

THE MINNESOTA DAILY

VOLUME XIV

THE UNIVERSITY OF MINNESOTA, WEDNESDAY, NOVEMBER 20, 1912.

NUMBER 45

CHICAGO SEATS ON SALE.

Student Tickets Will be Obtainable Thursday Afternoon.

Students may obtain tickets for the Chicago-Minnesota game by calling at Manager Leach's office in the Armory Thursday afternoon. Exchange tickets will be sold for 50c each, and may be exchanged at the box office at Marshall Field for \$2 seats. The same rules will apply as were enforced in regard to student tickets for the local games, i.e., the tickets will be non-transferable, and only one will be sold to each student. Tickets for outsiders may be obtained at the regular prices at Voegeli's West Hotel Drug Store. No student tickets will be sold after Thursday.

NORTHWESTERN COURSE BEST IN CONFERENCE

Annual Cross-Country Race Will Test Endurance as Well as Speed.

Coach Omer Places Great Confidence in Thorsen—Purple Team Should Place.

Evanston, Ill. Nov. 19—(Special to the Daily) Coach Lewis Omer of Northwestern is completing preparations for the big Conference cross-country run to be held here on Nov. 23. The course that is being marked is one of the best to be found in the Conference. Its strongest feature lies in the fact that it provides for both fast and heavy "going". It is composed partially of hard boulevard pavement, of soft sand, cinders and grassy turf. Coach Omer believes that this variety will put differently trained runners on an even basis. He thinks that the boulevard will lend speed to the race, while the heavy turf will test the endurance of the men.

The coach refuses to make any predictions regarding Northwestern's chances. He admits that he has great confidence in Thorsen. The little Purple runner has made good showings in previous cross-country runs, and with the advantage of a level course should finish toward the front in the long grind of this year.

ACANTHUS WILL ENTERTAIN.

Dr. Burton Will Address Societies on O. Henry Thursday.

Acanthus Literary Society, which is making a special study of Kipling and O. Henry this semester, has invited the members of the three other literary societies among the women, to its next meeting to be held in Shevlin, Thursday November 21 at 4 p. m.

It is hoped that a large number of girls will attend as Dr. Burton is to give a lecture on O. Henry.

Every member of the Girl's Literary Societies whether she has received a written invitation or not, is cordially invited to be present.

Engineers in Demand.

The electrical engineering department has requests at the present time for a commercial engineer for a large operating company, also for an assistant chief engineer for a large mining company.

AGRICULTURAL AUTHORITY GIVES CHAPEL ADDRESS

Editor of Popular Farm Journal Talks on the Qualities of Intellect.

Attacks College People for Refusing to Accept Things That Are New.

Mr. Henry Wallace, of Des Moines, Iowa, editor of "Wallace's Farmer" a well known farming journal, was the speaker at the regular noonday chapel exercises yesterday. Although a widely known writer and speaker on subjects of an agricultural nature Mr. Wallace did not make agriculture his theme, but spoke namely of the moral qualities of intellect that should be developed by college people.

According to Mr. Wallace college students are prone to agricultural and intellectual standpattism—the unwillingness to consider anything new.

His belief is that, "if we keep along in a narrow line of thought no brain cells will be formed in other directions and we will be narrow. Unless the intellect is educated morally as well as intellectually it will not be able to do much. The world is in danger today from educated men without moral stamina. These men do much harm, and however great they may be they are not remembered or loved. The men of the past who have been loved and remembered are those who have kept in touch with humanity. We need business men who know the hearts of men."

In concluding Mr. Wallace asserted that those who make good in after years will realize that their inspiration comes from a few professors, men who realized and have stimulated their lives in knowledge and wisdom. These great teachers affect not only their own generation, but those that follow.

CRACK SQUAD PARTY TONIGHT

Seven Piece Orchestra to Play Program of Sixteen Dance Numbers.

Tonight in the Armory an informal dancing party will be given by the Crack Squad for the first time this year. All preparations have been completed and a large attendance is expected. The service of a seven-piece orchestra have been secured and an excellent program of sixteen dances has been arranged for. The new floor being waxed, will be in fine condition for dancing.

