Number

Varsity Basket and Track Teams Off on Warpath

Cookemen Have Tough Road Jaunt Ahead Against Wisconsin and Indiana

Badgers Battling to Stay in Race

Four Mile Relay Team and Star Hurdle Pair Entered in Big Illinois Classic

Two Gopher teams will entrain for foreign soil tonight to bear the Maroon and Gold in two crucial athletic struggles.

"Doc" Cooke's basketball squad are slated to tackle Coach Meanwell's "fast traveling" Badger cagers at Madison in a contest which will determine which team drops out of the hot five-cornered battle for the Big Ten championship. Coach Frank's tracksters will vacate the choo-choo at Urbana, where they will match Minnesota's mettle against the best relay and track men in the country in the Fourth Annual Illinois Relays.

Eight Basketmen Go

Unless Doctor Cooke has a last minute hunch, the same nine men will compose the squad that made the two previous trips. Captain Oss Arntson and McMillan will go as forwards, Hultkrans, center, and Enke, Kearney, Sullivan and Forsell, guards. Trainer Oppogard will carry the linament bag.

Seven Trackmen

Coach Len Frank has picked his seven most promising point-pilferers and sails away tonight confident of putting Minnesota on the track map again, like in the Penn relays a year ago. The star 4 mile relay team is composed of Sweitzer, Hoverstad, Gaumnitz, Leider and Varner. The first three are practically sure of starting and Coach Frank has not yet made up his mind whether Leider or Varner will complete the quartette.

Minnesota will be represented in the two special hurdle events and high jump by Anderson and Jensen. Both men, after months of training, are "set" for the big show and eager to take their marks with the "best in the West."

Job for Hoopmen

There's a tough old log for the Maroon and Gold basketmen to saw down in Madison. With not a single setback chalked against them since their appearance on the Gopher floor, the Wisconsin quint have their eyes on the title and will battle to the last ditch to eliminate the Gopher invaders.

In Captain Taylor and Caesar, Coach Meanwell has a fast, keen shooting forward pair and McIntosh at center has greatly strengthened the Badger offensive. "Rollie" Williams is one of the crack guards of the conference and his mate Frogner is a man of unusual capability.

Immediately after the Wisconsin game, the Cookemen will move on to Bloomington, Ind., to oppose another strong first division court team. The present road trip is by far the toughest test of the year, but Minnesota fans after seeing the brand of basketball their favorites dealt out to Chicago, are ready to the man to tackle any bunch of tossers in the country.

The track squad will return Sunday and the basketmen are due home next Wednesday.

Gophers Proofs May Be Obtained at P.O.

Federal Board students and other groups which had their Gopher pictures taken by T. Seland may have proofs by calling at the P. O. Mr. Seland has tried to get in touch with officers of these organizations, and failing in this, he turned them into the postoffice for distribution.

Information concerning proofs may be had by calling Drexel 2025.

Norwegians Will Give Production April 15

The Norwegian Literary society will present a play entitled "The Lucky Election," with a cast of seventeen parts, at the Farm Campus Auditorium on the evening of April 15. The work on the play under the coaching of Mrs. G. Bothne, has been under way for a couple of weeks and is progressing very well.

Later the play will be given downtown at the Women's Federation club, and at Spring Grove, Minn.

'U' Night to Beat Shubert On March 14

Proceeds to Go Toward Scholarship Endowment; Seats On Sale At the Y. W. C. A. Office and Co-Op.

Monday night, March 14, will be University night at the Shubert theater. The student section of the Faculty Women's club makes the announcement that the house has been obtained for that evening for the purpose of completing their scholarship endowment which is annually given to some University girl whose work shows special merit.

The play will be "Rollo's Wild Oat," a comedy which is now playing in New York with tremendous success at the Punch and Judy theater, and booked for the week of March 14 to be put on by the Shubert Stock Company. The play will not come here on the road, so this is the only chance Minneapolisians will have to see it.

Ticket Sale at Y.

Seats are on sale at the Y. W. C. A., Dean Ladd's office, and the Co-Op. The gallery will be the "University Box," price 28 cents, with other seats ranging up to \$1.00 each. Several campus organizations have ordered tickets for the entire group, one sorority taking the lead with a block reservation in the gallery of forty seats.

Funds for Scholarship

The proceeds of this performance will augment considerably the fund which was added to recently by the staging of two one-act plays in the Little Theater. The scholarship is awarded each year to some undergraduate girl chosen by a committee appointed by the club. This year the scholarship went to Miss Hazel Cartwright, a sophomore in the Arts college.

University students are urged by the Faculty Women's club to support this effort and in this way see a good show and aid in the maintenance of this scholarship fund.

