**NORTHERN STAR**  
Knights of the Northern Star will meet at the stadium this afternoon at one o'clock to assist in ushering at the game.

VOLUME XXXIII

UNIVERSITY OF MINNESOTA, SATURDAY, OCTOBER 2, 1926

NO. 5

## 1926 GOPHERS MAKE DEBUT TODAY

### MINNESOTA ALUMNUS WILL FILL POSITION OF ROYAL CHAPMAN

Dr. William C. Cook, '22, Selected to Head Department of Ecology

### WILL HOLD POST UNTIL PROF. CHAPMAN RETURNS

Dr. M. H. Hatch, of Michigan, Will Replace Professor Oestlund

Dr. William C. Cook, head of economic zoology at the Montana State college of Agriculture and Mechanic Arts at Bozeman, Montana, has been selected by the biology department of the University to fill the chair of ecology vacated by Prof. Royal N. Chapman, who is studying in Europe on sabbatical leave. Dr. Cook has arrived in the city and is taking over the teaching and research work of Dr. Chapman.

Received Degree in 1922  
An alumnus of Minnesota, having received his doctor's degree from the University in 1922, Dr. Cook had charge of the department in the Montana college where he has been employed since 1922. He has been granted leave to study and receive his degree that winter. He will remain at Minnesota until Dr. Chapman's return next fall.

Dr. Chapman was awarded the Guggenheimer fellowship, offered by the International Education Bureau, last spring, and is assisting in the sabbatical leave, granted by the University last spring, to continue his research. He has been studying for several months at the Rothamsted Experiment station in Harpenden, England. He has been associated with Prof. Augustus Dan Ims, head of the station, doing research in the biotic-potential field, which deals with the relation of parasites to insects.

### Will Return Next Fall

He will continue his work at the French laboratory of the United States Bureau of Entomology at Hyeres, France. He will be connected there with W. R. Thompson, head of the bureau. Before returning to the University, Dr. Chapman will visit various European universities, studying their teaching methods and entomological work. He will resume his professorship at Minnesota next fall.

The only other major appointment announced by the department is that of Dr. M. H. Hatch who is taking the classes of Professor Emeritus Oestlund. Dr. Hatch is from the University of Michigan.

### Six Teaching Assistants in General Zoology have been Selected

The new members of the department are Donald Boughton, University of Pittsburgh; Reed Christianson, University of Utah; Porter Dobyns, University of Indiana; Edith Mortensen of Mount Holyoke, Mass.; George Ruggles, who is from Missouri; and Wayland Shands, University of South Carolina.

### NOTICES, MEETINGS AND EVENTS OF THE FUTURE

The annual party for freshmen women given by the Women's Athlete Association will be held on Wednesday at 5:30 p. m. in Shevlin. Mildred Greenberg, president, will act as hostess.

The first meeting of Minerva Literary society will be held Monday at 4:30 p. m. in the Jean Martin Brown room. It will be a short business meeting in which the program for this quarter will be decided upon.

The first faculty meeting of the quarter for members of the College of Science, Literature, and the Arts staff, will be held Monday at 7:30 p. m. in 3001 Folwell. Rodney M. West, registrar, will talk.

The formal opening of the new Sigma Phi Epsilon fraternity house was held last night when Clifford B. Scott, grand vice president from Nebraska, guest of honor, dedicated the home.

The first meeting of the Cosmopolitan club will be held today at 12:30 p. m. in the Minnesota Union.

The Wesley Foundation will hold the first of a series of vesper services Sunday from 5 to 6 p. m. Leslie McGladrey and Byron Mosk are in charge of the program which includes an organ recital by Charles C. Kirk, and talks by the alumni of the Wesley Foundation. A fellowship hour will follow the program.

All upperclassmen at Dartmouth college are required to take part in some athletic activity three times a week for the entire year.

### 2,000 Students Pledge Allegiance to Grid Team in Opening 'Thuse'; Throng Parades Through Campus

Rooters Respond to Call for Locomotive in Thundering Yell; 'Potsy' Clark, New Assistant to Spears, Introduced at Fireside

Nearly 2,000 students renewed their pledge of allegiance to the fighting Gopher football team around a roaring bonfire in front of the Administration building and then marched to the University armory where they saw King Football reworked with traditional ceremony last night at the first 'thuse' of the school year.

### Mueller Appointed Daily Sports Head

Robert C. Mueller, who was assistant sports editor of the Minnesota Daily last year, succeeds Michael J. Fadell as sports editor. Mueller is writing football for student readers this fall.

### KANSAS U MAY BAN CAMPUS AUTOMOBILE

Authorities Declare Pleasure Cars Demoralizing and Not Democratic

Motor cars for pleasure purposes will be banned at the University of Kansas, if efforts of Chancellor E. H. Lindley go through.

The Chancellor has sent out letters urging students of the university, and their parents, to voluntarily help reduce the number of automobiles in use at college. He suggests that no students bring motor cars to school for pleasure purposes for he says that the use of cars increases the expenditure of money of the student body. His letter also stated that the greatest dangers to moral and scholastic life were likely to be found among the class of students who spend more than necessary.

The Men's Student Council and the Women's Self-Government Association have declared that the student automobile is a "special privilege for a small minority, out of keeping with the democratic spirit which should prevail." The Chancellor thinks that eradication of the campus automobile should take place to make life at Kansas as "wholesome, inexpensive, and democratic as possible."

### Graduate of Illinois Made Landscape Aid

J. H. Bergen has been engaged to assist Prof. C. E. Cary, in the section of landscape gardening, division of horticulture, University Farm.

Mr. Bergen graduated from the professional course in landscape architecture and received his L. A. degree at the University of Illinois. In addition to teaching landscape design he will assist Professor Cary in developing the campus at the University Farm.

