DAD ELLIOT TO ADDRESS THREE MEETINGS HERE

Famous Religious Leader Talks to Group of Men Students Today.

FIRST LECTURE WILL BE GIVEN NOV. 3

Says College Output Is Greatest Problem of Generation.

"Dad" Elliot, international Y. M. C. A. religious leader among students, who will address the students in a three day series of meetings on Nov. 3, 4 and 5, talked to a nucleus of men composed of more than thirty of the student leaders at Minnesota, in the student room of the Minnesota Union at 3:00 p. m. yesterday. He also addressed the students of the School of Agriculture at two convocations.

The meeting yesterday was held as a preliminary meeting of the big convocations to be held in November. The schedule of "Dad" Elliot's addresses for that time was announced as follows:

Schedule of Addresses.

Wednesday, Nov. 3rd, 4:30 p. m.—Little Theatre (Men and Women) "Things That Undermine the Student's Efficiency."

Thursday, Nov. 4th, 11:30 a. m.—Armory. Convocation. "Social Forces in University Life That Must Be Made Constructive." 4:30 p. m. Little Theatre (Women only) "The Woman's Problem from a Man's Point of View." 7:00 p. m. Bible College Auditorium (Men only) "The Student's Greatest Enemy and How to Overcome It."

Friday, Nov. 5th, 4:30 p. m.—Bible College Auditorium (men and women) "Does Religion Make a Difference?" 7:30 p. m. Armory (men and women) "The Acid Test of Religion."

"Dad" Elliot said in his address to the group of thirty yesterday afternoon: "The present age, more than any other age in history, is the age of appalling questions; not mere academic questions but real live challenging questions. A coal famine here and a food famine threatening in some other portion of the world are only some of the things demanding attention today."

Women Journalists Plan Years Work

Hold First Meeting of Year—New Members Will Put Out Issue of the Daily.

Theta Sigma Phi, women's journalistic sorority, held its first official meeting of the year at 4:30 yesterday afternoon in the Jean Martin Brown room. Theta Sigma Phi "freshmen" will edit the Minnesota Daily for Friday, October 29, to complete their initiation. Other members of the sorority will assist in putting out this edition. The new members, who were admitted last spring, are Leda Schreiber, Ruth Howard, Katherine Godfrey and Agatha Krueger.

Theta Sigma Phi will meet the first and third Tuesdays of each month at 4:30 p. m. and meetings will close with a spread and social hour.

At the regular meetings, a program of stories, sketches and plays will be presented for the entertainment of the members. Once a month a special speaker, well known in journalistic circles, will be secured to address the sorority.

At the next meeting on November 2, the alumni chapter of Theta Sigma Phi will meet with the active chapter to hear some prominent journalist.

Bib and Tucker Elect Officers

Bib and Tucker, a freshman girls' organization, met at 12:30 yesterday in the assembly room at Shevlin hall. This club, which is a social organization, aims to develop freshman class spirit, and to organize the girls into a united body which can take an active part in campus movements.

Officers elected for the year were: president, Helen Baldwin; vice-president, Julia Patti; secretary, Mildred Tingdale; treasurer, Lya, Tyra; Y. W. C. A. Board Member, Jean Archibald.

"U" Legion Post to Elect Officers

The first meeting of the University of Minnesota Post, American Legion, for the year, will be held today in the Law auditorium at 2:30 p. m.

It will be the last meeting of the Post presided over by Lewis Lohman, present commander. Election of new officers will be the principal item of business before the meeting. The activities of the Post for the coming year will be outlined.

All members of the Legion on the campus have been requested to attend.

Y.W.C.A. to Drive for New Members

Plans Laid for Increase in Membership and Improved Organization.

The Y. W. C. A. membership drive was begun this morning by a team of 75 girls, following a dinner given last night for the membership committee at the home of one of the advisory committee members.

The committee, under the leadership of Eunice Warrall, chairman, has six sub-chairmen in charge of old members, freshmen, upperclassmen, sororities, houses, and unorganized.