R. F. Pack Will Speak To Engineers Monday

Mr. R. F. Pack, vice president and general manager of the North Western States Power company, will address a meeting in the engineers' auditorium of the main building at 8 o'clock, Monday night March 7. This meeting will be the third of a series of meetings held by this society, devoted to the subject of industrial relations. These meetings are being held under the auspices of the American Society of Civil Engineers. Mr. Pack was chairman of the State Board of Arbitration for the adjustment of differences between employers and employees during the war.

The first meeting of this series was devoted to the labor side of the subject. At a recent meeting the employers' viewpoint was considered. Monday night there will be a general discussion and open forum, with regard to the entire subject. It is expected that a number of prominent engineers from the Twin Cities will participate in the discussion. Mr. Pack will present the matter from an impartial viewpoint. He is particularly qualified to do this because of his relations to all parties during the war.

The preceding meetings have been very well attended because the subject is a live one and of special interest to engineers because of their relations to employers and employees. A special invitation is extended to engineer students, particularly of the upper classesmen.

Sophs to Assemble at Tau Shonka Dance

The sophomores will be assembled en masse at the Tau Shonka, sophomore inter-fraternity, dance this evening at the Plaza hotel. This is their first party of the 1920-21 year and they promise the best of music and a general good time for all. The dance will start at 9 o'clock. Tickets will be sold at the door for \$1.25 a couple.

Weekly Social Hour at Shevlin Postponed

The weekly social hour which is held every Friday afternoon at Shevlin hall will be postponed this week. On March 11 a short play will be presented by the group in charge of the afternoon's entertainment.

Sophomores End Registration for Spring Quarter

Freshmen Will Register March 3 to 15—Many New Courses Open to Them in Spring, Says Registrar

Registered in December, freshmen will register from March 3 to March 15 in room 106, Folwell by special appointment through the university post office. Registration by appointment means economy of time to both student and advisor.

Many freshmen will have completed the required work in natural science, social science or foreign languages and may now select work in anthropology, political science (if the student has had 10 credits of history), sociology, astronomy, geology and philosophy departments heretofore not open to them.

Economics Not Open to Freshman

Principles of economics, which was open last year to pre-business students having completed economic history is now not open to freshmen at all. Introduction to economic history will be offered in the spring quarter this year.

Sophomores who have not for any reason registered must make a registration appointment with the secretary in room 106, Folwell.

Shakespeare Course Popular

The course in Shakespeare (English 8) proved much more popular than was expected, and is to be given in two sections instead of one. The course in logic (philosophy 2) which the department announced some time ago as being open to third quarter freshmen has been all filled up by sophomores and upperclassmen, and is closed. The course in statistics which the department announced some time ago as being open to third quarter freshmen has been all filled up by sophomores and upperclassmen, and is closed. The course in statistics which the department announced some time ago as being open to third quarter freshmen has been all filled up by sophomores and upperclassmen, and is closed.

"Students who continue in the spring with subjects they are taking in the winter must not change their sections," reminded Dean Bussy.

There will be approximately 1200 freshmen in the academic college in the spring quarter.

R. S. Callaway Buys U Supplies for Year

Purchases Made Include Tractors, "Mud Puppies," Needles and Foodstuffs

Purchasing supplies in carload lots, great grosses and tons, and signing orders that run into thousands of dollars is the favorite pastime of R. S. Callaway, purchasing agent for the University. The office of the purchasing agent is the central buying center for the university and all its branches. The purchases touch practically every commodity on the market, ranging from sewing needles and toothpicks to tractors and automobiles. Foodstuffs and materials for the repair and upkeep of the buildings constitute the largest total purchases, Mr. Callaway said.

In addition to 500 loaves of bread per day, it takes over 75 tons of flour, annually, to keep the students leaning on the "staff of life." Approximately 40 tons of sugar are needed to satisfy the "sweet tooth" of the university for a single year. The quantities of peaches, tomatoes, peas and corn consumed mounts into the thousands of gallons, Mr. Callaway said.

Occasionally the purchasing agent delves into the live stock market to obtain quantities of dog fishes, mud puppies, lobsters and other rare species for dissection purposes in the Animal Biology department.

The coal supply for the university is purchased by the State Board of Control. The University Library is the only department of the institution which has its own purchasing agent. H. G. Russell, assistant to Mr. Callaway, devotes his time exclusively to the purchase of books for the library. C. A. Smith is the other assistant purchasing agent.

FICTITIOUS CASE UP FOR TRIAL IN PRACTICE COURT

Attorneys of Law School to Hear Case of Old "Jeremiah" vs. Tobacco Co.