### Ski-U-Mah Will Appear Oct. 7; Three Day Subscription Drive Opens Wednesday

Revisions and modifications in the policy of the Ski-U-Mah, University humor publication which will make its first appearance on the campus Friday will make the forthcoming issues of the magazine different from any ever prepared before, Thomas Roberts, managing editor, announced.

Ski-U-Mah will open its three day subscription campaign on Wednesday. An intensive drive for new subscribers will be made.

Six years ago, the Ski-U-Mah was first issued. Then more a fictional publication, in the gradual evolution of college comic magazines, it has developed into one of the leading humorous publications in the country, ranking with the Yale Record, Michigan Gargoyle, Stanford Chaparral, and the Dartmouth Jack-O-Lantern.

The new Ski-U-Mah has been standardized this year and for the first time will have an agency for the handling of outside circulation which will place it near the front in circulation of college-humor publications in America.

Plans recently completed may also secure the Ski-U-Mah a junior college circulation that will bring the magazine to the attention of the best smaller colleges in the state as well as of the country with an increase in national advertising. It will be possible for the editorial staff to issue a bigger and better humorous publication every month.

The first issue, a fresh number, will appear on the campus October 7. There are still a few positions open on the business staff and those who believe they have particular talent are asked to apply to Hanford Well in the old library building.

### KARLINS, WILL CUTTS AWARDED DEBATING M MEDAL FOR 1926

Named by Committee as Winners of Prize Established by Regents in 1925

### IS HIGHEST HONOR GIVEN FOR CAMPUS FORENSICS

Strict Provisions Govern Granting of Award; Lundgren, Kingsley Previous Winners

Arnold Karlins, a senior in the Law School, and Edgar Willcutts, now a Freshman in the Harvard Law School, have been announced as the winners of the Debating "M" for 1926. The Debating "M" is the highest honor that can be won in the field of campus oratory and debate.

This award, which is a gold watch charm in the form of the University seal inscribed with the words "University of Minnesota—Forensic Medal" and bearing on the back the name of the individual and the events in which he has participated, is awarded by the Board of Regents. It was established in 1925 by the Senate Committee on Debate and Oratory and was approved last June by President Lotus A. Coffman. This is the first year that it has been in effect.

The awarding of this medal is subject to the following provisions:

- I. The committee for the selection of the winners of the award shall consist of the chairman of the speech department, the director of debate, and one other faculty member of the Senate Committee on Debate and Oratory.
- II. Award shall be made once a year at the close of the forensic activities in the spring and announced at Cap and Gown Day and Commencement.
- III. The medal shall be of gold, and the price limited to \$20.
- IV. The number of awards in one year shall not exceed four.
- V. A student may receive only one forensic "M" from the University of Minnesota.
- VI. The committee of awards shall be governed by the following considerations in making selections:
  1. A candidate must have represented the University of Minnesota in at least two inter-collegiate, forensic events before he may be considered by the committee.
  2. Candidate must have a scholastic average of B or over for all time in school at the time selected.
  3. All other factors such as excellence of forensic work, co-operation, leadership, and character shall be left to the discretion of the committee on awards.
- VII. Robert Kingsley, now instructor in the Law School, and Walter Lundgren, now at the Harvard Law School, were the first to receive the Forensic "M." They were chosen for the year 1925 and received the honor at Commencement last June.
- VIII. Wayne L. Morse, instructor in the speech department declared, "There is no other institution in the country that has a forensic award on such a high scholastic plane." I feel that it has already served as a great incentive for improvement in forensics as well as scholarship.

### QUIGLEY TO LECTURE ON POLITICAL EUROPE

Spent Summer Abroad Studying Situation; Series Begins Monday Evening

H. S. Quigley, professor of political science, will give a series of five lectures on the contemporary European political situation in relation to international organization Monday.

Mr. Quigley spent the summer in Europe making a study of international organization and is to give these lectures under the auspices of the League of Women Voters.

He will present the lectures fortnightly, beginning Monday evening, October 4. The subject of the first lecture will be "Europe Since Locarno" and will be given at the home of Mrs. H. G. Harrison, 2000 Pleasant ave.

The admission charge for the entire series of five lectures will be \$2.00 although a small fee may be paid at each lecture. They will start at 8 o'clock sharp.

### SYRACUSE Y. HOLDS SECOND FROSH CAMP

New Method of Orienting First-Year Students Instituted at Eastern University

A freshman camp sponsored by the Y. M. C. A. of Syracuse university is the latest method of orienting freshmen to university life. The camp, held the last week of summer vacation at Sandy Pond on Lake Ontario, was under the supervision of eleven leaders in campus activities, and professors who conducted discussion groups on campus life, activities, and instructed the entering students in the customs and traditions of Syracuse university.

The professors described all courses open to newly entering students, and citizenship helped to lead discussion groups.

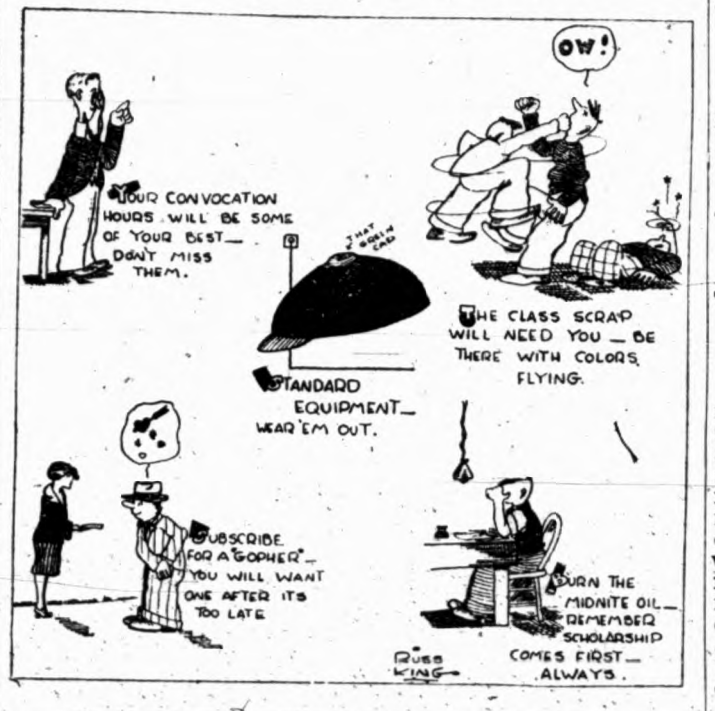

Thirty-three freshmen from eight states attended this second annual camp and formed a nucleus of friends for their college days, also receiving a good idea of what to expect in college.

