10	AHC	IF "School of Public Health" NOT selected Q2			In the AHC, your work may include primarily research (whether clinical, experimental, or population-based), clinical practice, education, or a combination of these things. In this survey, we are most interested in the data practices of faculty whose work is primarily outside the domain of education (i.e., researchers and clinicians), although it is understood that such faculty may engage in some degree of education. Using these guidelines as a frame of reference, please select the option that best characterizes your work:				
					I am primarily a researcher				
					I am research who does some clinical work				
					I am primarily a clinician				
					I am a clinician who does some research				
					I am primarily and educator/instructor, although I may engage in some research or clinical work				
11	AHC	IF "I am primarily a clinician" OR "I am primarily an educator/instructor..." selected Q9			Do you engage in research that produces new data or uses data from other sources for further manipulation and analysis?				
					Yes				
					No -- SKIP TO END OF SURVEY				
12	AHC				Please consider the following definitions from the National Institutes of Health: Clinical research is research with human subjects that is patient-oriented, involves epidemiological or behavioral studies, and/or focuses on clinical outcomes and health services. Basic/experimental research is a systematic study that seeks to increase knowledge or understanding of the subject studied, with or without knowledge of its specific application(s). Please select the option(s) that best characterize(s) the kind of data used or produced in your research (select all that apply).				
					Clinical				
					Basic/experimental				
					Other (please specify)				
13	CLA, CSE, CFANS		The types of materials used or produced in research can vary widely across disciplines. For some scholars, their work involves the collection and analysis of quantitative (numeric data often analyzed in spreadsheets or with statistical software) or qualitative (e.g., interviews, transcripts, etc) data. For others, their scholarly activity involves the collection or creation of materials that take the form of images, texts, recordings, or other media/materials. Based on your own work, which of the following best represents the primary materials you work with and produce in the course of your scholarly work?						
			Data (either quantitative or qualitative)	✓		✓	✓	✓	✓
			Other research, scholarly, or creative materials	✓		✓	✓	✓	✓
			I am not engaged in research, scholarly, or creative activities (i.e., only engaged in teaching) -- SKIP TO END OF SURVEY	✓		✓	✓	✓	✓
14	CLA, CSE, CFANS		What kind of data do you produce/use in your research?

Running Q number (not necessarily seen in this order)	Survey in which Question Appeared	Display Logic	CLA (Data)	CLA (RM)	AHC	CSE (RM)	CSE (Data)	CFANS (RM)	CFANS (Data)
55	CFANS							How concerned are you about data management/storage for your research projects?	
								Very concerned	✓
								Somewhat concerned	✓
								Not at all concerned	✓
56	CFANS							How much do you agree with the following statements? Most funding agencies I apply to require a data management plan as part of the proposal submission	
								Strongly Agree	✓
								Agree	✓
								Neither Agree nor Disagree	✓
								Disagree	✓
Strongly Disagree	✓								
57	CFANS							How much do you agree with the following statements? It is important to create and execute DMPs for all research projects (regardless of funder requirements)	
								Strongly Agree	✓
								Agree	✓
								Neither Agree nor Disagree	✓
								Disagree	✓
Strongly Disagree	✓								
58	CFANS							How much do you agree with the following statements? I need DMPs for unfunded research agreements and MAES projects.	
								Strongly Agree	✓
								Agree	✓
								Neither Agree nor Disagree	✓
								Disagree	✓
Strongly Disagree	✓								
59	CFANS							Do you routinely write these costs into your proposal budgets?	
								Software	✓
								Hardware	✓
								Data storage (server space)	✓
60	CFANS							How do you pay for data management and storage for your research projects (select all that apply)	
								PI Funds (start-up)	✓
								Grant funds (sponsored projects)	✓
								Department funds	✓
								Cost pools	✓
								Other	✓
My projects don't incur these costs	✓								
61	CFANS							In the past, have you contacted CFANS-OIT for help with storage and/or management of data?	
								Yes	✓
No	✓								
62	CFANS							Are you aware of the storage and virtualization resources available from the U of M that CFANS-OIT can assist you in implementing?	
								Yes	✓
No	✓								
63	CFANS							What tools or resources could CFANS-OIT provide that would help you successfully implement your technology goals that are necessary to support your research?