YEARLY EVENT ROUSES INTEREST ON CAMPUS

Habiger, Gallagher, to Plead for "Jerry;" Holm, Kolda, Defendants

Old Colonel John Jeremiah is in court again.

Every year the fictitious case of John Jeremiah, president of the Anti-Nicotine Society and tireless prohibition worker, versus some liquor or tobacco company comes up for trial in the practice court of the law school. This year old Jeremiah is attempting to restrain the Consumers Tobacco Co. from using his photograph on their nicotine-less tobacco, which they aptly named "Reformer's Delight." The company stands in a position to lose heavily by the action of the Colonel since their new tobacco has been widely advertised by a preliminary campaign, the none of their product has as yet been placed on the market.

"Lawyers" Named

Jos. J. Habiger and Thomas Gallagher have been retained by Col. Jeremiah to plead his case, while the defendant has engaged the services of A. F. Holm and Anton C. Kolda, all attorneys of the law school.

Col. Jeremiah has fought many cases before this one. Before liquor was put on the skids, mainly by his efforts, he fought an annual case in the law school against liquor companies who tried to market kickless drinks under his name and picture. This year, with the wet issue somewhat of the past, an action against a tobacco company has been substituted for the annual bout with the friends of John Barleycorn. The Colonel has always refused to consider himself honored by being advertised about the country on questionable bottles, and regrets deeply that his honor is thrown into the alleys and the ash cans of the nation, insisting, instead, that the various companies have intended ridicule.

Large Attendance Expected

In past years the trials have been unusually well attended because of the fact that samples of the liquid were passed out to the jury and witnesses. Court records are not consistent in regard to the contents of the samples. It is expected that in the trial this year sample cigars will be passed about to prove the absence of nicotine in the product. The Col. insists, however, that the samples are selected lengths of manila rope and choice cabbage leaves, and does not intend to be fooled by any such strategy.

The Consumers Tobacco Co. is backed by the former liquor interests as the Col. is recognized as the arch enemy of both drink and the weed, defendant will overlook no means by which they may defeat the Col. The attorneys for the plaintiff, on the other hand, have prepared an unusually strong case, and a bitter fight is expected in the law school court when the case comes up for trial.

W.A.A. Members to Meet Next Tuesday

The next General association meeting of the W. A. A. will be held Tuesday noon, March 8, in the hygiene lecture room of the Women's gymnasium. All members are urged to be present, as the association will be called upon at this time to elect one member of the nominating committee which is to nominate officers of the association for next year.

The association members will also be asked to pass upon the proposition of granting 5 honor points to those girls who make an A in their gymnasium work and who participate in the annual gymnasium demonstration. The board, at its meeting yesterday, passed this proposition and Tuesday will present it to the association.

The annual gymnasium demonstration this year will be held March 18.

Philippinesots will meet for regular monthly meeting, Saturday, March 5, at 12:30 p. m. in room 209, Minnesota Union. Plans for the Magallanes program on the discovery of the islands will be among the important matters to be taken up.

"PREPAREDNESS IS REMEDY FOR WAR" ADVOCATES BLACK AT CONVOCATION

Spring Fever Hits Editor, Will Tour World On Nerve

With the wanderlust calling them, and to demonstrate that men do not lose their nerve when they get out of the army, Robert B. Gile, business manager of the Daily, and a companion will begin a tour of the world next June, making their way as they go. Gile and his companion served in the world war, visiting many places in Europe. Their war experience only whetted their appetite for travel.

They plan to leave Minneapolis at the close of the present school year, working their way to the Atlantic coast, and thence to London. From London they will go to France to revisit the battlefields and other places which they saw while with the A. E. F.

Several countries in Europe will be visited, the exact route of travel depending largely upon circumstances, and the ability to make their way. They have arranged to make market analyses and reports for several large corporations in the U. S., and in this way will defray part of their expenses.

From Europe they will work into southern Asia and India, and then north into China. Journeying eastward, they will next visit Japan, and from Nippon they will embark again for the United States, sailing through the Golden Gate and landing in San Francisco.

Forums Meet Kap Rho Team In Semi-Finals

Last Year's Championship Society Opposes Girl Debaters in Law Auditorium; Finals Scheduled for Next Wednesday

Kappa Rho, the girls' forensic-debating society, will meet their rival, the Forum, winner of last year's championship, at the law auditorium this evening, 8:00 p. m. At the same time the Shakoeps meet the students, the men's society of the Agriculture college, at the agriculture auditorium. These four societies are entered in the semi-finals of the annual Forensic League debates.

Last week's preliminaries eliminated the Hesperians, Athenians, and Philomatheans; the Hesperians forfeiting to the Shakoeps, the Athenians losing by a two to one decision to Kappa Rho and the Philomatheans by a unanimous decision to the Forum.

