Duluth--- Dr. Cecil H. Meyers, head of the Department of Economics at UMD, this week was elected president of the Minnesota Economic Association.

At the same time, the association decided to hold its 1967 annual meeting on the UMD campus next October with about 100 persons expected to attend.

The association is made up of professional university and industrial personnel in the fields of economics, business administration, industrial relations, banking, labor and government.

Its purpose is to promote an understanding of the results of current economic research and other economic matters throughout the state.