The camp is one of several in the United States, and corresponds closely to the Edgewater camp held annually at Minnesota.

In addition to the camp, the University has a ban on hanging which proves an attractor for freshmen.

Syracuse university has co-ed cheerleaders.

### GENTLE REMINDER

### BOTANY TO OCCUPY NEW BUILDING DEC. 1

Unexcelled Facilities for Herbarium Provided in University's New Structure

The largest building facilities in the world will be provided for the University herbarium, a collection of botanical specimens, with the completion of the new botany building about Dec. 1. J. Arthur Harris, lead of the botany department, stated yesterday.

This will include a space of over 5,000 square feet for herbarium use on the main floor and balcony in addition to a special room for the Holway herbarium, a special laboratory for advanced students in taxonomy, mounting rooms, sorting rooms, and offices for members of the department.

Located on the south side of the campus, overlooking the river and immediately back of the animal biology building, the new building will provide the long needed place for the botany department. The ground floor will contain a lecture hall seating over 300, in addition to a laboratory for research in ecology and physiology. From the preparation room a tunnel will ultimately be constructed to connect with the greenhouse system. The first and second floors are planned for work in physiology, phylogeny, and biometry.

The third floor will be given over to the herbarium and above this will be constructed a roof house containing conference and smaller research rooms and offices.

Steel cases have been ordered for the herbarium, which will contain practically all known varieties of botanical specimens, classified to be studied. From the files it will be possible to ascertain what plants will grow on certain soils, tropical plants grown in other parts of the world will be studied here, and their possible growth in this country determined. At present, botanists are unable to cope with the task before them, and American commercial interests are the losers. The herbarium will also be a valuable addition to the museum on the campus.

Under the present rate of construction, the building will be completed about Dec. 1. Occupation will take place as soon after completion as convenient. The total cost of building and equipment will be \$225,000.

### Music Department Increases Faculty

Two instructors have been added to the staff of the music department this year. Mrs. A. Twichell, piano instructor, has already begun her classes. Miss Genevieve Church-Smith is taking the place of Mrs. Inez Richter, as voice instructor.

### Engineering College and U. S. Naval Reserve Establish Aviation Course

Co-operation of the College of Engineering with the U. S. Naval Reserve has made possible the establishment of a general course in aviation at the University of Minnesota.

The course is under the supervision of Lt. Weld, aviation commander, U. S. 6 Squadron, Naval Reserve, and R. M. Hazen of the College of Engineering faculty. The instruction will be accepted by the navy department as a prerequisite for flight training.

Men selected from the class will be enrolled in the Naval Reserve and sent to Great Lakes, Ill., and Hampton Roads, Va., for 90 days flight training during the summer of 1927. Upon the successful completion of the summer course

they will be commissioned as ensigns in the Fleet Naval Reserve.

It is the intention of the instructors to make the course of a composite nature, covering the entire field of aviation. During the past three years 20 men from Minnesota have received ensign commissions in the Reserve. Ross Mahachuck, Donald Stevens, L. V. Berkner, Richard Hanson, L. Clousing, J. Duffley and Kieth Krieger took the flight course this summer.

Lt. Weld will be in Room 201, Experimental Engineering building, at the eighth hour, or students interested may communicate with Ensign Leon Dahlem, P. O. 7853.

### OPENING DAY GAME WITH NORTH DAKOTA TO ATTRACT 25,000

New Faces Sure to Make Appearance in Maroon and Gold Starting Lineup

### 'NORTH DAKOTA WILL FIGHT' SAYS ROCKWELL

Joesting, Nydahl, O'Brien, Barnhardt Slated for Opening Game Backfield

PROBABLE STARTING LINEUPS

Minnesota	Position	No. Dak.
Tuttle (36)	L. E.	Geston (57)
Johnson (39)	L. T.	Lee (20)
Hanson (37)	C.	L. G. Gustafson (1)
Hulstrand (18)	C.	Benson (34)
Mell (38)	R. G.	Bokovoy (38)
Gary (30)	R. T.	Bootey (28)
Wheeler (1)	R. E.	Rabe (57)
Nydahl (47)	R. E.	Boe (50)
Barnhardt (17)	L. H.	Thomas (4)
O'Brien (26)	R. H.	Moore (6)
Joesting (33)	F. B.	Nemie (2)

Officials—Referee, George Lynch, St. Cloud Teachers' college; umpire, Carl Adams, St. Cloud; field judge, Ed Shave, St. Paul; head linesman, C. McDonald.

By Bob Mueller  
Minnesota's 1926 football team, the second Big Ten entry produced by Dr. Clarence W. Spears, will make its debut this afternoon in the Memorial stadium in the annual clash with North Dakota before the largest crowd which has ever witnessed a Maroon and Gold opening day game.

More than 25,000 people are expected to take advantage of the ideal football weather to watch the Gophers in the first game of the season. Last year's attendance mark of 17,000 is certain to be broken. The contest will start at 2:30 p. m.

It will be a typical Minnesota opening day game. Two bands, Michael Jala's Minnesotans and North Dakota's military band, will entertain the crowd between halves. For the first time this year, Minnesota's noisy locomotive yells will echo through the stadium.