Advance reports indicate that the Kappa Rhos and Websters are planning definitely on reaching the finals, a privilege hitherto unattained by anyone except the traditional rivals, the Forums and Shakoeps.

The teams selected by the four societies are as follows:

Forum captain: Victor W. Rotnem, Wm. Lloyd Sholes, Ray Larsen. Alternates: Robert G. Manly, Victor E. Young.

Kappa Rho captain: Fae Brady, Abbie Hawes, Elizabeth Owen. Alternate, Jennie Wall.

Shakoeps captain: Harold E. Briggs, Archie A. MacDonald, M. Sheldon Watts. Alternates: Lloyd S. Whitbeck, Vernon X. Miller.

Websters captain: Edward A. Petranske, Laurence E. Doten, Victor L. Oliver. No alternates.

Menorah Symposium Presented Wednesday

"The Renaissance in Israel," a symposium, was presented at the Little Theater Wednesday evening by the Menorah society.

Speaking on "The National Idea in Jewish History," David Goldstein opened the program. He was followed by Reuben-Lenske who spoke on "The Economic Achievements and Possibilities in Palestine," and Max Shapiro on "A Creative Jewish Culture." The meeting was closed by Simon Green with "Jewish Education in the Diaspora."

Dr. Moses Farron acted as chairman of the meeting. Morris Wolfe was chairman of general arrangements.

Largest Crowd Since Charter Day Turns Out to Hear Famous Author-Orator

WARNS U. S. PEOPLE AGAINST FRANCE FATE

Noted Educator Booked for Seven Addresses During His Stay in Cities

"Germany quit when the quitting was good," declared Dr. Hugh Black in his address on "America's International Relations," at the University convocation yesterday. "I would live on cents and spend dollars for war before I would submit to the declaration that France was compelled stand because of unpreparedness."

Point of View Important

It is only the point of view that one takes in considering our relations with other countries that counts, according to Dr. Black. To illustrate this point he told the following story of a Scottish golfer.

"Running through the golf course, was a stream that proved a Waterloo for many of the golfers who used this course. This man was in the habit of praising the stream for its beauty and the wonderful clearness of the water. However, this praise was only forthcoming when the golfer succeeded in hitting his ball across the handicap. One day he was not so fortunate, and the ball fell in the stream. Turning to his caddy, he said, 'Fetch my ball out of that damned sewer.' This shows that it is only the way we look at life, which makes a difference. This country comes from an isolated island which was farther away from us then, than it is today. We have been trying to isolate ourselves from the rest of the world and not to make ourselves feel that we belong to the 'bunch.' This isolation is impossible, unless we have prepared isolation."

Late War Example

In speaking about the late war, Dr. Black emphasized the lack of preparedness of the different countries. He said that the real alternative to war is anarchy. "America's display of naval power is not the only answer to war. The building of hundreds of airplanes, guns and the like is the real answer. The only way in which the nations can keep from warring with each other is by mutual disarmament. This is one way of self imposing limitations on freedom. In my home village in Scotland, which is very small, there were 37 boys killed on the field of honor."

Auditorium Packed

For the first time this year, excepting the Charter Day convocation, the auditorium was packed. Dr. Black held the interest of this large audience from the beginning to the end of his address. Dean Johnston presided in the absence of President Coffman. A violin solo was given by Karl Scheurer at the beginning of the program.

Dr. Black is scheduled to give seven addresses in the Twin Cities. One was given to the women in the Little Theater at 3:30 yesterday afternoon. Today, Dr. Black will give three lectures. One at 10:30 in the Little Theater, another at 4:30, which will be a mass meeting for men and women, in the Christian Bible auditorium, and at 6:30, a dinner will be given in the Union in honor of Dr. Black. Sunday, he will give the morning service at the Andrew Presbyterian church beginning at 10:30 a. m. At 4:00 of the same day there will be a mass meeting at Westminster church, Nicollet at 12th which Dr. Black will address.

Scribblers Hear Short Story Writer

"Writing is a trade, not a profession, for success means being everlastingly at it," said Frank C. Faude, Sunday editor of the Minneapolis Tribune, at the regular meeting of the Scribblers club last night. Mr. Faude is a writer of short stories and so confined his talk chiefly to the short story.

"Jack London made a practice of writing 1,000 words every morning. For the amateur rewriting is essential, a good plan is to write the first draft, let it wait for several weeks, then rewrite it," said Mr. Faude. "Never be fast bound to any textbook rules if violating of the rule makes for effectiveness."

Many visitors attended the meeting, and a great deal of interest was shown in the work of the club. Applications for membership may be sent to Carl Longland.

