## GOPHERS PLAY TERRIFIC BALL AGAINST HAWKEYES

### QUINT RALLY IN LAST HALF.

#### Iowans Play "Rough House" Ball. Two Men Taken From Game for Continued Fouling.

BY "KAISE"

Any hopes which the Hawkeyes may have entertained for a double victory over Minnesota were speedily dissipated Saturday night when the Gophers deftly affixed a "mustard plaster" on the budding ambitions of the Iowans with a 23 to 18 score. Altho it was generally surmised before the game that Minnesota had about as much chance of winning from the Iowa "bunch" as a tallow-legged-dog has with an asbestos cat in an oven, yet the Gophers took a decided brace in the last ten minutes of play and literally romped away with the game despite the frantic efforts of the Hawkeyes to stem the tide of defeat. It was during the initial session that the Iowans loomed up dangerously, the score at the end of the set-to standing 7 to 6 in favor of the visitors.

It is the consensus of opinion that Minnesota deserved to win by a larger score since Dame Fortune did not smile upon Minnesota's attempts at basket shooting and many an attempt was missed by the narrowest margin. "Rough house" tactics were employed to a considerable extent and it is universally conceded that the Iowans were the principal offenders in this respect. Their tripping, slugging, elbowing and holding did much to mar the game and it was on account of the use of these tactics that two of Iowa's players were "benched."

Minnesota was the first to score.

A pretty field basket by "Andy" doing the work. This slight advantage proved to be only temporary and the score saw-sawed with one team in the lead and then the other. Contrary to previous methods, the line-up for Minnesota was unchanged in the second half. This session was one of the fastest and most interesting ever seen on the Armory floor even tho a lot of dirty tactics were used and the suspense of seeing one team and then the other forge into the lead was nerve-racking. It was in the last ten minutes of play that the game was "clinched," the Minnesotans "playing rings around" their heavier opponents and having the ball in their possession the major portion of the time.

Grimes played his first varsity game at the pivotal position in place of Mencke, who was incapacitated and, altho the much-touted Hyland scored two baskets on him, he more than made up for this in breaking up team work and "feeding." Captain "Chris" was again the star of the game and chief point-getter for Minnesota securing four field goals and doing excellent work in the other departments of the game. Ryden played the best game for Iowa despite his roughness and Iowa's team work took a visible slump when Referee Machatanz ordered him off the floor.

The "freshies" gave the first team a good object lesson in the art of winning by "mopping up" the Minneapolis Y. M. C. A. quint in a preliminary game by a score of 44 to 10. "Bill" Clarke, a brother of "Steve" Clarke of the championship team of '06, starred for the "frosh," securing a total of ten field baskets and playing the floor in great shape.

## ROY BOUGHNER SECOND IN COURSE IN JOURNALISM

### Will Speak on "Staff Organization." Club Decide to Take Up Practical Work.

Mr. Roy Boughner, city editor of the Minneapolis Tribune, will deliver the next lecture before the Journalistic club Thursday at 4 p. m. in Dr. Burton's lecture room.

The subject of this lecture will be "Staff Organization," which is the vital point in the success of a modern newspaper and includes practically all newspaper work.

At the last meeting of the Journalistic club, it was decided to have a story handed in by each member of the class every week to be corrected by the experienced over-town newspaper man.

## CAMPUS INVADED BY ANTI-TUBERCULOSIS MOVEMENT

### Exhibition Opens Formally Today at 10:30—All Third Hour Classes Are Excused.

This morning the Anti-Tuberculosis Exhibition will open in the rotunda of the Library Building. Beginning at 10:30 a. m., a program of speeches about consumption, its different phases, and its economic influence upon the people, will be delivered by prominent faculty members and officers of the Anti-Tuberculosis Association. The program follows:

University Chapel—March 2, 10:30 a. m.

Pres. Cyrus Northrop, Chairman. Dr. H. M. Bracken, Secretary and Executive Officer, Minnesota State Board of Health and Professor of Preventive Medicine, University of Minnesota.

Dr. Charles Lyman Greene, Professor of Medicine, University of Minnesota. Miss Ada Comstock, Asst. Professor of Rhetoric and Dean of Women, University of Minnesota.

Mr. Eugene T. Lies, General Secretary, Minneapolis Associated Charities, "Tuberculosis and Poverty."

Chemistry Building Lecture Room. March 2, 4 p. m.

Prof. John F. Downey, Dean, College of Science, Literature and the Arts, University of Minnesota, Chairman.

Dr. George Douglas Head, Professor of Clinical Microscopy, University of Minnesota, "What is being done in Minneapolis to Prevent Tuberculosis?"

Dr. F. E. Clements, Professor of Botany. The third hour classes will be omitted today and all students are urged to attend the exhibit and lectures.

