combined colleges (Agriculture, Forestry, and Home Economics) are not available.
4. Applicants who applied for admission in more than one college are counted once in each of the colleges they applied for.
5. An accepted applicant is counted twice when the term the application is admitted for originally is different from the term the same applicant requested for later on.
6. Mean Value of High School Rank and various test scores in Table IIIA and Table IIIB is only calculated from the data supplied by those applicants whose ethnic background can be identified.