THE LIBRARY MAR 4 1921 RECEIVED

The Minnesota Daily

Entered as second-class matter, at the postoffice at Minneapolis, Minnesota, under the act of March 3, 1879.

Published every day except Sunday and Monday by the Minnesota Daily Association at the Colwell Press, 415 Third Ave. No., Minneapolis, Geneva 9288. Office: Room 4, Folwell Hall.

Contrib Waxes Verbose On Harding Advent

Sees Education and Enlightenment as Panacea for National and World Ills—War Expenditures Decried—Civilization Doubtful

Today our country witnesses the inauguration of its twenty-ninth president. Today the Harding administration takes hold of the directing reins of government, and today Mr. Harding and his associates find confronting them what is possibly the most critical period of American history. The responsibilities attendant to the executive department are weighty and manifold.

There is one problem confronting the Federal government, a problem, which, if properly solved, is pregnant with possibilities for the common good. That problem is the arousal of social consciousness, social vision, and of social action. There can be social unity only with socialized education. The incentive lies with government.

War Takes 90 Percent of Funds

If any thing like a wholesome solution of national ills is to be attained, it must come through universal, widespread, all-embracing, all-comprehensive education. Federal aid is necessary. While something like 90 percent of the public funds are prodigally expended on the armed forces of our country; while the blood-god, Brute Force, struts and swaggers over the fallen bodies of poverty-stricken men and women, and this nineteen centuries and more since the advent of Christ, and while all this continues, the mass of the people are festering in comparative ignorance.

Mass Mentality Dormant

Millions are being spent on the debauchee of blood, millions are expended on the mad orgies of preparedness, millions are freely wasted on bacchanalian revelries of destruction, of waste, and of war. This, while the mentalities and the potentialities of the masses lie dormant and apathetic.

While the glutinous, militaristic parasitism feeds upon and wallows in the blood of humanity, faint rumblings of unrest are heard, and a gathering storm-cloud of discontent gathers upon a distant horizon.

Perhaps our civilization is lopsided. Perhaps there is something wrong with a political or social organization which requires, as we are told, such a stupendous expenditure for its perpetuation. Perhaps after great expenditure with no returns, there may

be a resulting collapse. We do not prophesy.

Matched Money Asked

However, we suggest to the Harding administration that it might be a good policy to apportion among our educational institutions a dollar or a million dollars for every dollar or every million expended on the armed forces.

The People and Enlightenment, that is our inspiration, that is our theme, that is our religion. There is one thing greater than Napoleonic successes and Capatrian pageantries. That thing is "to be free," to be free, not only politically and industrially but educationally. The crying necessity is mental emancipation; it is the panacea. Let there be universal dissemination of scientific knowledge, of unbiased judgments, of unadulterated truth. "Let there be Light."—H. W.

Ag "Ed" Club Will Have Dance Saturday

Many dates are being made this week for the agricultural education club dance at the Ag gym, Saturday night at 8:30. This dance was originally scheduled for the Home Economics building but the committee in charge decided that the crowd would be too large so they made arrangements for the Ag gym. An award of a "Yard of Smith's chocolate dreams" will be given to the winners of the "Prize Waltz." The winner in the club pin design contest will be presented with a five dollar gold piece and the girls winning in the ticket selling contest will receive boxes of Cole's Society Sweets.

The club is planning on having light refreshments on sale. All university students, members of the faculty and people of the university committees are invited to attend.

Mildred Billert, West High student and ballet dancer, will head the bill Friday night at the second annual West High vaudeville to be given at the Central High auditorium. An athletic and war tableau in which Minnesota athletes are to be featured, will be staged. Arnie Schulz, comedian, will appear in a jazz band act under the leadership of Gordon Lutz.

GOOD LUCK, TEAM!

Tonight the Gophers will leave for Madison where tomorrow they will meet Wisconsin in perhaps the hardest game yet to play. On comparative scores the two quintets will be evenly matched and the game moreover will be a struggle for a high place in the standing column.

Minnesota has beaten Wisconsin once. They will do it again. Monday the Maroon and Gold cagers will encounter the once victorious Indiana team at Bloomington. Although the Hoosiers took the measure of Minnesota early in the season, the Gophers are the "dope" on their side and are generally conceded a victory.

After all the upsets have been sifted out and recorded on the percentage column, it becomes apparent that the Gophers have a good chance to win the title or at least tie for it. Three straight wins will boost the Maroon and Gold to the very top of the list.

Minnesota has won the title more than once. They can do it again. Critics throughout the conference have stated that the Maroon and Gold is as powerful and brilliant a team as has performed on Big Ten floors thus far this year.