With a new personal basis of membership in the student Y. W. C. A. every girl in the university may become a member. There are phases in association campus work to interest all girls. The student association here is affiliated with the city and national associations. Last year sufficient funds were raised to support Alice Anderson, a Minnesota graduate, in China, for one year, and to support a French war orphan.

Speakers of national reputation were secured during the year, among them Louise Holmquist, national student secretary, and, in co-operation with the Y. M. C. A., Dr. Sherwood Eddy, and Ralph Connor.

Mary E. Brownlee, secretary, and Edythe Saylor, assistant secretary, are now the association appointees for the year. Association officers are: Harriet Thompson, president; Elizabeth Anderson, vice president; Esther Hall, secretary; and Lazelle Alway, treasurer.

College Combats Vary Employment at Health Service

The University Health Service has been busy during the past week by the results of the various college combats. The Dents were hard on their freshmen, but no one could beat the Engineers in pitched battle. Monday, the health service participated in the Engineer scrap. More than fifteen men came in showing various results of their parts in the war. Broken noses and scratched wrists were not uncommon. The scratched wrists were caused when the freshmen tried to free their classmates by slashing the ropes which tied their hands together. Now that the scraps are over with, there is a lull in the dispensary department.

Academic Juniors Nominate Officers

Shattuck Hartwell and Arthur Motley were nominated for the presidency of the academic junior class at a meeting held in the Little Theatre yesterday noon. Other nominations were:

Vice-president, Winifred Moe; Alice Kidder, and Irene Kraft.

Secretary, Fannie Martin, Ruth Howard, Catherine Sweet.

Treasurer, Ray Busch, Willard Schmidt.

The election will take place in the postoffice Friday, under the direction of the academic student council. Polls will be open from 10:30 to 2:30.

Helen Hauser Cap and Gown President

Helen Hauser was elected president of Cap and Gown, all senior girls organization, at the first fall meeting yesterday. This means that she will, together with the all-senior president, lead the cap and gown day parade next spring.

Other officers elected were: Bertha McRae, vice president; Florence Rush, secretary; and Marian Marshall, treasurer.

PIERCE TO SPEAK AT MEETING OF UPPERCLASSMEN

Association of Academic Upperclassmen Holds Dinner Tomorrow.

MR. CHARLES BERRY, VIOLINIST, WILL PLAY

Program Includes Election of President and Nine Members of Executive Committee.

The members of the Academic Upperclassmen's Association will hold their first get-together dinner of the year tomorrow evening in the Minnesota Union, room 200. The executive committee of the association met last Wednesday afternoon and agreed that the best man to address such a gathering of men habituated to thinking and acting in terms of the better Minnesota, is Ernest B. Pierce, now secretary of the Alumni Association. Mr. Pierce will address the meeting on the subject, "The Heart of the University."

Berry is Musician

Mr. Charles Berry, of St. Paul, will furnish the music during the meal. He plays the violin, and will be properly accompanied by a pianist. The committee insists that this first dinner shall be the kind at which, in the language of the small town reporter, it may be said that, "A good time was had by all."

To Elect New President. During the evening there will be an election of the president and nine other members of the executive committee, to serve until next fall. The candidate for president should be a senior, according to the constitution.

Only upperclassmen in the Academic College, who are prepared to put some service into the organization, and who have paid their dues for the quarter, are entitled to membership in this association. The dues are fifty cents a quarter. The price of the dinner tomorrow night is also fifty cents.

Rev. Stafford Speaks at First "Y" Service

Talks on "The One-Track Mind" Today—Four Meetings Each Week.

"No person," said Rev. Russell Henry Stafford at chapel this morning, especially a University student, should go thru life like an express train with the shades pulled down."

He pointed out that the proper way to live is to observe the events going about about us.

"Farmers, I have noticed, hunt for creameries in traveling thru a new country, merchants look for new stores, while I perhaps naturally, look for church steeples; especially freshly painted ones. We all can find what we are hunting for, if it is evil we want, we can find it, the good is more carefully hidden.

"There are some people who set their eyes on one goal and go straight for it; they look neither to the right nor the left. Such living is good for only one purpose, that is the amassing of a fortune, and attaining wealth and power. It is the detours of life and the observations we make when off the beaten path that develop character."

