No. 16.

## FRESHMAN FREE-FOR-ALL FINISHED

Some Exceptional Debating Talent Discovered Among First Year Men

The Freshman free-for-all is over and out of nearly 30 men, 12 men, by their skill in thought and delivery have been chosen as winners and now have the opportunity to enter the preliminaries and try for a place on the Freshman-Sophomore debating team.

The winners are as follows: Messrs. Arntson, Badger, Clark, Dowdall, Frye, Hamlin, Houck, Huntington, McManigal, Michener, Schwartz and Sweet.

The members of the faculty who have charge of debate are pleased beyond all measure at the results. Such good work has never been shown before, in any class. The work was excellent in every respect, both in the thought and power of delivery. The names of the winners are names which will probably become well known to University people in the next four years and if they continue with their excellent work, other colleges will need, in the future, to look to their laurels.

The inter-high school debates have worked wonders in stirring up enthusiasm in debaters and the unusual excellence of the work now being done in college is due in a very great measure to this preliminary training.

## OPENING LECTURE BEFORE THE U. C. A.

The University Catholic Association opened the year's work Sunday with an introductory lecture on religion by Dr. Moynihan, the former director.

Religion was discussed from the view point of the artist, the historian, the sociologist, the philosopher, and of humanity. Briefly passing over the characteristics of religion the lecturer pointed out that it is not feeling, it is not knowledge, it is not morality, but that each of these is an essential element of religion which he defined as the communion of the human soul with God. He then dwelt upon the necessity of the study of religion and its interest to man.

The pressure of Father Moynihan's duties as president of the College of St. Thomas forbids his assuming the direction of the U. C. A. during the coming year. However, the Association may well be congratulated on receiving his promise to give a series of lectures under its auspices. It is impossible to estimate the value of Father Moynihan's guidance to the Association during the past two years, but the members as well as all who have enjoyed the privilege of listening to his scholarly and sympathetic discussions give testimony of their appreciation in glowing tributes to his essential manhood which make him an invaluable friend and guide.

## GIRL'S GLEE CLUB MEETS.

Trial of voices for the girls glee club will be held today, Tuesday, at one o'clock in the Y. W. C. A. room, Main building. All should be present. By order of president.

At Nebraska sixty-three men are trying for the football team.

## STRONG ON DEFENSE BUT STILL SLOW

Gophers Keep Carleton from Scoring by Fierce Work at Goal Line--Score 29-0

\* \* \* \* \*  
\* **COACH BAIR--CARLETON.** \*  
\* Minnesota has a wealth of ma- \*  
\* terial and good prospects. Their \*  
\* defense is poor however, and the \*  
\* team will have to come very fast \*  
\* if it holds Michigan down on Oc- \*  
\* tober 31st. \*  
\* \* \* \* \*

The Minnesota team succeeded in keeping their goal line from being crossed Saturday but it was only after the hardest kind of work inside of the five yard line after Carleton had carried the ball nearly half the length of the field by straight football. The Northfield boys came up to score and had it not been for an unfortunate chain of accidents they would probably have done so.

Four times did Cundy, the Carleton halfback try for a field goal and had the Carleton center made a good pass on any of these trials, the little halfback would have probably planted the ball between the goal posts as he usually does in such cases. As it was the passes were so poor that he did not even have a chance to kick the ball. Another misfortune was the loss of the ball on a foul when within striking distance of the Minnesota goal. The Gopher's play was very erratic. When they had the ball they tore up the field at will and made touchdowns in short order, but at other times they seemed utterly unable to stop the speedy men behind Carleton's line. Several fake plays were worked by the Congregationalists and they very nearly cost

a touchdown each time. At one time, with the ball on Minnesota's forty-yard line, Lee, of Carleton, on a fake end run, went straight through Minnesota's right tackle and ran thirty yards. He hurdled O'Brien completely in the back field but fell just beyond him and was tackled by a Minnesota man before he could recover.

O'Brien, at quarter, was easily the star of the game, coming in for several brilliant runs, one of them for 80 yards. His playing was spectacular and he ran the team in good shape.

The Gophers showed a marked improvement in team work over a week ago, but are still slow in starting and must do some remarkable hustling in the four weeks which intervene between now and the time for the game with Michigan.

Carleton's team, while it failed to score, is probably the strongest in its history and on present form looks good for the intercollegiate championship.