Important for Minnesota  
The game will be an important one for Minnesota. It will afford Dr. Spears an opportunity to see how his new eleven stands up under fire. It will enable him to determine to a closer degree which Gophers will start in the Notre Dame battle next week.

"North Dakota will fight." This was the statement made by Coach Tod Rockwell, new Flickertail coach, who brought his squad of 24 men to Minneapolis last night. "We will do our best; that is all any team can do."

Rockwell will be remembered for his craftiness in piloting Michigan's eleven in the Memorial stadium two years ago. He is recognized as one of the greatest quarterbacks Michigan has ever produced. Rockwell came to North Dakota this year, having coached football at Salem college, Salem, W. Va., in 1925. The Flickertails scored a 7-0 victory over N. D. Wesleyan in North Dakota's first game last Wednesday.

More Polished Team  
This year's Maroon and Gold entry will be a more polished starter than the team which took the field in the first game last year because the Gophers have become acquainted with Dr. Spears' style of coaching. It will be a different team, for the starting lineup will include at least three men who are graduates from last year's frosh squad.

Among the veterans who will start in today's encounter, Captain Wheeler and Tuttle will return to their old positions at the ends; Gary will again assume his old role as tackle, while Hanson and Mell are scheduled for the guards. Joesting is the only man in the backfield who started in the North Dakota clash last year.

Uses Same Varsity Squad  
Dr. Spears again utilized the same varsity squad which he has used in the past three days. Only one change was registered, when Hulstrand replaced Strand at the center post. Captain Wheeler and Tuttle again held down the ends, with Gary and Johnson tackles, and Hanson and Mell, guards. In the backfield were Nydahl, Barnhardt, O'Brien and Joesting.

The second team yesterday included Williams and Hayercraft, ends; Hyde and Maeder, tackles; Gibson and Kaminski, guards; Mulvey and Strand, centers; Walsh, quarterback; Peplaw and Gordon, halfbacks, and Arendsee, fullback.

Gopher substitutes, with their respective numbers are as follows: Williams (11), Matchan (12), Geer (13), Walsh (14), Gay (15), Fulton (16), Hulstrand (18), Arendsee (19), Gordon (21), Bros (22), Mulvey (23), Gibson (25), Maeder (27), Kaminski (31), Riddell (34), Ukkelberg (37), Hyde (38), Hayercraft (41), Bredemund (14), Peplaw (45), Cashman (46), and MacKinnon (48).

### NORTH DAKOTA

When the clock hands point at two thirty this afternoon the first pigskin of the 1926 Gopher season will go flying in the air and a line of Maroon and Gold sweep down on the Flickertails, Minnesota's traditional first game opponents.

Minnesota takes the gridiron this year under decidedly peculiar circumstances. The Spears combination may or may not be a real threat in the Conference. We will know more about that when the last Notre Dame play has been reeled off. At the present time all we know is that Minnesota has some excellent material out for practice with a series of unfortunate incidents playing daily havoc with the "smoothing out" process of team coordination.

First and foremost is the illness of Head Coach Clarence W. Spears. Nothing so handicaps a team in early season practice as the absence of its coach. There is the eligibility question also. No sooner is a smooth working backfield perfected than a scholastic problem breaks it up.

With the Big Ten games looming on the horizon, the Minnesota coaches are still shifting the line and making radical changes in the backfield. This is not a criticism of coaching method. Minnesota is too well satisfied with Coach Spears and his assistants to attempt destructive criticism. No one who has watched practice consistently will deny that the assorted talents of a variety of individuals have been developed to the fullest extent in order to perfect an effective machine.

Few individuals know who will take the field for Minnesota this afternoon. There are only two or three sure positions on the line, and at this time, also, only one guess wildly what backfield combination will start. Before the season terminates many other changes will probably be made. But we feel confident that, by the time the Maroon and Gold gridders swing into Big Ten action, Coach Spears will have given Minnesota the best.

As for today's game with North Dakota, the Gophers should win. It won't be an overwhelming score, and the chances are that the game will be fairly close. It will be interesting, this fray, inasmuch that it will give Gopher fans a chance to see the wealth of new material, developed this year, under fire.

We can learn from other nations. In Japan the movie subtitles are read aloud by official readers.

Postpone your engagements Saturday afternoon to witness the Tenth Avenue Derby.

### A DANGER SPOT

Washington avenue, from the River to Oak street, is daily becoming a more dangerous thoroughfare for pedestrians. Realizing the danger fully, Mr. H. A. Hildebrandt, superintendent of buildings and grounds, has requested the installation of an automatic semaphore at the intersection of Church street and Washington avenue. City officials have deferred action with characteristic conservatism. The city planning engineer has suggested that traffic be practically confined to Washington avenue and that repeated interruptions of its progress would result in congestion. Evidently the gentleman never found it necessary to go to lunch across the avenue after a four hour biology class.

An automatic signal would assist materially for it would halt the incessant parade of vehicles long enough to allow students to cross the street in safety. Students coming to the main part of the campus from the Biology, Anatomy and other buildings are in need of some method of momentarily checking traffic until they can cross in safety. The peril is greatest after fourth hour classes have been dismissed, for at that time hundreds of students and the peak of noontday traffic combine to make the situation intolerable.

It is truly remarkable that accidents have not been recorded in this area. It would be foolhardy to assume that this good fortune will continue under present circumstances. If action is not taken, and taken soon, the traffic menace at this spot will become a grim reality, and a fatality will result.

It is astounding that a city administration which finds it essential to install an automatic semaphore at Sixth avenue and Washington, where two railway guards, a watch tower, and gates are already provided, should seemingly be as blind as its planning engineer to an actual need of this kind.