### PREPARATIONS FOR CADET BALL GOING ON APACE.

Tuesday evening, April the thirteenth, has been set for the date of the Annual Military Ball given by the officers of the Cadet Corps. It will begin in all military pomp and circumstance with martial music and flags and tents where cosy nooks will be provided to while away the time between dances.

Much joy has been created by the announcement that no flowers will be sent for this function.

## DR. HALL RETURNS FROM SOUTH AMERICAN TRIP

### GUEST OF CHILIAN GOVT.

#### Reads Paper Before Pan-American Conference of Arts and Sciences at San Diego.

Professor Hall, head of the Geology department returned Saturday from his trip to San Diego, Chili, where he has been attending the Pan American conference of Arts and Sciences. Dr. Hall is one of the eighteen men selected by the United States government to represent them at this great meeting of scientific men.

The meeting also marks a new epoch in the affairs on the American continents as heretofore it has been called the Spanish American conference and the United States was never before invited to take part.

All expenses of the delegates were paid by the Chilian government, which included transportation all over the kingdom. A five days trip over the kingdom was arranged by the Chilian government during the intermission of the convention. The convention proper was held from December 25 to January 5 in San Diego. All the scientific subjects of the time were discussed including papers by the leading delegates.

Dr. Hall read two papers on "The Origin and Occurrence of Iron Ores in Minnesota" and the "Origin of the North American Prairies."

While in Chili, Dr. Hall made some original investigation of the South American geological phenomena.

## GIRLS FURNISHED FOR HOP

### Underclassmen Urged to Attend. Rasmussen's Four-Piece Orchestra Dispense Music.

Chairman Leuthold of the social committee of the senior class, reports that all arrangements for the first senior informal, have been completed. It is to be held in the popular little hall over Thoen's stylish toggerly shop.

Rasmussen's four-piece orchestra, consisting of two hands and two feet, has been secured and will dispense barn dances, rye waltzes and spanish waltzes till everybody has had their fill.

All underclassmen are especially urged to attend and the committee promises to furnish young ladies for all those who are without this necessary accessory. The tax is one dollar and tickets may be obtained from any member of the committee which consists of Walter Leuthold, Robert Foulke, and Zenas Potter.

## CADETS FEEL IRON HAND

### Captain Sigerfoos Lays Down Law Cuts Must Be Made Up At Once.

No longer can care-free cadets cut drill with the consoling thought that they can make them up "sometime at the end of the semester. Henceforth all absences must be made up within a week after the return to drill. All absences so far this term must be made up within two weeks. There will be no extra make up drills at the end of the semester so if skips are not made up in the specified time it will mean a flunk for the absentee.

## EUTERPEAN CLUB SCORE BIG HIT IN OVERTOWN CONCERT

### Club Shows Marked Improvement Augustus Milner and Grace Golden Popular

Last Friday night the Euterpean Club warbled and trilled its way into every body's heart. The Club has improved immensely since last year, notably in the first soprano section. The girls sing with precision, expression and with a freshness of voice that is delightful to hear, and they follow Professor Scott's baton with a faithfulness that shows their confidence in their director.

The first group consisted of three numbers, Schumann's "Gypsy Life", Goldmark's "The Message" and De Koven's "Ohe Carita"; the last number was sung the best of the three, as the girls had just begun to warm up to their work.

Next came the two loveliest choral numbers of the evening. Sir Edward Elgar's "The Snow" and "Fly, Singing Bird," with an unusual accompaniment of piano and two violins. The last group opened with Wagner's "Spinning Chorus" from "The Flying Dutchman," a "Lullaby" by Frank Bibb and Helen Painter and "The Italian Serenade."

Augustus Milner and Mary Halliman assisted the Club in Hadley's fine cantata, "The Legend of Granada" and Mr. Milner took the baritone solo in the "Italian Serenade." In addition he gave a group of songs, "Requiem" by Sidney Homer and "Loves Springtide" by Hammond, responding to a hearty encore with "Noon and Night" by Hawley. Mr. Milner sang splendidly. Miss Halliman has a voice of fine quality and power. Grace Golden played a "Gavotte" by Gossec and two quaint minuets by Beethoven and Mozart, and with Mrs. Scott gave beautiful obligatos to the Elgar numbers. Gertrude Hull accompanied the Club in her usual faultless style, and to her much of its success was due.