Few Gopher fans can accompany the team on its last trip this season. But the wish of good-luck goes out from every student and alumnus. If the Gophers win both their games, and triumph over the lowly Purple a week from tomorrow, they will be formidably close to the pinnacle of the list.

Fight, Minnesota! Win, Minnesota!
Bring home the bacon!

COMMUNICATIONS

NEW FORENSIC CONSTITUTION

The Forensic League is an organization with almost unlimited possibilities at the University of Minnesota. It really touches only about twenty-one students in a school year, and breaks up the regular year's program of seven Literary societies with memberships ranging from thirty-five to sixty students.

There is no doubt that the present system of debating has its value and is better than nothing at all, but that is about all that can be said. This custom originated under the semester system when the students had more time for outside work than they can ever expect to have again.

We have the foundation for some very far reaching and valuable work in the present Forensic League organization and membership.

There are a number of plans better than the old one under which we are operating at present but only a few of them could make the Forensic League a big, throbbing organization throughout the school and known as one of the most influential student organizations at Minnesota. Under one plan we could have the president of the League act as chairman of the League Program Committee and have his committee made up of the chairman of the respective Society Program Committees.

Programs could be held about the end of the first and second months of each quarter and leave the third month open because of finals. Each society could be represented on these programs and there is no limit to their variety when backed by the talent in the League. Six meetings of this caliber, put on during a school year, would promote a friendly rivalry between the societies and make for better spirit inside each one.

These combined programs could be big enough and good enough, without importing outside talent, to attract to the different societies the best literary material coming into the university, and to guarantee a large attendance from the student body at each program.

When we draft a new Forensic League constitution this spring, let us make it big enough to fit the opportunity. Let's give the Forensic League an up-to-date program, and do

all that we can to build up an organization that we can feel proud of, and one that will mean something to the University of Minnesota.
Ben F. Dunn, Ag. '21.

**Basketball Fans Meet
At Smoker Saturday**

Wireless Station to be Connected With Union—Will Announce Game Returns

Open house at the Minnesota Union in the form of a smoker for all basketball fans of the university will be held Saturday night at 8:00 o'clock, and cooperating with the university wireless station which is under the direction of Professor C. M. Jansky of the electrical engineering department, returns of the game will be received at the university wireless station from Wisconsin as the play takes place.
 The wireless station will be connected with the Union by a special wire which is being strung up by students of the wireless department and a large amplifier at the Union will spread the tidings of the game as fast as returns are received.

Cigarettes and tobacco will be supplied by the Union and fans are invited to bring their pipes along, enjoy life and listen to the amplifier talk.

Center of Northwest

Henry Forbes is chief operator of the university wireless station and other operators who are active in the exchange of basketball reports are Ray Swet and Hugh W. Carpenter. These operators are on duty at the wireless station every night and shortly after 8:30 p. m. they send out weather reports as issued by U. G. Pursell, Minneapolis meteorologist. They also send out current market reports to shippers and farmers of the northwest. Operators in the same territory are entertained on Sunday evenings by concerts and classical music given over the wireless telephone of these university operators. Several thousand amateur operators in the northwest are in contact with this station.

Mrs. Jessie S. Ladd and Miss Ladd will be at home to University girls from 4 to 6 p. m. on Sunday, March 6, 1445 East River Boulevard.

GOPHERS FAVORED TO GRAB WIN IN BIG WATER FEST

Gophers, Twin City Y Teams, Shattuck, St. Paul Athletic Club Are Strongest

SQUAD LEAVES THIS AFTERNOON AT 2:15

Meet Is Largest in Northwest Sponsored by Shattuck Military Academy

Minnesota is favored to "come through" in front of the nine teams entered in the Northwestern Swimming association tank meet to be held at Shattuck today and tomorrow. Competition promises to be keener than ever before, but the evenly balanced Gopher squad is given a generous edge.

The team leaves this afternoon at 2:15 on the "Faribault Special" with the best team with which they have ever started out. This jaunt ought to be most successful, for besides their delegation which journeyed to Northwestern, they have Murray Lampher on whom to bank a goodly part of their hopes.

Biggest Event in State
In sponsoring this meet, Shattuck is putting on the biggest event of its kind ever staged in the state. It promises to be an annual affair, drawing in more colleges of this territory every year.

There have been so many entries that preliminaries are billed for tomorrow night at 7:15. The finals will start at 2:30 Saturday with no time limit set for the completion of the events.

Hard Meet Predicted
The meet will be far from a cinch for anyone, however, although Minnesota is given the best chances. Minneapolis "Y" will push her hard with such stars as Hill, Miller and Seegar. Hill is a fast man in the 40 as is Seegar in the 220 and backstroke. Miller needs no introduction to aquatic circles, for he has copied many honors in his diving.

