NO. 88

All-University Convocation

This Morning at 11:30 a.m.

THE ARMORY

PRESIDENT BURTON ON "THE NEW AMERICAN"

PRESIDENT BURTON will address students and faculty members at the convocation in the Armory this morning at 11:30. His subject will be, "The New American." Special music will be furnished by Miss Gertrude Hull of the Music Department.

SUPERINTENDENTS' AND PRINCIPALS' CONFERENCE

Attention is called to the Conference of Superintendents and Principals to be held Thursday, Friday, and Saturday of this week in the Auditorium of the Main Engineering Building. The morning sessions will be addressed by Dean William E. Russell of the University of Iowa and Dean W. W. Charters of the University of Illinois. Thursday and Friday afternoons will be given over to the sessions of the Superintendents' Section of the M. E. A. General topic for discussion, "Reconstruction in Education."

THE DEPARTMENT OF POLITICAL SCIENCE

wishes to call to the attention of juniors, seniors, and graduates, the following new courses to be given in the third quarter:

*107S. CONTEMPORARY POLITICAL PROBLEMS. The World War and democracy; parliamentary government; reorganization of our state governments; centralization and home rule; government by commission; electoral, ballot, budgetary, and civil service reforms; proportional representation; initiative, referendum, and recall; responsibilities of citizenship. YOUNG. IV T_S, and a 3rd hr. to be arranged.

*117S. AMERICAN DIPLOMATIC PROBLEMS. Our foreign policy and problems; isolation and the Monroe Doctrine; territorial expansion; the doctrine of neutrality; freedom of the seas; arbitration; present problems. ANDERSON. II TThS.

*121S. GOVERNMENT OF MINNESOTA. The organization and operation of the state, county, and township government of Minnesota. The making and development of the State Constitution. The land grants to the state. ORFIELD. II MWF.

The attention of sophomores, juniors, and seniors is called to Course 8s:

8S. PRINCIPLES OF POLITICAL SCIENCE. Introductory course. The origin, nature, justification, and functions of the state; the principles of politics; anarchists, individualists, and socialists. The best political thought from Aristotle to our own time. ANDERSON. I TThS.

THE SENATE COMMITTEE

on the Relation of the University to Other Institutions of Learning will meet with the committee representing the Superintendents of the State, this afternoon at 4:00 o'clock in Room 121, Folwell Hall.

THE CLINICAL PATHOLOGICAL CONFERENCE will be held tomorrow afternoon at 4:30 in the Pathology Building. All medical students and physicians are invited.

Program

Three cases of carcinoma of the colon

Dr. A. C. Strachauer; Dr. H. E. Robertson

A-19-21. Case of thrombo-endarteritis

Dr. S. J. Hathaway; Dr. C. A. Stewart.

FRESHMEN GIRLS, NOTICE

Special Conference Hours for Freshmen will be held tomorrow afternoon. Girls are urged to come and talk over their plans for their future work. If you have not decided what you are going to do, come and find out what other women are doing. If you have chosen your vocation come and find out what is necessary for thoro preparation. There are interesting magazine articles about women's work that you might like to borrow.

Appointments at other times can be made by telephone. Come and get acquainted, even if you have no questions to ask.

KATHARINE F. BALL,

Vocational Adviser for Women

ALL STUDENTS intending to do practice teaching during the spring quarter must see Mr. Reeve, Principal of the University High School, some time during this week concerning their teaching program. It is very important that this matter be attended to at once.

NOTICE TO FOREIGN STUDENTS

The members of the Faculty Women's Club will be very glad to have any foreign student on the campus attend their meeting in Shevlin Hall on Saturday, March 15, from 3 to 5 o'clock.

(OVER)

ALL SENIOR CLASS PRESIDENTS will meet tomorrow at 12:30 in Room 25, Folwell Hall.

DR. LOREN M. EDWARDS of Baltimore, Maryland, will speak to the students of the University this afternoon at 4:30 under the auspices of the Y. M. C. A. on the subject "Opportunities for Service in Social Reconstruction."

Dr. Edwards has been prominent in reconstruction work not only in this country but abroad. He is familiar with opportunities in many lines. He is in search of men for positions in professional work such as Engineering, Agriculture, etc., as well as in more general lines of work.

The meeting will be held in the Y. M. C. A. Conference room and is open to all men of the University.

ENGINEERS who are selling tickets for the Engineers' Ball must report number of tickets sold by this afternoon. Report to H. E. Bernt, Post-Office Box 2975.

SIGMA DELTA PSI

Honorary Athletic Fraternity

Trials will be held for qualification in the High Jump and Swimming on Friday, March 14, at 5:00 p.m. These are open to all men in the University. Call at the gymnasium for particulars.

Dr. L. J. COOKE

UNIVERSITY HEALTH BULLETIN

In view of the extreme prevalence of colds among students at this time of the year, the following is appropriate, notwithstanding that the subject of "colds" has been previously discussed:

"Spreading Colds.—This is the season when colds seem to be well-nigh universal complaints. If you have been fortunate

enough to escape, your neighbor has not. There are numerous factors which are responsible for the spread of colds at this period of the year. As in many other infectious diseases, one may be exposed frequently without any serious result. There are simple congestive colds from exposure; yet many conditions commonly called colds are caused by germs.

"Probably one of the most common methods of spreading these so-called colds is through the carelessness of those who are sick with the infectious condition and who are careless in handling their handkerchiefs. They sneeze and cough when near others and fill the air with thousands of infective germs.

"If the usual symptoms of colds are aggravated in character, a physician should be sent for, as the line between the severe 'cold in the chest' and pneumonia is delicately drawn. If a cold is permitted to hang on, it easily becomes a predisposing factor to more serious ailments, tuberculosis in particular."—Michigan State Board of Health.

"To Prevent Winter Colds.—Now is the time to prepare against winter colds. A simple yet very effective means for protecting against these colds will be found in systematically bathing the chest and feet in cold water each morning, followed by a brisk rub with the towel.

"For the application of the cold water the shower is best. Lacking these facilities, however, a towel wrung out of cold water will do very well. The application should not be too prolonged—not over two or three minutes. It would also be well to begin with tepid water and gradually use colder water.

"The practice, if followed daily, will not only prove of value in personal body cleanliness, but will go a long way in protecting the individual against so-called 'colds' induced by sudden chilling of the body, by getting the skin surfaces accustomed to sudden variations in temperature."—Milwaukee Health Bulletin.