The drill which the squad will put on between the seventh and eighth dances is entirely new and has been pronounced by alumni members of the squad as the best drill ever given. The members of the squad have been working hard on this drill and hope to be able to present it in a very acceptable manner.

Dancing will commence with a grand march at eight-thirty o'clock. The patronesses are announced as follows: Lieutenant and Mrs. Woolnough and Dean and Mrs. Shenhon.

FRESHMEN TO HAVE SPREAD.

First Year Class Arranging For First Get Together of Year.

An all freshman spread, to be held in two or three weeks is being planned by the first year men. This will be the first social affair of the class and a committee has been appointed to push the arrangements. The spread will be held in either Shevlin Hall or the new engineering building. It is planned to have the banquet begin at seven o'clock and continue until nine, when the floor will be cleared and the rest of the evening spent in dancing. Different members of the class will give a few vaudeville stunts and talks will be made by freshmen. A few privileged upper-classman have been asked to address the banqueters and to give advice gained from their experiences.

DR. POWELL DISCUSSES THE NEGRO PROBLEM

Religious Director to Publish Series of Articles During Home Mission Week.

Question of the Colored People is Vital to the American People Today.

In connection with Home Mission week, being observed this week by the churches of the country, Dr. John Walker Powell religious work director of the university, is writing a series of articles on subjects suggested by posters appearing each day this week in front of the post-office. The first of the series, printed below, is on the Negro Problem.

The Negro Problem.

One of the most perplexing of American problems is that of the Negro. From four millions at the close of the civil war, the colored population has increased to about ten millions. While a large percentage of these have become intelligent and self-supporting, there can be no doubt that great numbers have degenerated rather than progressed since slavery days. How to promote education, encourage thrift, eliminate the vices to which the negro is subject, and make him on the whole a strength rather than a menace to our civilization, is the problem before the American people.

Most southern states have in the past few years adopted constitutional provisions excluding the negro at least temporarily from political privileges. There is danger in some sections that the power of the white man will be exerted, directly or indirectly to reduce his black brother to a condition of perpetual serfdom.

The effort of the Christian churches is to promote industrial and common school education, with a view to rendering the negro at once intelligent and self-supporting.

In addition the churches seek to inculcate the highest moral and spiritual principles, and to surround the ignorant and child-like people with such influences as shall stem the tide of degeneracy and make the negro a worthy and self-respecting member of the community.

TRIP THROUGH STATE PLANNED BY UNIVERSITY

Prof. Lehnerts Promoting Course to Familiarize Students With State.

Would Have Members Take Extensive Outdoor Trip During Vacation.

Patriotism for the state, and in accordance with the idea of President Vincent to make the University as broad as the commonwealth, and to take the University to all corners of the state induced. Prof. E. M. Lehnerts of the Geology department to plan an excursion through the state of Minnesota to study the geography and geology. It has been his practice formerly to conduct classes through the west and the past summer he had a party of twelve students in Glacier Park. University credit is given for the course in which business is so nicely combined with pleasure. The commercial clubs of the different cities to be visited in the tour are to be asked to lend their support to the project by inducing the hotels to make a nominal charge and to ask the city to furnish transportation in carriages or automobiles to the points of interest in and about the city. The superintendents of schools throughout the state are informed of the proposed plan and are requested to make it known to their pupils in order that any so inclined might take advantage of this opportunity to see the beauties of Minnesota rivers, valleys, pipestone quarries and, last but not least enjoy a canoe trip of a week in one of Minnesota's northern rivers.

If such a trip can be planned to cost about the same as a summer session course would cost students who remain on the campus, Prof. Lehnerts will plan one. It is hoped that the trip will not cost more than \$65.

LOST ARTICLES RETURNED.

Postmaster Poucher Answers Many Applicants.