St. Paul Athletic club has two good men in Erb, a plunger, and Cress, a backstroke swimmer of ability. The "Y" in St. Paul will be represented by Miller, who swims the breast stroke in fast time.

As can be seen, the 40, breast stroke, back stroke and the plunge will be the closely contested events, and they are the strongest events for Minnesota.

The entries for Minnesota are:
Relay: Gow, Lampher, Day, Swanson, Holmes. Plunge: Jordan, Atwood, Perlman. 40 yard: Holmes, Gow, Swanson. Breast stroke: Harmon, Dinmore. Diving: Prins, Langford, Bruenner. Back stroke: Day, Harmon. 220 stroke: Gow, Lampher. 100 yard dash: Gow, Holmes, Lampher.

Records Annually Torn Asunder At Illinois Classic

Perfect Clay Track Is Responsible for Repeated Record-Shattering Performances—Entry List Swells

Urbana, Ill., Mar. 3.—A record breaking list of entries have been received for the fourth annual relay carnival of the University of Illinois to be held here March 5.

Last year more than 300 athletes competed in the meet and judging from the entries thus far received, there will be a far greater number in the competition this year. Many of the universities are entering their star athletes in the special events, besides sending their relay teams.

Many Records Broken
A comparison of the records made in the last three relay carnivals at the University of Illinois with world's records show that the western indoor classic has been the scene of many record breaking performances.

In 1917, Waldo Ames, one of the greatest hurdlers that ever donned an Illinois suit, smashed two world's records, running the 75-yard low hurdles in 8 2/5 seconds, and the 75-yard high hurdles in 9 3/5. The record in the 75-yard lows had stood for four years being made in 1913 by R. R. Templeton, of San Francisco, and equalled the following year by J. J. Eller, of New York. Their performance of 9 seconds was thought to be unbreakable, until Ames took 3-5 second from it in one of the greatest races of the meet.

Johnson Stars
These records were doomed to go, however, when two years later, Carl Johnson, Michigan, and Le Gendre, Georgetown, met in the final heats of both races. The tall Michigan star

Arntson Crowds Taylor in Big 10 Basket Heaving Records; Oss Third

Thirteen Goals from Floor in Two Games Boosts Gopher Star Into Second Position; Birkhoff and White Lead Free Throwers

Aviating from twelfth to second position in the Big Ten basket-flipping standing in two contests, Neal Arntson, Gopher forward, looks like a "dark horse" for the final scoring laurels. Raining seven baskets from the floor against Northwestern and following with six against Chicago, Arntson boosted his record up to 31 goals in nine games and is now camping hot on the heels of Captain Taylor of Wisconsin who still holds the pinnacle-post.

Oss Is Third
Oss of Minnesota also shows a gain in position, though Doc Cooke's new "Oss to Arntson" feeding combination has taken a small chunk out of his percentage. The Gopher captain has passed Vollmer and Carney and gone into third place with a per cent of 3.33 baskets per game, according to the latest Minnesota Daily exclusive compilations. Vollmer of Chicago is consistent in his "petering out" act and now resides in fourth place with Carney of Illinois fifth.

Birkhoff has dropped off miserably in the last two games and now holds sixth place, .01 ahead of Blair of Ohio State. McIntosh, the new sensational Badger center, follows in eighth and White of Purdue and Shimek of Iowa are tied for ninth and tenth.

Birkhoff Leads Scorers
Despite his drop in field baskets, Birkhoff still blazes the way in grand totalage with 125 counters, resulting from his floor work and free throw attempts. White of Purdue has 117 and Taylor of the Badgers is third with 113. Birkhoff and White are running a dead-heat in free throwing, both having punctured the mesh 67 times so far this season. Dean of Indiana and Karpus of Michigan tie for second with 51 and Shimek in third with 40.

These averages include all games played up to March 4, except Indiana's scoring in the Ohio game of Feb. 14 and Purdue's scoring in the Illinois game of Feb. 22.