In his speech Rev. Stafford congratulated the committee in charge for the re-establishment of chapel services and expressed a desire for larger audiences. He also suggested that President emeritus Northrop be asked to speak because as Rev. Stafford expressed it, "No one knows what a real chapel service is unless he has heard 'Prexy' Northrop pray."

Chapel meetings are held under the auspices of the Y. M. C. A. every Tuesday, Wednesday, Friday and Saturday in the Little Theatre at the beginning of the third hour. They last only twenty-five minutes and are non-sectarian in character. Today the subject will be "The One Track Mind."

TWO NEW MEMBERS ADMITTED TO 23 CLUB

Robert Gambill and G. Marion were admitted to membership in the '23 club at a meeting of the organization yesterday. At this gathering a committee was appointed to make arrangements for the annual academic freshman-sophomore scrap.

Student Sells Bicycles While Pursuing Scolastic Duties

Sheldon F. Reese, 18-year-old Sophomore at Minnesota Carries on Extensive Business—Is Also Inventive Genius.

Sheldon F. Reese, 18-year-old sophomore of the school of business of the University of Minnesota, reputed to be the youngest successful business man in the United States, believes that Minneapolis and the university offer unusual opportunities for combining culture, pleasure and business.

For six years Reese's life has been centered around the selling of bicycles to such success that in that time his business has grown from a \$500 turnover the first year to a \$25,000 turnover last year. Following his conquest of his own town and surrounding farms, in which territory he caused the number of bicycles in use to be increased from 39 when he started to over 1,000 now, he established a branch house in Sioux Falls, S. D., and perfected plans for supplying bicycles to people all over the state. Now he sells bicycles to people of Montana, North Dakota and Minnesota as well as to those of his own town.

Decides to Come to Minnesota.

But following his high school course he began to think of getting a higher education, and picked out Minnesota as ideal for his purpose. Minneapolis is close enough to his business to permit him to receive every morning a report of the previous day's business and all the mail, from his home office and to answer the mail and send instructions to his superintendent the same night. The city offers him the best in its art exhibits, its symphony orchestra programs, and its theatrical attractions, and the university offers business and law courses which completely satisfy his needs, he says.

Reese has been the subject of several articles in trade journals and national magazines, and has won national recognition through capturing prizes offered by the national association of bicycle dealers for advertising features. He attributes his success to the advertising which he has done. By using posters, feature advertisements, and an invention of his in the form of an aerocar, he has kept his article constantly before the people in his territory.

Forum to Discuss Political Issues

Varied Program Arranged For Literary Society at Union Tonight

The Forum Literary Society will hold a regular meeting tonight at 7:45 in the Minnesota Union. The program is as follows:

Jones Merchant Marine Act, R. L. Swore; Declamation, Byron Gilkinson; Future Naval Policies, Sweet; Cox and His Policies, Fred Geyerman; Minneapolis Municipal Charter, W. L. Sholles.

The topic for the round table discussion will be Minnesota political issues. However, issue to any of the above speeches can be taken instead. Everybody interested in public speaking is invited to come out.

DR. MAYO TO LECTURE ON SURGICAL DISEASES

Dr. Charles H. Mayo, Rochester, will deliver a lecture in Millard Hall before junior and senior medicals on "Surgical Diseases of the Thyroid," next Saturday, October 23, at 11:30 a. m.

Freshman Ties on Sale This Morning

Verdant green ties for all freshmen in the academic and engineering colleges will be placed on sale this morning. Engineers may obtain theirs at the Engineers Bookstore, while academics will be supplied from a booth at the post office in charge of Grace Cotton.

The ties, which are of the straight four-in-hand variety, are to be worn with civilian clothes, on the outside of the vest. All have the numerals '24' emblazoned on them, the engineers in yellow, and the academics in maroon.

According to a rule of the All-University council, freshmen in all colleges are required to wear the ties. If they are not very much in evidence by Saturday of this week, mob rule will be in order, according to one member.

O. O. Stanchfield.

New York Engineers Form Alumni Branch

"Roughnecks" Organize at Meeting—Discuss Old Minnesota Days.

