

THE MINNESOTA DAILY

Vol. VII

THE UNIVERSITY OF MINNESOTA, THURSDAY, OCTOBER 5, 1905

No. 13

FRESHMAN WORK IS SATISFACTORY

HARRIS OPTIMISTIC REGARDING FUTURE OF TEAM

Every effort being made to bring the year men up to standard—Many new men report for work—Quarters being arranged for in Armory for use of players.

Prospects for a winning Freshman football eleven in the Iowa and Wisconsin games are very bright and even Coach Harris is satisfied with the squad that meets him every day at 4 o'clock. The men are mostly old high school players, with from two to four years' experience. The squad averages about 170 pounds. The principal fault with the men is lack of speed in getting their plays started and confusion of the signals. Both of these faults can be eradicated by practice.

Although the first team has as yet not been selected, the following men will probably figure in the line-up for the Iowa and Wisconsin games: Ends, Castor, Mps, Central, Coughlin and Rogers, Aitkin, Minn., and D. Marshall; tackles: Rollin Smith, Mps, Central, Aicher and Carpenter of Elk River, Wis.; Guards: Lambert, Knoche and Gilschert; Center: Dunn; Quarterbacks: Moore of St. Paul and Jelle; Fullbacks: Stoder, of South High, Robertson, Hawley, of California, Vidal, of Fargo, and Keiser; Fullback: Sly, of Pillsbury, and Nat Frykman, of East High.

The Freshman football room in the Armory is nearly ready. It is to be complete in every way and will be a great convenience to the team.

FRESHMAN MEDICS WIN CANE RUSH

The annual Medic cane-rush came off yesterday afternoon in front of the Medical building. The Freshmen won both rushes, the first 16 to 13 and the second 28 to 25.

In the light weight wrestling matches, Higgins '08, and Varco, '09, wrestled to a draw. In the middle class Zierold, '08, defeated both Munns and Dorr, '09.

The featherweight match between Opp, '08, and Donald, '09, was won by the former.

Joe Cutting, '08, failed to throw Anderson, '09, after thirty minutes of hard wrestling.

The first boxing match was between Bandelin, '09, and Robertson, '08, the latter winning.

May, '08, and Knoche boxed two rounds to a draw. Ryan, '08, defeated Rodemacher, '09, after some very clever boxing. The most interesting match came last between Handy, '08, a heavy weight, and Boland, '09, a middle-weight, in which the latter won.

The cane-rush was clean and Referees Eklund and Barclay both saw to it that President Northrop's instructions were observed, so that no criticism should be heard from outside sources on Varsity cane-rushes.

Moses Strathern, who has been detained in St. Paul on account of his father's sickness, expects to come back to the U. this week.

WILL ELECT.

Freshmen will meet October 11 to elect officers.

Freshman ardor seemed to have been temporarily dampened by the outcome of the election, but when looking again on the rise and the youthful politicians are now at work.

The outcome is a Freshman class meeting in Professor McClumphe's room at the end of the 4th Hour Wednesday, Oct. 11.

Several good men are available for class officers and their friends are quietly urging their claims on the presidency, but nobody has come into the open as a candidate for the head office as yet.

NEW DEPARTMENT WILL BE ADDED

COLLEGE OF SOCIAL AND POLITICAL SCIENCE WILL SOON BE ADDED.

The University will probably have in the near future a department to be known as the College of Social and Political Science.

The object of this college will be to train men for public office, for diplomatic and consular service, for teachers, and for the management of great corporations, and for other important organizations.

This college will be co-ordinate with the present college of Science, Literature and the Arts, and will include the departments of history, sociology, economics and politics. In addition to these it has been suggested that the department of journalism also be added.

A course in this department will be very valuable to those who intend to take up law or business in later life. The details of the arrangements of this course have not yet been completed, but it will probably be a four year course leading to the degree of A. B.

Similar colleges are now established in the Universities of Columbia and California, and one will probably be organized in the University of Nebraska.

This matter has been before the Board of Regents for the last two or three years, but the recent talk of a school of journalism has brought the matter up again, and it is quite probable that something definite will now be done.

Those of the faculty who are especially interested in the establishment of the proposed college are Professors Folwell, McVey, West, Schaper, and Dr. Smith.

ST. THOMAS GOES DOWN TO DEFEAT

The game with St. Thomas yesterday afternoon brought out a crowd of about two thousand.

The play was very erratic throughout, Rogers' men holding the Varsity several times and often driving them back for losses, but their physical condition was against them and there was no sustained gain.