The "Lost and Found" department in the post office is proving quite valuable in a minor way. Large numbers of small articles, such as gloves, scarf pins, beauty pins and comb sets, are daily brought in. More, indeed, are brought in than taken out and postmaster Poucher wishes that persons who have lost such articles would come to claim them, otherwise he will be forced to hold a sale in the near future. Many persons also ask for articles not brought in, and Mr. Poucher requests that notice be given to him of articles of value and money found.

Telephones Are Installed

Public pay phones are being installed in the small exits of both the men's and women's post offices. The telephones are of the portable variety with slots for inserting the coins. If this new arrangement is found unsatisfactory, the regular telephone booths will be installed.

PATHS AND MORE PATHS.
Early in the morning every second is precious, and it is often a great convenience for one to take a short cut across the campus when hurrying to an eight o'clock class. At any rate a great many undergraduates, and several instructors, seem to consider the practice a time saver. As a result the beautiful lawns are being destroyed by numerous paths, and if the habit of cutting across is not discontinued the campus will soon resemble a pasture.

MUCH NEEDED IMPROVEMENT
We hear each year from our rural statesmen of the vast sums that are to be expended in the future by the highway commission in the making of good roads. It would be a mighty valuable investment if a small portion of this appropriation could be directed devoted to the improvement of the roads right here on the campus. For four years we have been waiting for the betterment of the streets in the community, and each year the matter is postponed.

In fair weather the campus, in addition to the pall of smoke that is always above us, is swept with clouds of dust from the roads which would be a disgrace to a village. In wet weather the streets are a mass of mud-holes and puddles. In seeking to further plans for a campus beautiful we believe that good roads should receive primary consideration.

FRESH-SOPH DEBATE SOON.
In Annual Clash Big Question Will be Decided.

The annual clash between the Freshman and Sophomore classes in debate will take place Tuesday December 17. Teams representing each class have been selected for some time and are working upon the question: "Resolved that the United States Steel Corporation be disintegrated into competing units." This includes the issue between monopoly and competition which constituted the essential difference between the Democratic and Progressive parties in the recent campaign.

Junior Girls Banquet.
Tam O'Shanter girls gave a banquet in Shevlin last night. Some of the decorative schemes worked out by the girls showed great originality and were a source of much fun. A programme of stunts followed the dinner.

Write Ideas For Motion Picture Plays!
YOU can write photo plays and earn \$25. or more weekly
WE WILL SHOW YOU HOW

If you have ideas—if you can *THINK*—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100 and more, for single scenarios, or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our SALES DEPARTMENT has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, IMP, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."
Perhaps we can do the same for you. If you can think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25, a low figure,
You will earn \$100. monthly for spare time work.
FREE Send your name and address at once for free copy of our illustrated book, "Moving Picture Playwriting."
Don't hesitate. Don't argue. Write *now* and learn just what this new profession may mean for you and your future.

NATIONAL AUTHORS' INSTITUTE 1543 Broadway
NEW YORK CIT

UNIVERSITY NOTICES

Graduate Club—There will be a meeting of the Graduate Club Thursday evening, November 21, at eight o'clock in Shevlin Hall. All graduate students are invited.

Trailers—There will be an open hike Sat. Nov. 23 after the returns from the Chicago game. Every girl is invited and asked to meet at Shevlin. Rosalie Zeien and Celia Koppin will be in charge.

Liberal Association—Dr. John Walker Powell will address the Liberal Association Wednesday at 4 p. m. in room 9 Folwell Hall.

Try-outs—"The Minne-Ha-Ha!" announces that competition for associate appointments on the staff of artists will commence at once and last until December first. Any one in the University is eligible, and any kind of drawing will be accepted. It is especially desired that sophomores and juniors compete. Those freshmen artists who intend to try out for the Minnehaha Board next year will be given a preference at that time if they have submitted drawings this year. All drawings submitted must be addressed to the Art Editor of "Minn-Ha-Ha!", and must be placed in box 2490 before December 1.

All Students—On Wednesday at four p. m. in room 209 Folwell Hall, Prof. Albert R. Bandini will give a public lecture on "Tendencies in Recent Italian Poetry."

CLASSIFIED ADS.