That an alumni association of Minnesota's "roughneck" engineers has been formed in New York City was made known to the Daily yesterday through a letter received from the Association's publicity committee.

The association, while mostly a social organization of men with mutual ideas and traditions, plans to keep its members in touch with present day engineering problems and opportunities.

The first meeting took the form of an informal gathering at the home of D. K. Ganet, E. E., '17, and was purely for the purpose of gathering together the sons of Minnesota who are located in New York. Frois, blue slips, and "Doc" Williams football team were the favorite reminiscences of the evening. At a later meeting an election of officers was held and a committee appointed to keep in touch with the Alumni association of Minneapolis and with the Minnesota Daily.

The New York branch has thus far moved with the typical engineering pep and we may feel assured that it will keep alive that justly famous engineering reputation.

D. K. Ganet, E. E., and D. C. Smith, B. S., were elected chairman and secretary, respectively.

Further plans have not been announced.

Daily Dance Will Have Big Features

Pretzels and Cider Will Regale Guests at Publication's Festivities

Seventy-five gallons of cider and pretzels galore will be placed at the disposal of the guests at the annual Daily dance to be held Oct. 29 in the Armory, is the announcement made today by Hailan Nygard, chairman of the refreshment committee.

Large tables will be placed at either end of the room for the refreshments. Everyone on the campus is invited to the affair.

Mrs. Coffman Honor Guest at Shevlin

A tea, in honor of Mrs. L. D. Coffman, will be given by the W. S. G. A. and Miss Jessie S. Ladd, dean of women, at Shevlin Hall on Friday afternoon between the hours of 4 and 6. This affair, under the direction of Irene Kraft, is the first to be given in honor of the wife of the new university president.

Miss Rachael Beard has charge of the refreshments and Miss Bertha Mac Rae is arranging for the decorations. A program, which is being planned, will be announced later.

All university and faculty women are cordially invited.

NO VACATIONS AT SMYRNA.

The International College at Smyrna never closes its doors. Classes are held all the year, and there are no vacations.

You need the Daily, and the Daily needs you. How about it?

INDIAN WORKER TO LECTURE AT AG CONVOCATION

O. O. Stanchfield, International Y. M. C. A. Worker, to Address Students.

ORGANIZED VILLAGE BANKS IN INDIA

Has Been Invited to Speak to Numerous Bankers' Associations

O. O. Stanchfield of New York, international Y. M. C. A. worker in India, will address the first agricultural college assembly of the year to be held Thursday, 10:15 a. m.

Mr. Stanchfield is a graduate of the Michigan College of Agriculture. He was sent to Calcutta, India, by the International Committee of the Y. M. C. A. in 1913 to start county work in the Indian Empire. In this capacity he has helped organize 160 village banks in this country. He states that there are 42 county Y. M. C. A. secretaries in India and that work has been started in nearly two hundred Indian villages.

Since his return Mr. Stanchfield has been invited by various bankers' associations all over the country to address them on banking and agriculture in India.

Sixteen Accepted For French Club

Le Cercle Français Admits New Members at Tryouts Held Yesterday.

Sixteen new members were admitted to membership in the Cercle Français, at tryouts held in room 226, Folwell, yesterday. Those chosen are: Helen Countryman, Dorothy McGhee, Clifford Mac Yendes, Margaret Tupper, Roland Queneau, Clara Luger, Florence Mullin, Caryle White, Belle Taylor, Helen Haggerty, Dorothy Darrow, Mary Stoddard, Sarah Crandall, Elsie Gadsbois, Helen Johnson, and Hortens Koutheis.

Members of the committee in charge of the tryouts were Carol Woodward, Henri deBooy, and Edith Wheeler, and Mr. Jules Frelan, Mlle. Guinotte, and Mr. Constad, members of the faculty, assisted.

The first meeting of the club will be held Thursday night at the Alpha Sigma Phi house, 1110 5th St. S. E. at 8:00 p. m. Sylvan Lyksett will be in charge of the program. Refreshments will also be served. All members are requested to attend this meeting as it is to be a very important one.