The Varsity's play was very streaked, brilliant gains being countered by slow formations and costly fumbles. Final Score, 42-0.

PLANS COMPLETED FOR BIBLE COURSE

Y. W. C. A. SCHEDULE ARRANGED FOR BIBLE STUDY.

Over sixty girls already enrolled, but it is hoped that the number will be doubled.—Class in "Life of Christ" to be organized after Dr. Burton leaves.

At the Y. W. C. A. Bible Study Tea last Friday afternoon the plans for the Bible Study Course were discussed fully among the girls and the schedule is now entirely completed.

This course is open to all girls in the University and the Y. W. C. A. requests that all those who are not already registered will do so at once. There are now about sixty enrolled, but in comparison with the classes of former years this is an exceedingly small number and it is hoped that there will be a large increase in the next few days.

A class in the "Life of Christ" will be organized after Dr. Burton leaves, in the early part of November, of which Miss Katharine Baras will be leader. However, everyone who wishes to take this is requested to register sometime during the week.

The schedule of leaders and the hours are in the Y. W. C. A. room and Miss Brown, the secretary, will give the girls the necessary information.

SENIOR MEDICS

The Senior class of the Medical Department will hold its election today.

Home C. Bass, of the '08 pharmacy class, left school last week.

FACULTY REMARKS ON JOURNALISM

There has long been agitated by those interested in a more complete curriculum for this college, the necessity of the establishment of a school in Journalism.

This course would be complete in itself, taking up all branches of the newspaper art both in theory and in practice.

It would be broad enough, however, to make it beneficial to teachers, law students or those intending to enter diplomatic or consular circles.

Owen P. McEimeel: "I think the idea of starting a school for Journalism should be vigorously agitated."

The men who take the course should secure places, if possible, on the Daily newspapers or the school daily so that they may get the practical side of the work along with the theory. I have often thought the University should have such a course, as I think it would tend to produce a better school paper, as well as a better standard in all written work.

"I hope the Daily will make a success of their effort to start this subject and wish that they would refer it to the committee on curriculum at its next meeting."

Dr. Folwell: "It is to be sincerely hoped that the Regents will soon make this college a realism."

(Continued on page 4.)

AS STRIKE BREAKERS.

Job workers desire the aid of student printers.

A big strike is on among the printers in Minneapolis, and some of the job workers have asked several of the professors to get students to set type for them. Several of them are already working and many others will probably follow their example, as there is big pay in it.

It will be remembered that two years ago the students were called in to break the strike at the flour mills, which they did. This action caused great excitement at the time, but nevertheless a large number of students entered the mills.

"U" OF "M" NOT ON FOREIGN LISTS

MINNESOTA NOT A MEMBER OF ASSOCIATION OF AMERICAN UNIVERSITIES.

On account of Minnesota's failure to pay \$10 for registration in the Association of American Universities, students desiring to take advanced work are having trouble in gaining recognition for their work done in European schools.

The Association includes all the leading universities in America and the names of those are listed in European references. No other colleges are recognized.

A recent example of this trouble occurred this summer when Professor Rosendahl, instructor in Botany, applied for the degree of Ph.D. at Berlin, having studied there for two years.

Although told previously that his diploma from Minnesota would be sufficient evidence of his work, when he presented his thesis last summer it was refused on the ground that Minnesota's name did not occur in the official list of American Universities.

It took Mr. Rosendahl over two months to convince the German officials that the "U. of M." was a college of recognized standard.

Similar difficulty has been encountered even in California where standings of Minnesota students are not recognized because the University is not in the Association.

When the matter was called to President Northrop's attention he stated that he would look into the matter at once in order to relieve students who go to Germany and elsewhere in the future of all such trouble.

The chief reason for not being listed seems to be negligence, as the standing of Minnesota would allow it to be included.

AGRICULTURAL SCHOOL.

Opens with an increased attendance over last year.

According to Mr. Drew, the registrar, the Agricultural College opened this week with some six hundred students in attendance. An increase of about sixty over last year.

The Freshman class has some two hundred members.

Mr. Wayne gave the usual welcoming speech of encouragement to a crowded chapel, expressing the hope that the fine weather would inspire the students to make a good record for the coming year.

A SCHOOL OF JOURNALISM.
There has been established at the University of Wisconsin for several years a four year course intending to fit a man for a general commercial life. This course has attracted men from all over the country.

At Minnesota there are dozens of men intending to enter just that field, but are forced to substitute either law or the academic work, neither of which are just what they want.