### TAKE YOUR TIME

It is a shameful fact that the rush of the crowd to the exits after the games last year resulted in the injury of several people. These injuries could have been avoided had the crowds checked their haste and left the stadium in an orderly manner. When an impatient crowd swarms about the exits someone runs the risk of being dismembered, and the walls of the tunnels are not so smooth as they might be. The exits will accommodate but a limited number of people at a time, and the crowd should bear this fact in mind.

My grandma says they simply must quit frying onions in these hamburger shacks. She makes too many mistakes.

### GO TO CHURCH

It may seem a presumption even to offer the suggestion that college students go to church on Sunday. When one approaches that subject he is treading on ground that has been largely reserved for that much despised class—the "uplifter." But it is in no such sense that we expect to make our appeal that you seek out some church tomorrow nor do we intend to show wherein the usual attitude toward church attendance is wrong. Did it ever occur to you, particularly those of you who scoff the suggestion that church may have some value, that there is something in a religious service which makes a very definite appeal to the aesthetic sense? All that is quite aside from any cultural or intellectual importance it may have, but it is nevertheless one which has always, been a predominant influence in our church attendance. Sacred music, an emboding formalism and an intelligent sermon, all these in any of the many beautiful edifices which are to be found in these cities—what better surroundings could one ask to spend a quiet hour on that one day in seven which we are expected to our thoughts to the more serious things of life?

In this hectic civilization of ours there are too few opportunities—or should one say that there are too few who have any desire to seek such opportunities—to really be alone with one's thoughts. Attendance at church has always afforded us with one of the rarest of those opportunities—and we feel quite intently that there are many more who would feel the same way if they gave a church the opportunity to do what it can for them. We realize full well that church going is entirely a personal matter and what one gets of it depends largely on what one brings to it.

As old Northrop field grows older it ceases to be "historic."

## MORBID MIRTH

By Cedric Adams,  
MIRTHTICIAN

### YE DAIRY

(October 2nd, 1926)

Friday: A faire day raining having ceased. Up betimes and to ye Schoolery, being delayed by stopping for a gutting of waffles eating three me-thinking would be a hard day. Thence did journey forth to ye class room. But the Professor did twirk me smartly for what I did not know. I am resolved hereafter to improve my minde as becomes a serious man, who would inform himself on the progress of the arts and letters of the Republic. And on the main Walke did meet with Sir Robert Shay of the Gopher who did have many tales of The Great Book and luncheons next weeke. In the evening to ye Theatre where Dame Partner did see much finery in clothes. Albeit a poor place to enjoy oneself. Late out and to bed.

With our first week shoved into the background, the Gent in charge wishes to pause for a few general remarks. Ears to the ground!

Our new name, Morbid Mirth, means just what it says, and the morbider the mirthier. The little lad leaning on the Parker Duofold (pd. adv.) Lee Bros. Photo (pd. adv.) dressed in his Jester Bros. Minnesotan (pd. adv.) gives you a miniature of the author himself. Trouser crease by Wilson Hardware, (pd. adv.) The Steason was purchased on Rolle Hardware, (pd. adv.) In case you might be interested in any other articles of adornment, kindly call the Daily office for appointment.

The G. T. resting just under my right leg is the by-line of Mr. Glenn Thompson, Cartoonist, Rum Sampler, or What Have You! When Glen was but three years old, his Aunt hit him over the head with a churn. Aunt's little act thoroughly qualifies him for a staff position on Ski U Mah. Ski U Mah, by the way, is a magazine which is very aptly described by Nita Naldi in a statement given to the United Press late last night. Miss Naldi says, "Czerwaki zepth latry ogy lemanado jly lofsky kaywdyt." Nita certainly surprised me with this little admission.

Now about contributions. We insist that all copy be clean. (I'm sending this issue to my Mother.) We are maintaining a post office box No. 6747. Bulge it to the walls.

And with this . . . . . let us to further scrivening. —The Editor.

### SOLILOQUY . . . . . The Co-ed

The co-ed is a lively thing  
Without a voice, but yet she'll sing;  
Devoid of form, aesthetic grace,  
She'll dance at any time or place.

Altho her brain is null and void,  
She talks of Balzac, Brann and Freud.  
She can't distinguish twixt a punt,  
A forward pass or rabbit hunt.

And yet she still discusses games  
As tho she knew all players' names.  
She quite endorses canes and spats,  
She calls fraternities "the frats."

Ah, Spirits, Fates, and Gods that be,  
From any such deliver me.  
But even as the others fell,  
I think I have. All do. —Vonnell.

### IN THE SEATS OF THE MIGHTY

(From The World's Largest College Daily)  
"Tryouts for places in the all-University chair, under the direction of E. G. Killeen, will be held for men today at 7:30."

Having mailed with the Masquers,  
Been refused by the Flaskers,  
Still seeking Publicity's flare,  
There now comes a chance  
To try out my pants  
In the all-University chair.

I have a thousand bucks that say I'll be at the game this afternoon. Do I hear a cover? —THE HIRED HAND.

## The Stage

### METROPOLITAN

"Old English" will be acted at the Metropolitan Opera House in Minneapolis one week, beginning October 4, with matinees on Wednesday and Saturday. "Old English" presents the unique combination of George Arliss, John Galworthy and Winthrop Ames, foremost representatives of the fine art of the theater. Arliss last was seen here in "The Green Goddess," since which time he has acted this play in London for a year and a day. Galworthy's "Loyalties" is remembered as this author's last successful production in America, while Winthrop Ames has brought to the stage many of the most notable dramas the American theater has seen in the last decade and a half.

### SHUBERT

"Cheaper to Marry," Sam Shipman's vital and arresting drama of matrimony will be presented in Minneapolis for the first time by the Bainbridge Players at the Shubert theater beginning with the matinee, Sunday, Oct. 3. Virginia Mann, Mildred Vincent, Loretta Shea and Robert Hyman are cast in the outstanding roles.

