### NOTICE TO STUDENTS AND FACULTY

The committee on Educational Functions has arranged for the commencement exercises to be held in the Stadium this year. This means that there will be room for everybody. Hitherto many have remained away from the commencement exercises simply because they could not get into the Armory. No such reason need keep anyone away this year.

I am hoping that many students, juniors, sophomores and freshmen will remain for the exercises. The fact that commencement day is Monday rather than later in the week makes this easy. It is the custom at many institutions for the student body not to break up until after the commencement exercises are over. Perhaps we cannot achieve that at Minnesota this year, but many students can, I am convinced, remain if they wish to do so. Their presence will contribute much to the success of the occasion.

I am also hoping that the faculty will be present and in line practically one hundred per cent. No one should remain away because he does not possess the customary academic regalia. Those who have it will wear it; but those who do not are desired as much as those who have the cap and gown.

With a little effort on the part of everyone, with a little more of the spirit which should characterize this particular season and day, we can make commencement at Minnesota this year the greatest commencement the institution has ever known.