## "HISTORY OF MATHEMATICS" LECTURE BY E. H. COMSTOCK

### "Ahnès Papyrus" and "Akkin Papyrus" Two Documents of Archimedes, 1700 B. C. Will Be Shown.

Professor E. H. Comstock will deliver a lecture on Mathematics before the Miners' society Thursday. The lecture will be illustrated with two hundred and fifty stereoptical views of live mathematical subjects. Two documents of Archimedes on the "Ahnès Papyrus" and the "Akkin Papyrus," dating from 1700 B. C. are among the slides. A document of Sir Isaac Newton's work and a picture of a piece of pottery dating from the first Egyptian dynasty, on which appear what is supposed to be the first numerical inscription, will be shown.

Professor Comstock has made three trips to Wisconsin University to gather data for this lecture besides having personally made a very exhaustive study of the History of Mathematics. His lecture should be of value to every student of the University.

Iowa had an intra-freshman indoor meet last Saturday evening. Over sixty men were entered.

The Tuberculosis Exhibit.

Every student in the University should take the opportunity to find out something about tuberculosis, and its cure during the present exhibit.

It is not a pleasant subject to talk about; but is one of vast importance. One person in every ten is destined to die of tuberculosis according to the present death rate. Such being the case every one of us should certainly have a deep interest in its prevention and cure.

We are informed by those who have made a special study of the matter, that the disease is not incurable; but that it is contagious, that flourishes in filth, in unlighted, unventilated rooms and under unsanitary conditions. We are informed that the disease is easily curable in its early stages, but that the longer time it is allowed to develop the harder it is to combat. We are told that the tuberculosis germs are destroyed by cleanliness, fresh air and sunlight, and that an organized fight by society, in which each person does his part, will do much to diminish the mortality of this most deadly disease.

It will surely be worth while to find out the facts at the present exhibit.

In the light of the game Saturday night, the charges of rough play on the part of the Minnesota basketball team at Iowa City some time ago do not seem very well founded. If anything, Iowa was the aggressor in the last game, and while Minnesota played a hard game, there was little evidence of intentional roughness.

Incidentally we may remark that Minnesota put up the best basketball seen on the armory floor this year.

## Don't You Know "Fadclothes?"

- Really you ought to.
- They're unlike any other clothes.
- They're for young men from '50 years down.
- Some of the styles are deucedly extreme. For the younger ones.
- Others are more moderate. For young men a little older.
- Yes, they're truly exclusive, original, unique, happy.
- They're catching on to a surprising extent.
- They are designed by artistic young fellows with nerve.
- Nerve to go ahead and use some new thought.
- Nobody else has "Fadclothes" in Minneapolis.
- We've a rattling good assortment at \$15.
- A whole lot at \$20.
- Some real gems at \$25 and \$30.
- Ask especially about the stagey patterns. They're rich.

### Three Requirements For All Students

You need reliable, original and complete material for written or spoken work. You also need books and magazines. And later a summer or permanent position, which you should plan for now, before all the best openings are filled. Here is the way to get all three at a minimum of effort and expense.

### We Are Dealers In Facts

We furnish the best information obtainable on any subject in school, college or club, in business and public affairs. Our work is accurate, complete and to the point, carefully typewritten, promptly supplied, and arranged in suitable form, with outlines, bibliographies and full references.

We not only have in our own force highly-trained investigators and specialists in various lines, but we have made a business of "knowing the men who know" and by means of this system of knowing "Who's Who for Efficiency" we can go straight to headquarters for authoritative information and expert advice.

Added to our large stock of information on hand and our means of obtaining authentic information, we have a highly efficient system of sifting, arranging and presenting our facts in form that exactly meets individual requirements—that would exactly meet your needs.

We are especially strong in political science, economics, sociology, anthropology, fine arts, literature, applied science, commercial geography, travel and exploration, international law and diplomacy, history, foreign affairs, interstate and foreign commerce, financial and industrial conditions, and public problems and live questions of the day.

The cost is less than might be expected. Our charges for new and original material are at the rate of two dollars for each thousand words furnished. Quality of work guaranteed, or money refunded. Methods, references and quotations on important investigations furnished upon request. (We have thousands of articles on hand which we offer, subject to prior sale, a \$1.50 per thousand words, Send for price list.)

### A Desirable Position For All

If you are wise, you are already planning about a summer or permanent position or about an opening in the professions or independent business. To introduce our service to you, we will give you advice, information and real assistance along these lines without charge (from now up to the time you secure a desirable position) if you send us a five dollar order for information,—i. e. 2,500 words or over at \$2 per thousand.

In our official capacity, we come in touch with boards of trade, chambers of commerce and other local and general organizations of employers, as well as large corporations and other concerns, educational and other institutions, and municipal, state and other governmental departments. We are thus in a position to know of positions of all kinds everywhere as well as opportunities for starting out in business or professional lines.

No red tape, no commissions, no strings are attached to this offer. It is free and unconditional. This information we gain about positions is simply a valuable by-product of our regular information business, and we use it to attract, help and thus hold customers. We do for you all that any regular employment agency can do, with this important difference—we ask you to sign no involved contracts, pay no fees or commissions, and incur no other obligations.