Player	Team	Games	Goals	Field Ave.	Per. Game	Free Throws	Total Points
1. Taylor—Wisconsin	10	37	3.70	39	113		
2. Arntson—Minnesota	9	31	3.44	22	84		
3. Oss—Minnesota	9	30	3.33	2	62		
4. Vollmer—Chicago	10	33	3.30	8	74		
5. Carney—Illinois	6	19	3.16	..	38		
6. Birkhoff—Chicago	10	29	2.90	67	125		
7. Blair—Ohio	9	26	2.89	..	52		
8. McIntosh—Wisconsin	5	14	2.80	..	28		
9. White—Purdue	9	25	2.78	67	117		
10. Shimek—Iowa	9	25	2.78	40	90		
11. Halliday—Chicago	11	30	2.73	..	60		
12. Dehority—Indiana	8	21	2.63	..	42		
13. Knapp—Wisconsin	4	10	2.50	..	20		
14. Reitsch—Illinois	10	23	2.30	..	46		
15. Dunne—Michigan	7	16	2.29	..	32		
16. O. Taylor—Ohio	4	9	2.25	..	18		
17. Hellstrom—Illinois	6	13	2.16	..	26		
18. Coffing—Purdue	9	19	2.11	..	38		
19. Walquist—Illinois	10	21	2.10	1	43		
20. Marxson—Indiana	8	16	2.00	..	32		
21. Eversman—Purdue	9	18	2.00	..	36		
22. McGoveny—Iowa	4	8	2.00	1	17		
23. Dean—Indiana	8	15	1.88	51	81		
24. Karpus—Michigan	10	18	1.80	51	87		
25. Clark—Ohio	5	9	1.80	23	41		

won both races; lowering the low hurdle mark to 8 flat and the high to 9 2/5.

In 1920 the performances of Jack Scholz were notable. The little Missouri flyer got away to a perfect start in the 75-yard dash and equalled the world's record of 7 3/5 for the distance. This mark has stood for many years, jointly held by Bennie Wefers, Archie Hahn, and Howard Drew.

Track Good
One of the reasons for the unusual record-breaking performances year in and year out is the quality of the track. The 75 yard straight-away is

one of the finest in the country. It is carefully built up each year with southern clay and kept in the finest condition the year round.

Sons and daughters of farmers, retail merchants, and workers in various trades constituted about 40 per cent of the freshmen who entered the University of Wisconsin last fall. There are 208 farmers, 205 retail merchants, and 182 employes or workers in trades among the parents or guardians listed by about 1,500 of this year's freshman class.

Greek Fives Ready For Final Battles

Sigma Phi Eps Are Popular Favorites To Nab Honors

Doping the winners in the semi-final round of the interfraternity basketball tournament this year is about as easy as picking the conference champion.

Up to a week ago, one would have said that the Alpha Sigs and the S. P. E.'s were the top-heavy favorites to win. They had run through all of their games in easy fashion. The Alpha Sigs had amassed a total of 128 points to their opponents' 17. They had defeated the Zeta Psis 36 to 0. The S. P. E.'s, not to be outdone, had overwhelmed the Chi Psis 35 to 0, and won all of their games, with one exception, in comparatively easy style.

Phi Kaps Hit Stride
Now all is changed. The Phi Kaps, after a slow start, have finally hit their stride, and anyone who saw them smother the Dekes can't see how they can lose to any other team. When they were held to a 9 to 8 score by the D. U.'s early in the year and succeeded in pulling that game out only after extra periods of play, no one looked upon them as serious contenders.

S. P. E.'s Are Favorites
In the game between the Alpha Sigs and the S. P. E.'s, the doping of the winner is a difficult task. On actual scores and comparative records, the Alpha Sigs should win, but after seeing the two teams in action, one is lead to believe that the reverse will be true. The S. P. E.'s are headed by such a sterling performer as Junke at center, ably assisted by Patrick and Partridge at forward and guard respectively. The Alpha Sigs on the other hand are not so destitute of stars.

Before You Decide

on not getting anything new for school wear this spring just run into the Emporium and ask to see their plaid skirts.

Not only are they just ething for school, but also later on they will prove the very thing for sport wear. In all combinations of colors to suit everybody's taste—and go well with everybody's sweater—they have the extra attraction of being priced as low as.

POWERS

The New Sweaters Are Such Attractive Affairs
Here's a Sale of Samples

\$3.95

They are a sample lot, hence a wide variety—and small price. Last season you paid almost three times as much. We illustrate just three—a pure zephyr in fancy block stitch with a patent leather belt, a plain zephyr with fancy knit tuxedo collar and border and a tailored jersey model.

You simply can't do without at least one new sweater for spring,—no woman needs to be told how comfortable they are to slip into, but we might add that these new ones will lend a very smart touch to any spring or summer outfit.

It's no problem to find a becoming color, for they are shown in turquoise, purple, open, buff, black, navy, American Beauty and a few in salmon and white.

Sweater Section—Second Floor.

Brown Semi-Brogue Oxfords

The Final Touch for the Tailored Suit

Friday and Saturday Specially Priced

\$6.90

A rich dark brown oxford with perforated imitation wing tip—styled to be the correct finish for the new tailored or street suit.

Moreover, it is made on an unusually comfortable last that makes this brogue style so very popular.

This lowered price for Friday and Saturday only.

Shoe Section—Second Floor.

For just such happy moments as this, Coca-Cola was created delicious and refreshing.