Rates—Cent a word; minimum charge 20c. Payable in advance.

Help wanted—Two or three live, snappy agents to place saving's banks on a house to house canvas—Good clean work, with large commission assured.

Minneapolis State Bank, Nicollet Ave & Lake St. —194—

For rent—A large room, four windows, south & east exposure. Thoroughly modern. With or without board. 1316 S. E. 7th St.—N. W. 1450 —195—

STATEMENT OF FINANCES.

Statement by All-University Color Committee on sales of maroon and gold capes and caps for the Wisconsin game:

Receipts:	
229 Outfits at 35	80.15
27 Outfits at 30	8.10
1 Cape	.20
Collected at Senior Meeting	4.75
	93.20
Expenditures:	
260 Outfits at 30	78.00
1—½ Page Ad in Daily	7.50
1—¼ Page Ad in Daily	3.75
	89.25
Balance on hand	3.95
Outstanding: 2 Outfits at 35	.70
Lost: 2 caps and 1 cape	
The balance of \$3.95 will be used in defraying part of the expense of getting the returns from the Chicago	

game in Chapel Saturday.

PROF. RANKIN GIVES VIEWS

Believes That a Broader Choice of Courses Would Increase The Enrollment.

Mr. Rankin, of the department of education, holds very decided views regarding several phases of the University work which have been brought to his notice through his years of experience in matters of educational interest. Perhaps no one in the state possesses the wide acquaintance of Mr. Rankin and he is very well qualified to express the general sentiment.

He believes that much of the adverse and unjust criticism of University methods which is sometimes heard could be done away with by not paying so much attention to caps and gowns and the giving of degrees. Mr. Rankin maintains that the University is distinctly a state educational institution and as such should endeavor to help the greatest number possible. In this connection he said: "Schools in general should pay more attention to way stations and not so much to terminals. There should be more getting on and off facilities."

Mr. Rankin does not believe in putting too many restrictions upon those entering the University and thinks that greater liberty should be given in the selection of courses. If such were the case, he thinks that many would be induced to spend one or two years in college, who would otherwise be unable to attend because of too severe restrictions, and that the University could in this manner better fulfil its duty to the state.

Y. M. C. A. MAKES PROGRESS

Many New Classes Formed for Study of World Wide Social Conditions.

The Mission Study Classes of the Y. M. C. A. are now in full operation. The classes are studying world conditions through the means of John R. Matt's book on "The Decisive Hour of Christian Missions." Just now the Turkish and Balkan conditions are commanding peculiar attention due to the present trouble there. These classes meet for 50 minutes each week.

Dr. Powell teaches a class which meets on Tuesday from 1 to 1:50. A class meeting on Friday from 1 to 1:50 is taught by Dr. Tingley. The Monday class with Fred Blair as instructor meets from 12 to 12:50. As this course lasts only until Christmas it is urged that any men who are contemplating enrollment will do so at once as the early part of the course is of great value.

RANKIN RETURNS FROM TRIP

Minnesota Man to Introduce Methods Studied at Ames and Other Farm Colleges.

J. D. Rankin, formerly of Iowa State College and of the Agricultural Department at Washington D. C. has just returned from a visit at Ames where he studied methods practised by the first agricultural school to introduce a publicity department. He made a detailed study of the methods used at Ames in sending out news abstracts to the newspapers of the state on agricultural subjects in agronomy, animal husbandry, horticulture and farms management. He thinks the publicity department at Ames is one of the best and certain phases of it will be recommended for adoption here at Minnesota. He has also visited and studied extensively and similar departments at the Wisconsin and Missouri Agricultural

Colleges. Since the resignation of R. C. Barnes all bulletins published by the Experiment Station will now pass through Mr. Rankin's department.

Lectures Are Postponed.
Owing to the illness of Professor Melom, the head of the department, the date of the proposed lecture by the Romance language department cannot as yet be definitely stated, but communication with the New York office is under way and the announcement will, probably soon be made. Professor Andrist will give an unofficial lecture, in January, shortly before the official lecture.