### PANTAGES

Kayl Norman, "The Creole Fashion Plate," presenting a new act and displaying a new wardrobe of gorgeous gowns, is headlining the Pantages vaudeville act for the week.

The Gascoignes, a man and a woman who recently returned to the United States following a successful season in Europe, open the bill with a comedy balancing turn. The Strains sisters, a musical pair, Gene Barnes and Company with "Getting a Ticket," the Marry Ann Wells Dancers, an aggregation of artful terpsichorean stars, and Polly and Oz, in which act there are two men and one girl, complete the bill.

The motion picture feature for the week is "Fig Leaves," an Adam and Eve story brought up to date, with George O'Brien and Olive Borden starring.

### LYCEUM

"The Sap," William Greys extremely hilarious farce, is being presented in musical form by the McCall-Bridge Players at the Lyceum theater, St. Paul, this week. The piece ran for an entire season at the Selwyn's Apollo theater, New York, with Raymond Hitchcock, America's most popular comedian, in the title role.

Four musical performances will be given Sunday at 3:00, 5:45, 7:30 and 9:15. A first run feature photoplay filling between the musical productions make the performances continuous from 1:00 to 11:00 p. m.

### PALACE

"Pomero's Past," one of Broadway's most successful farce comedy plays, will be presented by the McCall-Bridge Players at the Palace theater, Minneapolis for a week, starting with the matinee Sunday. The play ran a solid season at the Longacre theater, New York, with Ernest Truex featured. Numerous musical specialties and dance intermissions have been cleverly inserted throughout the play. One of the highlights of the musical program will be the Palace male quartette who offer a new repertoire of favorite songs.

One of the most pretentious bills of the present vaudeville season comes to the Hennepin-Orpheum this week with a trio of headliners who will offer the best in variety entertainment. The three headliners are Aileen Stanley, the "Victoria Girl;" London, Paris and New York;" a Joseph Santley review and Roy Cummings, one of vaudeville's most popular comedians. Jack Kraft and Elsie LaMont will offer fun under the billing, "Put Up The Lights." Will Ferry billed as "The Miracle Man," will present a contortionist act. Another feature act and the photoplay, "Clara Row" in "The Clinging Vine" completes the bill.

## The Screen

### STATE

A host of film notables will be seen at the State theater starting Saturday in "Three Bad Men" which shares honors with the musical revue, "A Night in Italy." William Warvelle Nelson and his Spanish Serenaders, occupying the stage, feature in the presentation such song and dance talent as Jack Russel, Mith Mack and Jack North. Eddie Dunstedtor at the organ and the usual film supplements conclude the program.

### STRAND

"Mare Nostrum," Rex Ingram's screen version of the Blasco Ibanex classic remains for a second week at the Strand theater. With Alice Terry and Antonio Moreno in featured roles, the story relates the romance of a Spanish sea captain and a charming spy. The theme of the story is enhanced

## OPERA STAR TO SING HERE

MARION TALLEY

America's Newest and Youngest Song-bird

Marion Talley, the youngest prima donna in the history of the Metropolitan opera house to make her debut in star roles and win an immediate success. Miss Talley is to make her first appearance in Minneapolis in Mrs. Carlyle Scott's concert course at the Kenwood armory October 8. Enormous audiences have been attracted to the concerts this young artist has given on her present concert tour.

Every American thrills with pride at the amazing success of Marion Talley, the nineteen-year-old Kansas City girl, whose sensational debut at the Metropolitan Opera House was featured in the nation's press and is still the talk of the musical world.

The rise of Marion Talley from a choir girl in a Kansas City church to a leading soprano of the Metropolitan Opera Company, all without the influence of wealth and very little European training, is another example of what we like to consider typically American characteristics, pluck and perseverance.

But to these qualities, and a God-given natural voice of freshness, brilliance and beauty, must be added a definite touch of genius which permitted this naive and unspoiled girl to walk unconcernedly on the stage of the Metropolitan Opera House before a gala audience on that memorable night last February to a triumph which is spoken of everywhere in terms of Adelina Patti and Jenny Lind.

by remarkable photography, authentic locations on the Mediterranean being used.

### GARRICK

Norma Shearer and Conrad Nagel co-star in "The Waning Sex," the Garrick theater attraction for the week starting Saturday. Eddie Bratton and his Garrick Melody Makers will offer another of their popular musical presentations.

### NEW LYRIC

"The Show Off," film version of the popular stage play at the New Lyric theater starting Saturday features Ford Sterling and Lois Moran and Lois Wilson with a cast that includes Louise Brooks, Gregory Kelly, Claire McDowell and Joseph Smiley.

### NEW ASTER

Conway Tearle and Agnes Ayres come to the New Aster screen for the week starting Saturday in the photoplay, "Morals for Men." Alyce Mills, Robert Ober, John Miljan and Otto Matiesen have important roles in the supporting cast.

The Anatomy Seminar will meet Saturday, October 2, at 11:30 a. m. in room 226, Institute of Anatomy. Dr. C. M. Jackson will speak on "Physical Constitution of Minnesota University Students." Visitors are welcome.

**Seminar in Pathology**  
12 Noon, Wednesday, October 6, 1926 101 Anatomy Addison's disease  
Dr. B. J. Clawson.

**Notice**  
Shevlin Cafeteria open. Lunch served 11:30 a. m. to 1:30 p. m. The cafeteria has been completely redecorated, a lounge room has been provided, special service for the removal of trays and dishes has been instituted, and a larger variety of food will be offered.

"The Minnesota Union Cafeteria is open for service as follows: Week days, Morning 7:15 to 8:15, Noon 11:30 to 1:15, evening 5:00 to 6:30, Saturday evening to 6:15. Sunday a 40c dinner will be served from 12:00 to 1:30."