The teams lined up as follows:  
Rogers .....left end ..... Lee  
Warren ....left tackle....E. M. Hayes  
Benson .....left guard...E. W. Hayes  
Strathern ..... center .....Chaney  
Burdick .....right guard...Swanson  
Webster .....right tackle...Payne  
Marshall .....right end.....Freer  
O'Brien ..... quarter .. Hendrickson  
Neussler .....right half.....Johnson  
Burgan .....left half.....Cundy  
uCrrent .....full back .....Rose  
Referee, Harding; Umpire, Force;  
linemen, Colburn and James.

## A SPLENDID MEETING.

Sunday afternoon's Y. M. C. A. meeting in the chapel was a decided success and those who attended were thoroughly impressed by the words of the speakers.

Rev. Hutsepiller, of the Hennepin Avenue Methodist church, was the first speaker. His subject was "What men think of the Bible" and the address which he delivered on that text will long be remembered by those who heard it.

Profs. Haynes and McDermott followed him and spoke along the same line.

Miss Helen Riggs pleased the audience greatly by her singing.

Next Sunday Mr. E. T. Colton, of New York, will speak to Varsity students. Those who heard Mr. Colton last year will remember him as the most interesting speaker of the year, and there is no need to urge a large attendance.

## SOPHOMORE POLITICS.

The Sophomores are, politically speaking, asleep, probably owing to the fact that President Pryor has deserted the class for Freshman law. This of course renders his re-election impossible.

No names, as yet, have been suggested for the office, although it is thought that Keely, who distinguished himself in the cane rush, will be a candidate. Stratton emphatically refused to run again, for treasurer. The fight for offices will probably be as last year, along the lines of Academic and Engi-

neers. Last year the Engineers failed to land a man so it is to be expected that they will make a harder fight for this election.

## STRATHERN OUT OF IT.

The political atmosphere has been somewhat cleared by the positive announcement of Mr. Strathern that he will not be a candidate. "Mose" has not taken his candidacy seriously at any time and it is only when his stock began to boom pretty high that he thought best to sit down on what might develop into a delicate situation. Mr. Kovarick, Hugh Leach and A. B. Wells are still in.

## DRAMATIC CLUB TRIALS.

The trials for entrance to the University Dramatic Club will probably occur next Saturday at 3rd hour. This contest is open to any student in college.

In regard to the trials it should be stated that every one is expected to choose some short selection to be delivered before the committee.

As there are usually quite a number of applicants and the time of the committee is limited, each person will be restricted to two or three minutes.

Every one intending to try should leave his name with Miss Leonard, the chairman of the committee or put it in Box 320.

Robert L. Moore, an ex-'02 man, is renewing old acquaintances at the U before going to Wisconsin for an advanced engineering course.

## STRIKE IS GETTING HOTTER

Nearly a Hundred "U" Students Go to Work in the Mills

The situation at the mills becomes more strained every day and no doubt both sides in the affair are determined to hold out as long as possible. The fact that Varsity students are playing a part and are being used very energetically by mill owners in their efforts to break the strike has caused no little controversy among those interested in the situation and may yet lead to serious complications and trouble. Saturday the campus was visited by several representatives of both strikers and employers who interested students by speeches and pastors and setting forth their reasons why the Varsity boys should or should not work in the mills. About a dozen were at work Friday night, but Saturday the number was increased to nearly a hundred. A body of union men attempted to stop a crowd of students who were going towards the Pillsbury-Washburn mill, but with a lusty Ski-U-Mah, the Varsity boys formed a wedge and went through and into the mill yard on the jump.

Indignation toward the students is high among the strikers who see them usurping their jobs right and left, and it is feared that serious trouble will ensue before long. President Northrop was interviewed Saturday, by the strikers in hopes that he would order the students to stay away from the mills, but his reply put their minds at rest on the question. He said: "My business is to attend to the education of the students. It is beyond my province to inquire as to how they earn their means of living so long as they are engaged in respectable occupations."

In the meantime the students are earning \$2.00 for six hours work, and the mills are running as fast as ever. No one can predict the final outcome. Mill owners say they will oust union labor from the mills entirely, and the strikers say that they will make the strike sympathetic so that the owners can not get barrels or even cars to ship their flour in.