No more members will be admitted until the next quarter, when another tryout will be held for those wishing to join.

Engineers Hear J. J. Garvey at Assembly

Mechanical and electrical engineers of the junior and senior years were told of the urgent need, for technically trained men, by James J. Garvey of the Western Electric Co. of Chicago at a meeting held in the Mechanical Engineering building yesterday at 1:30. He said that the Chicago plant which now employs 22,000 men intends to raise the number of workers to 25,000 in the near future, and that there is a great demand for men with technical training.

According to Mr. Garvey, a four-year course in an engineering college is not sufficient experience to enable one to enter immediately upon the work at the plant. When the graduate engineer arrives at the factory, he must receive further instruction in the more practical side of the work for a period extending from six months to two years, depending on the ability of the man himself.

Mr. Garvey said that the engineer after finishing this course would then be put in a position where he would have to handle men. He declined, however, to mention any salaries, for as he said, these are continually subject to change.

LEWIS HARRIS PLEDGED

Sigma Alpha Mu announces the pledging of Mandy Feldman of Eveleth, and Lewis Harris of Minneapolis.

The Minnesota Daily

Entered as second-class matter, at the postoffice at Minneapolis, Minnesota, under the Act of March 3, 1879.

Published every day except Sunday and Monday by the Minnesota Daily Association at the Colwell Press, 415 Third Ave. No., Minneapolis, Minnesota. Geneva 9288.

William G. MacLean, Managing Editor; Robert B. Gile, Business Manager.

Advertising and Circulation Department: Cuthbert P. Randall, Assistant Business Manager; Floyd Hooper, Advertising Manager.

Advertising Staff: Clayton Lewis, John M. Bridge, R. P. Easley, D. W. Rankin, E. R. Baker, Ruth Howard, James Bohan, Francis Olsen.

News Department: Lawrence S. Clark, Editor in Chief; Agatha Krueger, Associate Editor; Harold Schoelkopf, Staff Cartoonist; Hugh Sutton, Staff Editor; Thomas Phelps, Night Editor; Sylvan L. Lykett, Exchange Editor; Virgil E. Turner, Editor; Marie Canel, Dramatic Critic; Esther Schanfield, Music Critic; Ralph O. Hiltgren, Editorial Writer.

Chandler Forman, Ross Lynch, Carol H. Woodward; Josephine Fredericks, Archie Macdonald, Eunice Worrall; Welles Gray, Chas. Macdonald.

THE RIGHT TO VOTE. The right to vote, according to the doctrines of the American school, is an inalienable right of every citizen.

With some of the greatest issues in the history of the country confronting the voters, the students eligible to cast ballots should do so that the resultant returns may be in all cases indicative of the will of the people.

Registration, of course, is superfluous if the student does not actually vote on election day. With the country torn by great political issues, both national and international, and with internal affairs in a somewhat chaotic condition, it is indeed a duty to study the men who are running for the leadership of the government.

GREEN TIES. No one doubts that green ties are the fitting neck pieces of the members of the freshman class at the University of Minnesota.

The propriety of the "wearing of the green" with the uniform of the United States army, however, is somewhat questionable. Those who wore the olive drab through the World War, in training camp or in action had its inviolability drilled into them.

The enthusiasm of the sophomores in forcing the green tie issue is too admirable to be condemned, but the suggestion that they confine their ardor to the civilian attire of the yearlings is well given.

"WHILE THE AUTO WAITS" No one doubts the beauty of the motor car amid the green ferns and polished floors of the auto shows, but to bring the same motor cars to the campus and display them day after day on our highways is to replace aesthetic appreciation with justified disgust.

Red wheels and shiny headlights are attractive articles when seen in their proper environment, but the majority of the students who "own their own" apparently do not know what the proper environment for a motor car is.

But, irrespective of nationality of the car, the fact remains that it is out of place anywhere along the before mentioned street. Behind the physics building there is an area where the grass will never grow.

LINES OF THOUGHTS. Many of our everyday failures are due to neglect of simple principles. We selfishly expect something for nothing; to make progress without paying in effort.