## EMPLOYMENT SERVICE SHOWS RECORD YEAR

Greatest Number of Students Placed in Work in History of Bureau

A larger number of students are taking advantage of the University Employment service than in any previous year according to M. J. Crowe, director of the agency, although exact figures are not available.

The most plentiful kind of work that has been offered students through this service is soliciting.

A large number have also been placed in cafes as waiters and waitresses.

There are a great many students who meet expenses by doing typing work, Mr. Crowe pointed out. To assist them in finding work, the agency acts as a medium between the typist and customer, taking themes to be copied, and returning them the following day.

"One of the best ways students can help the agency is by making use of this typing service for essays and

themes," Mr. Crowe said. This is a new idea of service to both those needing work done and those who are available to do it, which the agency hopes will be successful.

## Ebersole to Attend Bankers' Conference

Prof. J. Franklin Ebersole, instructor in bank administration and investments in the School of Business, left for Washington D. C. Friday, where he will attend a convention of the economists and statisticians of the Federal Reserve banks. He will return Tuesday morning.

Physiology 1, Nurses (Dr. Groisheimer) M, W 9:30-10:20, Hospital Lecture room; F, 8-8:50, 9th floor on Tuesday.  
Hospital Lecture room; F, 8-8:50, 9th floor on Tuesday.  
P. M. & P. H. 100 (Dr. Diehl) Section of class regularly in IA 102 will meet in 112 MH.  
Obst. 20-21 (Dr. Litzberg) Tu 9-9:50 Hospital Lecture Room; Th 9-9:50, MH 214; MWF 5-5:50, Hospital Lecture Room.  
Junior Nurses (Miss Vannier inform instructors) use IA 304 MWF 5-5:50.  
E. P. Lyon, Dean

The Housing Bureau will be open daily from 8:30 a. m. until 12:30 p. m. and on Monday, Wednesday and Thursday from 2 p. m. until 5 p. m.

**DEPARTMENT OF PHYSICAL EDUCATION FOR WOMEN**  
Swimming tests will be given during the 9th hours on Tuesday and Friday afternoons, October 5, 8, 12 and 15. All girls who have not passed the test and who can swim should take the test at this time.

**New Graduate Course Offered by the Institute of Child Welfare**  
133f, 134w, and 135a. Observational and Experimental Methods in the Study of the Development of the Young Child.  
A study of the various methods and techniques such as growth records, mental tests, ratings, controlled observations, etc., used in the experimental study of the young child. Practical exercises and problems on Institute records and data will be given.  
(4 or 6 credit, sr. grad. Prerequisite: 10 credits in Psychology or Education Psychology, including one laboratory course, or the equivalent. Permission of Instructor. Dr. Goodough. M. I. S. III, IV, 201 C.W.I.)  
John E. Anderson.

**RHODES SCHOLARSHIP**  
The Minnesota State Rhodes Scholarship Committee will on December 11th elect one Rhodes scholar who shall enter into residence at Oxford on October, 1927. A candidate to be eligible must (a) be a male citizen of the United States with at least five years' domicile, and unmarried; (b) by the first of October, 1927, have passed his nineteenth and not have passed his twenty-fifth birthday; (c) by the first of October, 1927, have completed at least his sophomore year at some recognized degree-granting university or college of the United States. Candidates may apply either for the State in which they have their ordinary private domicile, home or residence, or for any State in which they may have received at least two years of their college education. Candidates for this scholarship must in the first instance be selected by their own college or university. The Selection Committee of the University of Minnesota will on October 16th recommend to the State Committee not more than five candidates. Any student of the University of Minnesota who wishes to apply for this scholarship should interview at once John T. Tate, Chairman of the University Selection Committee, Room 115, Folwell Hall.

**Agriculture**  
All those who expect to take Observation and Teaching before June, 1927, should hand in their names at once to the Home Economics Office together with the following information: Date of graduation. Specialization, which quarter you expect to register for teaching.  
Wylie B. McNeal.  
The faculty of the School of Agriculture will meet at 4:30 p. m., Wednesday, October 6, in Room 3, Plant Pathology Building.

**Frenates**  
The Frenates, the Entomological Club of the University, will meet in Room 302 Administration Building, University Farm, at 4:45 p. m., Monday, October 4th. All interested are cordially invited to be present.  
Report on European Corn Borer by Professor Wm. Boss.

## U WILL OPEN RADIO PROGRAM MONDAY

Music Faculty to Broadcast First of Series Sponsored by the Extension Division

The first University radio program of the year will go on the air Monday from 8-9, when the faculty of the department of music will broadcast.

The following numbers will be given:

## McCALL-BRIDGE PLAYERS TO PRESENT "POMEROY'S PAST"

Above photo shows Beulah Hayes, Al Bridge, Pansy Williams, Russell Trent, and Dorothy Sevier in a scene from "Pomeroy's Past," a thoroughly original comedy, which will be the offering of the McCall-Bridge players at the Palace theatre, Minneapolis, starting with the matinee Sunday. "Pomeroy's Past" is the laughing vehicle in which Ernest Truex starred for a solid season in New York. The McCall-Bridge players' version of the piece will include a specially selected musical score, feature dances and ensemble numbers cleverly inserted throughout the play.

# Wolverine, Illini, Purple to Open With Intersectional Games

## CHICAGO INVADED BY FLORIDA IN TODAY'S FEATURE GRID TILT

Michigan to Tussle With Johnny Maulbetsch's Oklahoma Aggies

## NORTH DAKOTA TO AGAIN OPEN MINNESOTA SEASON

Chicago, Ill., Oct. 2.—Intersectional games will occupy the spotlight of today's conference openers when Michigan, Northwestern and Illinois tussle with the Oklahoma Aggies, South Dakota and Florida respectively. All three of the games will be played on the Big Ten fields.

Another game which should rank high in the interest of Conference fandom is the battle between Purdue and the Navy. For the first time in the history of Purdue University a Boiler-maker team will play a team of the east. The Purdue team left Lafayette Thursday night for Annapolis.