## HUGGED THE DUMMY.

The team went through light practice last night and spent a considerable portion of the time at the tackling dummy. The men show the need of a great deal of practice in tackling and Dr. Williams is working them on the dummy every night. Thorpe, Rogers and O'Brien did some goal kicking and the teams lined up for a short scrimmage. The work was fast and snappy and did not show the regular Monday's slump.

Dr. Williams met with a slight accident but will probably not be incapacitated long.

## SHAKS ELECT.

Friday night after the regular program was rendered the Shakopean literary society elected their officers. A well deserved compliment was paid to retiring president Collins, under whose efficient administration so many Shak victories were won. Following are the officers elected: president Holloran; vice-president, Magnusson; secretary, Gorman; treasurer, Bergstrom. Several new members were voted in.

**NOTICE TO OLD SUBSCRIBERS**

Unless ordered discontinued, the Daily will be sent to all subscribers of last year, and the management will consider your intentions in good faith.

**ADVANCE IN ENGLISH.**

**Freshmen Better Prepared in English Language than Formerly.**

The recent furore in the papers of the state regarding the poor preparation of students in the English language in the high schools is not borne out by the reports from the rhetoric department. The instructors say that the students of recent years show steady improvement in all lines of English work. Especially is this evident in this year's class.

The debating classes are larger than ever before and thanks to the interest aroused by the high school debating league those classes are not filled with raw material that will require a couple of years training to bring out whatever merit there may be, but of people already well accustomed to public speaking and with minds capable of taking up hard questions and of handling of them in a skillful manner.

This change will soon make itself felt in debating circles. The older debaters must put forth their best efforts to keep ahead of those ambitious youths that come in with the advantage of a couple of years training.

**BADGERS SORE.**

Madison, Wis., Sept. 28.—The work of the Badger squad has been forgotten for the moment among the students here and everybody is talking about the release of Sakigami as trainer by Dr. Williams at Minnesota.

The little Jap has been at Wisconsin three years, but went to Minnesota, his former alma mater, to complete studies, as he says. He was engaged as trainer by the Minnesota management and was suddenly let out, supposedly because he was suspected of being in league with the management here.

Now the students are really wondering if the manager and coach of the Wisconsin team would stoop so such a Wisconsin team would stoop so such a piece of trickery as to send a man to Minnesota to learn the inside workings of the team and then use this to their own advantage.

The opinion here is that the management has nothing to do with the

case, as it is generally recognized that such an act would be the lowest that was ever attempted in amateur sports.

Still the fact remains that Sakigami is back here again, and will not only take work in the University but will probably be one of the assistant trainers of the football team.

The Jap himself will say nothing except to protest his innocence of any guilt in the affair. He simply says that he wanted to take certain studies at Minnesota and was trying to earn his way through school.

**AMONG THE DENTAL PROFESSION.**

Dr. Ahlstrom, '03, now located at Co-kato with his brother who is a physician and surgeon at that place, visited friends at the "U" on Saturday.

The Freshmen have finally got started, their laboratory being the last one to be refinished. Last Saturday Dr. Ouve put them thru the "wood sawing" test to see what mechanical ability they possessed. Each member of the class is required to make boxes, squares, frames, etc., in lieu of a credit in mechanical training.

The seniors are requested to have the subjects of their theses in the hands of the clerk by this morning.

Paul W. Borney was out on the Soo line over Saturday and Sunday.

Mr. John Finney of Detroit, Minn., visited A. A. Reed while en route for the Chicago College of Dental Surgery—now a part of the Chicago University. He reports the enrollment there the largest ever.

"Cid" Severson, the funny man in the Junior class, leaves this week for Northwestern University.

**BELOIT'S SCHEDULE.**

Beloit College football authorities have issued their schedule of games as follows:

Oct. 17th, Beloit vs. Wisconsin, at Minneapolis.

Oct. 17th, Beloit vs. Wisconsin, at Madison.

Oct. 24th, Beloit vs. Michigan at Ann Arbor.

Nov. 7th, Beloit vs. Chicago, at Chicago.

Nov. 26th, Beloit vs. Knox, at Rock Island.

**NOTICE—LITERARY SOCIETIES**

The Shakopean Literary Society holds the undisputed championship in football among the literary societies of the university. As champions it is not our place to challenge but we are open for challenges any time before Oct. 15, 1903, after which we will consider none, as we wish to play our games early while the weather is pleasant. Address all communications to Shakopean Football Committee, Box 138.