### Books and Magazines Free

As a further inducement, with every five dollar order for information we will give free, in addition to the employment privilege, any book or a year of any magazine you specify, the publishers' price of which is not over one dollar. With a ten dollar order for information, we will give \$2 worth of books or magazines, with a \$15 order, \$3 worth; with a \$20 order, \$4 worth; with a \$25 worth; and so on. Two or more men may club together with several subjects to make such an order and divide the privileges among them.

### How To Order

Just think up one or more subjects on which you need material. Estimate the number of words required. Enclose two dollars for each thousand words desired, give us exact directions as to what you want and when you want it, and if order is for five dollars or over, name the books or magazines you wish and tell us about the position you would like and your qualifications for it. We will do the rest. Address at once.

### NATIONAL CLEARING HOUSE OF INFORMATION

Arthur Everett Small (Late Special Investigator U. S. Gov't) Director

## GILLETTE SAFETY RAZOR

Clean Shaving is part of the college man's gospel. It goes with the exercise and outdoor life—with good spirits and good health.

Five minutes a day spent with the Gillette Safety Razor keeps the face shipshape. The skin is soft and clear.

The Gillette Safety Razor has a big following among College men. The best shaved men on the campus use the GILLETTE.

The GILLETTE is kind to the face—the keenest and smoothest shaving edge ever devised. Any man can give himself a clean, satisfying shave with the GILLETTE—despite tough beard and tender skin.

The GILLETTE is handy—no stropping, no honing. A saver of time and money—\$36 a year, and tips.

There's no razor like the GILLETTE or that will do the work of the GILLETTE.

The Gillette Safety Razor is sold by thousands of dealers. A man can get blades anywhere on the civilized globe.

Standard sets, \$5.00.

**SOME EXPERT TESTIMONY.**

It's twenty years since this business was founded, and the same hands now guide it that at that time assumed the helm. So it's reasonable to believe that a clothing suggestion from such a source will be meritorious and worthy of consideration. The suggestion is simply this:—

You know how useful a blue serge or black Thibet suit is always suitable for business, always dresy and very serviceable. Every man's wardrobe should have one or both of these suits; makes an agreeable change for constant wearing of your fancy weave suit.

We're going to give you a chance to supply yourself with such garments now, by a special sale of black and blue suits. We'll show you blue serge, black Thibet, blue fancy weave with self stripes; blue and black worsteds; single and double breasted models; with plain or fancy pockets; with peg trousers turned up, or the more conservative styles; with many good ideas in the cut of the waistcoats. A very smart lot of goods in all weights, for now.

Two groups of blue and black suits. Group I: At \$18 a fine line of choice fabrics in all sizes with many of the smartest models; young men's among them. They've been as high as \$28 we shall clear them at \$18.

Group II: At \$25, includes besides tie serges and fine worsted and Thibets some Prince Albert suits also coats and vests, Tuxedo. Many of these are richly silk lined. Values to \$35, clearing, \$25.

We continue the clearance of 1908 fancy suits and overcoats, giving you a chance still to get the best clothes made. Hart, Schaffner & Marx quality in these as well as in the blue and black sale, at much below usual prices.

\$15 gets values up to \$22; \$18 gets values up to \$30; \$25 gets values up to \$40.

Trousers, \$3.50 worth to \$5; at \$5 worth \$8; at \$2 worth \$3.50.

As soon as you're ready to look we're ready to show you the great wealth of new goods for Spring already in and daily coming. Hart, Schaffner & Marx have produced for us some wonderfully fine things in new models and fabrics in Spring suits and overcoats. You will find some very choice stuff here, from \$18 to \$30.

Manhattan shirts were never displayed in greater or richer variety than now; the new colors and patterns are fine, \$1.50 to \$3.50.

In hats, more styles than usual. Stetson's from \$3.50 to \$12. "Special" \$5 hat is exclusively here in Minneapolis, new shades.

**At The Theaters**

**Metropolitan.**

"The Thief" is one of the strongest and most interesting plays seen in Minneapolis this season. The clash of conflicting emotions and passions gives rise to scenes which are powerful in their dramatic intensity and which grip the spectator like vises of steel.

**Lyric.**

"The Regeneration" is one of the most satisfactory Lyric offerings in recent weeks. It is a play which deals with the problem of the regeneration of a human soul by a pure woman.

**Bijou.**

Spice, life, and dash are all present in varying proportions in "The Fool's House," which The Four Huntings are presenting here this week.

**Princess.**

There are two or three feature acts on this week's strong bill any one of which would make an acceptable headliner.