Wise ones tell us that complexity is the note of all difficulty—and that analysis is the key-note to its solution.

A Philosophy for freshmen—To face your troubles with a bold front is already half the way toward defeating them. (Watch out on p. 20, sophs.)

Well, we're kinda sore and stiff, otherwise we feel all K. O. But we had a holiday so what do we care.

Being col. conductors, of course, there is always doubt as to our possessing a sense of humor.

Frintance! Last Saturday at the game, when one of Indiana's warriors was laid out, our better sixteenth asked, "Why do they rub his face with that wet towel?"

Without a moment's hesitation our hero pipes, "They want to know who it is."

Fall styles of neckwear at the U of Minn., show a predominance of green.

Florence tells us that the perfect Freshman will not laugh when a prof sits on the said prof's hat.

Neither will the diplomatic upper-classmen.

Editor of the Lyre: Will you tell me if the line at the Union gets so long that we can't get anything to eat, will the Health Service?

SOCS writes us a wheeze, "You tell 'em, Lyre, there's no strings on you."

Not so bad, not so very bad. A TWIST TONGUER Grocer: "My best butter is worth two shillings a pound, sir."

Billy: "But this butter is bitter. If mother puts this butter in her batter it will make her batter bitter."

So Billy bought a better bit of butter and his mother put the better bit of butter in her batter, and the better bit of butter made a better batter than would the bitter bit of butter.

Seems to us that we've heard that one before.

OPINIONS OF CONTEMPORARIES

Why Do Girls Close Their Eyes When They are Being Kissed? (Have you a question you want answered? If so, send it into the Opinions of Contemporaries Editor, at the Daily office or put it in P. O. Box 3013. In asking the question, give your own idea, if you have one.)

John (Jack) Sorenson: "Darn if I know. They must think that something dreadful is going to happen."

Agatha (Gay, Kattie, Scottie, and others) Krueger: "It makes it seem more like heaven to them, I guess."

Harold Schoelkopf (not nicknamed): "They don't shut their eyes. They don't have time!"

Theodore Cook: "They foresee what is going to happen. It helps them get up nerve for the 'shock'."

Scottie Bruce: "It depends on the Man!"

Heck says: "Let us not toy with science. 'Tis a problem for greater intellects than us mere mortals. Oh, sons of Socrates, take thou this problem and inquire into the reason therein."

HOKKU (From the Japanese of Kumulevan) Ootsi, Tootsi, my beloved, is more than a beautiful peach, newly ripened, but I doubt her wit.

If she is wise she will marry Bigoshi, the wealthy money changer, rather than me, the indigent 'writer of verses.

And I shall lament forever the loss of so great a treasure. If she lacks intelligence she will marry me, and all my days I shall lament my misfortune in being yoked to a witless wife.

Love is indeed a gamble, in which the keeper of the game plays with loaded dice. He is a fake philosopher who sometimes will not reverse his own judgments.

At The Theatres

New Garrick—Charles Ray will be seen this week in "The Village Sleuth," at the New Garrick. This is one of Charlie's most enjoyable comedies, showing him in the role of a chore boy at a ladies' sanitarium, who not only solves a problem worthy of Sherlock Holmes, with a lost millionaire, a wholesale jewel thief, and an escaped convict, but wins the pretty ex-chorus girl as well.

Strand—"What's Your Hurry," starring Wallace Reid, is the featured attraction at the Strand this week, starting Saturday. It was written by Byron Morgan, author of "The Roaring Road," and "Excuse My Dust," and is declared to be the liveliest and most enjoyable comedy that Wallace Reid has ever played in.

New Lyric—"Humoresque," the tender story of a mother's love for her boy, admittedly the greatest motion picture in several seasons, will be the super feature which starts this week at the New Lyric.

Blue Mouse—Pauline Frederick will star in "Madame X" at the Blue Mouse theater this week. This is the film version of the well known play by Alexandre Bisson, of the French woman who was turned out of her home by the unjust suspicions of her husband—who sank lower and lower in the scale of humanity until she faced the bar of justice, with her husband on the bench, a woman of the streets accused of murder—to be defended and saved by her son.