### Maroons Play Florida

Florida will come here as an unknown quantity. Coach Staggs, however, has held strenuous drilling since the season began and will have the Maroons on edge for today's battle. A state of gloominess seems to exist as to the possibilities of a great Chicago cleaver for this year because of the green material from which Staggs has to choose his team.

Coch Fielding Yost of Michigan will find the team opposed to an eleven under the tutelage of one of his former disciples; Johnny Maulbetsch, as the Oklahoma Aggies arrived there today to open the Wolverine season. Maulbetsch was one of the greatest full-backs in Michigan history. Michigan is expected to run up a large score although it may have no easy time with the newest member of the Missouri Valley Conference.

Northwestern will play host to South Dakota, the same team which it defeated in the curtain raiser last year. The new stands have not yet been completed but the Purple stadium will house 25,000 fans.

Football at Minnesota  
North Dakota will again begin the football season at Minnesota and is expected to succumb to the Spear-coached eleven. Spears will get a line on his squad for the game with Notre Dame next Saturday.

The "Grange-less" Illini inaugurate the 1926 schedule at Urbana with Coe College and it is evident that the year will start with an Illinois victory.

Weekly essays take the place of exams at Oxford university.

## Plays First Game as Gopher Captain

Roger Wheeler, veteran end on Minnesota elevens for the past three years, who will play his first game as a Maroon and Gold captain today. Wheeler is playing in his last year at Minnesota. Besides being one of the most consistent wing men in the conference, "Rog" is recognized as a sure-fire "pass-grabber."

## FRESHMAN FOOTBALL WILL TAKE ON NEW ASPECT NEXT WEEK

Finger Calls Large Squad Well-Balanced and Promising; Signal Drill Tuesday

### 'VARSITY' OF 30 BEST WILL BE PICKED SOON

"Get acquainted with the ball," was the first order that Coach Sherman Finger gave to the 130 freshman football candidates last night. Fundamentals of the popular sport will be on tap again Monday. After that, however, the yearlings will have to execute the plays of the opponents against the varsity to give Coach Spears the needed information on smearing plays that would otherwise cross the Gopher line.

Coch Finger plans on keeping about 30 men on the first squad which will furnish the regular varsity with opposition throughout the season. At this rate there will be over 100 men who will form the regular fresh squads that won't scrimmage the varsity. As these

men show form, and prove that they are worthy of bumping up against the first string, they will be advanced to the first freshman squad. By this method, the coaches will be able to give each freshman a chance in competition and in due time will know just who should continue to wear the Maroon jerseys.

"After looking the men over, I think the squad is evenly balanced," was the

favorable comment of the head freshman coach. None of the men are looked upon as spectacular prospects, but a very even eleven should grow up into varsity men next year. There are few coaches who would give up an evenly balanced team just to gain a few outstanding stars. "There are punters, passers, and several men who can run with the ball," continued the freshman mentor.

Sig Harris, famous Minnesota scout, will view the Notre Dame-Beloit game today and should be able to line the Gopher frosh on the Irish plays. It will be an interesting sight to watch the six foot frosh team battle the varsity which is made up of several smaller men.

Three students at Wisconsin have secured patents on flashlight devices.

## OCTOBER 6 DATE FOR FIRST W.A.A. SUPPER

Schedules and Rules for Coming Season Are Announced by Leaders

The Women's Athletic Association will arrange for the first social function of the year at a supper party scheduled for Wednesday, October 6. All girls on the campus are invited to attend, especially freshman women. At 5:30, Wednesday, the girls will meet at the women's gymnasium and will then proceed over to Shovelin Hall for supper. Tickets may be procured for 25 cents. W. A. A. members are making a special effort to provide an opportunity for lower and upper classwomen to know one another.

At this meeting incoming freshmen will be told of the year's program in the field of sports. The different sport heads will explain the various ways to win an "M."

Gladys Benson, newly elected hockey head, asks that all hockey players be present at a mass meeting on Monday at 12:30 in the women's gymnasium for the purpose of electing hockey class captains.

University Professor, Student  
and Employee  
**University State Bank**  
—Washington Avenue & Oak Street S. E.

## Your own private stock!

So far as writing goes, that's exactly what you get in the Eversharp Utility Unit. A year's supply of erasers (6), Eversharp Red Top leads (6 tubes), and a genuine orange-enameled Eversharp pencil (1) that will last you from now on. You get them all in the smart little red and gold box—a dollar for bits worth (\$1.50) for a single smack (\$1.00). It's a bargain, and you can shake your good write hand on that! This is the only time we'll run this big convincing ad in this great family journal

**EVERSHARP**  
the name is on the pencil  
  
UTILITY'S THE WORD  
I'm useful, too. And I go along with every Eversharp, whether it's the 50-center, the case-note utility, or the month's allowance gold one. Also free. Pick me up at the Eversharp and Wahl Pen Counter.  
—WALLY, the Eversharp Kid

When the sun goes down  
More than 350,000,000 incandescent lamps, with a combined light of nine billion candlepower, make city streets, stores, and homes brighter than ever before.

In bungalow or mansion, workshop or factory, dormitory or auditorium, there is no excuse for poor illumination. We have cheaper and better lighting in the electric lamp than ever before; for the dollar that bought 1,115 candlepower-hours of light with the carbon-filament lamps of 1886, now buys 16,200 candlepower-hours of light with the MAZDA lamps.  
Not only more light, but correctly applied light, is the order of the day. The electric lamp, with its flameless yet highly concentrated light source, lends itself ideally to reflectors, shades, and screens. It is *controlled light—safe light*. And illumination becomes an exact science.  
During college days and in after life, correct lighting must ever be of paramount importance to the college man and woman. Good lighting is the worthy handmaiden of culture and progress.
