

The Supreme Court and Health Reform, the sixth forum in our series, will examine the Supreme Court's ruling on the Affordable Care Act and identify its implications for the future of health reform. How will key stakeholders react? What are reasonable policy responses by Democrats and Republicans in Washington and Minnesota? Will the Court's decision improve or harm efforts to expand access and control costs?

Welcome & Introduction

Panel

Scott Keefer, Vice President of Public Policy and Legislative Affairs, Blue Cross Blue Shield of Minnesota

Mila Kofman, Research Professor and Project Director, Georgetown University Health Policy Institute