ILLINOIS WOMEN'S LEAGUE TO OPEN WOMEN'S ROOM-ING HOUSE Eight cooperative houses will be operated by the Women's Welfare committee for the Women's League, when plans now under way to secure the eighth house materializes.

TEXAS COLLEGE BOOSTS NEWS EXCHANGE BY WIRELESS Much interest was manifested by the twenty-five members of the Rice Radio Club over the "Exchange by Wireless" idea. It was decided that an extensive campaign be carried out to get the wireless clubs of other colleges interested in weekly exchange of news items.

ARE COWS TRAFFIC? Maxwell Karger, Metro Director General, after a motor trip through Long Island recently, returned to the city with ideas for the framing of a State law regarding cows travelling along country roads in the dark.

Make Your Reservation NOW For Parties at THE BRIDAL VEIL

Phoenix Hose. LAST week we told you these Phoenix silk and wool, heavy Scotch wool and heavy cassimeres were now \$1.50; many of you bought. Here's some more of the same kind; Phoenix quality. They're unusual values \$1.50 at. Maurice L Rothschild & Co Palace Clothing House. Minneapolis and St. Paul.

SUBSCRIBE FOR THE DAILY. Let's Get Acquainted. You will find it convenient and profitable to let us take care of your laundry; we are just a few minutes' walk from the campus, and are equipped to handle all kinds of work in the most efficient way. A phone call will bring one of our drivers. Columbia Laundry. 211 S. E. Oak Street. Gladstone 1306.

OAK THEATRE. Cor. Wash. & Oak St. Dell F. Keenan Mgr. Wed. & Thurs. Cecil B. De Mills in 20th and 21st "Male and Female". Fri. & Sat. Charles Ray in 22d and 23d "Homer Comes Home".

COMMUNITY MERCHANTS. TRADE WITH THEM. UNIVERSITY DRUG STORE, UNIVERSITY SHOE REPAIR SHOP, BIRCHWOOD BARBER SHOP, CAMPUS CAFE, BALTIMORE DAIRY LUNCH, UNIVERSITY SHOE SHINING PARLOR, THE CAMPUS BARBER SHOP, A. G. AHLEN COMPANY, DOMESTIC ENGINEER CO., INC., UNIVERSITY BARBER SHOP, ELECTRIC SHOE SHOP, WAFFLE PARLOR.

What's Happening On The Campus

10:30 a. m. Chapel services in the Little Theater.
 10:30 a. m. to 2:30 p. m. Election of senior academic officers. Polls in the post office.
 2:30 p. m. University Post of American Legion meets in the armory for election of officers.
 6:00 p. m. Upper Classmen's association. Room 200, Minnesota Union.
 7:45 p. m. Scabbard and Blade meeting in the Armory.
Thursday, October 21—
 11:30 a. m. Sigma Delta Chi. Room 206, Union.
 11:30 Senior Education class meeting, Little Theatre.
 12:30 p. m. University Hebrew Circle luncheon, room 208, Minnesota Union.
 2:30 p. m. Minnesota Dames at home of Mrs. Gamind, 616 11 Ave. S. E. Student wives invited.
 6:30 p. m. Phi Delta Kappa, dinner, room 200, Minnesota Union.
 8:00 p. m. Le Cercle Francaise meeting, Alpha Sigma Phi house, 1110 Fifth St. S. E.
Friday, Oct. 22, 1920
 4:00 p. m. W. S. G. A. Social at Shevlin Hall.

Home Ec Girls to Tell Experiences

An "experience" party will be held Thursday evening in the Home Economics Building on the Ag campus under the auspices of the Home Economics Association.
 Reports will be given by H. E. girls who received practical experience in Home Economics work, such as managing Visiting Nurses' Summer camps, judging, at county fairs, and institution experience in Tea Rooms, and at various summer camps.
 Stunts and eats will be enjoyed after the program.
 All girls are asked to come and a special invitation is extended to freshmen on the campus.