There is to be formed, it is announced a college of social and political science, which will offer subjects that fit one for a general business life. The Daily believes that this will do an enormous amount of good for our college.

There seems to have been omitted, however, an important detail—namely, the establishment of a course of journalism which could well be placed under that department. It is to be hoped that the Regents will see their way to establish such a course.

GIRLS' MUSICAL CLUB.

Organization will be effected Saturday noon.

All girls who are interested in the new girls' musical club are asked to meet in Professor McCluskey's room in the library, Saturday after fourth hour. Miss Geraldine Brown will act as temporary chairman and the method of organization will be discussed.

It has been suggested that the membership be limited to sixteen girls and that a committee of three be chosen to try the voices.

Professor Patten, who tries the voices for the men's Glee Club, will be asked to assist in the girls' trial.

Miss Brown has been in connection with two California colleges, Berkeley and Stanford. She says, "In each of these colleges is a flourishing girls' musical club. The one in Berkeley is called the "Treble Cleft," and its services are in demand at nearly every affair of importance in the University. Besides this, the girls do practical philanthropic work, going to the hospitals, asylums, old ladies' homes and other places, leaving a bit of cheer behind them. Though there are several really fine voices among the girls there, the most of them have only ordinarily good voices. But under a good director they have wonderfully improved and the chorus work is splendid.

"I have thought it strange that the girls of the Minnesota University have so ignored music. There is much work connected with an organization of this kind, but if the girls really wish to make it a success there is little doubt about the outcome."

MORE MEMBERS.

Any girls who are not already members of the Womens League will have an opportunity to join during the first three days of next week. There were 881 girls in the University last year, and with an increase in number this year it is expected that at least 700 college women will become active members of the league. The funds of the Association will be expended to help furnish the new Woman's Building when it is erected.

John N. Thelan, Law '05, is with a law firm in Fargo.

FALL AND WINTER FABRICS

Are ready for your choosing.
A Tallant suit is individually becoming, correct in style, will keep its shape, and is worth its price.

10% Discount to Students.

F. E. TALLANT,
33 SOUTH THIRD STREET.

STUDENT DIRECTORY.

To appear soon—Delinquent Addresses should be in soon.

The book containing the names and addresses of all the students in the University will be published in about two weeks. As some of the students during the first week of registration were uncertain of their location, they did not fill out the address cards. All these who wish their names in the book should hand in the cards to the registrar immediately.

The total registration is not yet complete as a few stragglers come in every day, but it is expected to reach the 4000 mark. The entire Freshman class at the end of last year was 744. This year it is 730, but at least another hundred will probably join at Christmas.

The department of agriculture is larger this year than last, and the dentists have increased their enrollment by thirty-five.

Probably the largest gains will be made in the professional departments. Most of those whose registration was withheld have had it attended to, but those who have not should do so immediately.

**FACULTY REMARKS
ON JOURNALISM**

(Continued from page 1.)

Dr. Frankforter:
"I think it will be a splendid thing if it can be organized and put on a foundation so that the boys would get some practical good out of it. If it should only be on paper, I do not approve of it."

Prof. West:
"Such a school undoubtedly would be a good thing, if established at the proper time and under just the right circumstances. However, it would be a pity to act too hastily in the matter and have so important a school inaugurated without adequate preparation for its introduction. As yet there are no definite plans of any kind concerning the actual addition of any such course to the University curriculum, but, without doubt, sometime in the future Minnesota will have some such school."

"Work of this kind, though in somewhat crude form as yet, has been started at the University of North Dakota. Here, the School has not been sufficiently tested to show results. In Columbia University, I believe, there is an advanced School of Journalism, and the course has met with great success."

"Such a school should be equipped with courses in science and history, and the most able and experienced Journalists should be secured for active work in this department. I hope that, when the time is ripe, Minnesota may also have a most successful school of journalism."

Harry McKay, Mining Engineer, '05, has a position in Bisbee, Arizona.

MINERVA MEETING.

The Minerva literary Society will hold their first meeting of the year next Tuesday evening. The program will be entirely devoted to the life and works of Browning.

The program is as follows:
Biography of Browning, with special reference to the influences on his writings, Miss Carrie Bush; Reading from Browning, Miss Iris Newkirk; Review of one of his dramas, Miss Rose Crossman; Criticism of his important work, Margaret Elwell.

The new members have not as yet been elected to the society, but the membership committee has a long list under consideration and the elections will probably be announced sometime during the week.
