NOTICE TO THE DEANS

The Administrative Committee of the Senate will meet tomorrow at 10:30 at the Office of the President.

POSTPONEMENT OF SENATE MEETING

The number of items of business reported for the docket of the Senate Meeting scheduled for February 19 does not appear to justify the convening of the Senate. The meeting, therefore, will be postponed to the date of the next regular meeting unless in the interim a special meeting shall be deemed necessary. **E. B. Pierce, Secretary**

NOTICE TO THE DEANS

The time has arrived when a serious effort should be made to get copy for bulletins ready for the printer, especially on the part of those colleges which have required curricula.

The printing regulations of the University Senate require that such colleges—engineering, law, nurses, medicine, mines, pharmacy, dentistry, and the schools of agriculture—shall have bulletin copy in final form for the printer not later than April 15, publication of each bulletin to occur before June 1, bulletins to be printed in the order in which copy is received.

Colleges having elective curricula—science, literature, and the arts; agriculture, forestry and home economics; education; school of chemistry; graduate school—are required to have copy in final form for the printer not later than May 15, publication to occur before July 1.

Last summer bulletins were delayed in large part because of failure to get them in the hands of the printer in accordance with the foregoing requirements. The printing committee cannot prevent delays if bulletin preparation is deferred and the manuscripts are turned in all at once, clogging the University print shop.

Chairman, Printing Committee.

W. Sprouse, and Rev. H. C. Swearingen. Two of the meetings will be conducted by the Students' Catholic Association.