Education Juniors Choose Officers

Election of officers took place at a meeting of the junior class of the College of Education in the College of Education building yesterday morning. Representatives for the student council of the College of Education were also chosen. Chairman M. Haugen of the student council presided over the meeting. The following officers were elected:
 President W. W. Ferguson, vice president, D. Sanders, secretary-treasurer, E. Nelson. The representatives chosen to meet with the student council were D. Barron and Harold Schoelkopf.

Women's Club Supper Dates Announced

The Women's University Club announces the following date for supper meetings to be held in the Shevlin Hall private dining room, unless otherwise stated, Wednesday, October 20; Thursday, October 28; Monday, November 1; Tuesday, November 9; and Wednesday, November 17.

COMMERCE CLUB TO HOLD SMOKER FRIDAY

The Commerce Club will hold its first smoker of the year in the Minnesota Union next Friday evening. This smoker is open to all men in the School of Business and all pre-business men. Mr. D. E. Weigle, secretary of the St. Paul association, will be the speaker of the evening. His topic will be announced later. It is requested that all members of the Commerce Club be present.

METHODIST GIRLS ARE INVITED TO BANQUET

All Methodist girls are invited to a banquet to be given by the Women's Home Missionary Society, in Shevlin Hall, at six o'clock, Saturday, Oct. 23. There will be an interesting program at which some of the National women will speak. The banquet is in charge of Kappa Phi. Tickets can be purchased of Madge Hoffman, P. O. 2372.

NEW LEGION POST SEEKS 1,000 STUDENT MEMBERS

The new post of the American Legion, known as "The University of Wisconsin Post No. 246," which has just been organized at the Badger state university, is launching an active campaign for a membership of at least 1,000 among the soldiers, marines and sailors in the faculty and student body of the university. Former S. A. T. C. men are also eligible for membership.

UNIVERSITY RANKS THIRD IN SUMMER ENROLLMENT

The University of Wisconsin ranks third in summer school attendance among the 26 universities that comprise the association of schools conducting summer session, according to Dean Scott H. Goodnight, director of the summer session. The total number of students at Wisconsin this summer was 3,578—a total which exceeds by over 400 any number enrolled in previous years.
 Columbia University ranked first this year with 9,685 and California second. Ranking after Wisconsin were Michigan, Cornell and Minnesota.

WASHINGTON EDITOR SPEAKS

George Perry Morris, of the editorial staff of the Washington Herald, spoke before the Press club of the University of Wisconsin last week. He was formerly a member of the staff of the New York Mail and Express, the Boston Herald, and the Christian Science Monitor.

"Each man is a hero and an oracle to somebody, and to that person whatever he says has an enhanced value."—Emerson.

Young China Looks Eagerly to America Says Miss Anderson

"You have heard, I am sure, about the way in which the students here are really grappling with political and social conditions," Alice Anderson, Minnesota's representative in China, said in a recent letter received at the Y. W. C. A. office.
 Miss Anderson said that to live in China puts earnestness into young people. At a summer conference in the mountains, intensely practical questions were discussed by Chinese women students. The main theme of the last conference was, "How can we fit ourselves for leadership that we must take? What can we do for China?" Their conferences resemble of Lake Geneva conferences.
 The friendly spirit of the Chinese students is remarkable, according to Miss Anderson. Although she could not speak their language, she did not feel cut off from them for them "simply radiated with friendliness, and their spirit of eagerness was so much like ours in America."
 Miss Anderson lays particular stress on the faith of China in America. In touching upon this point in her last letter, she says:
 "I feel sure you would have the same sense of deep humility that seldom leaves me because of this touching faith in America. It will be a marvelous thing if we can measure up to faith such as they have in us. But it isn't going to be easy."

Seekers Society Hears Talk on Syndicalism

The Seeker Society held a very enthusiastic meeting last evening. Martin Abern talked on "Syndicalism and the Recent Revolutions in Italy." There was the usual period of discussion.
 Membership in the Seeker society is open to all students on the campus. All those interested in social and political progress are urged to attend.

COLLEGE YEAR TOO SHORT

After a survey covering fifteen American colleges, Dean Otis E. Randall of Brown University has discovered that the actual number of days devoted to academic work varies greatly at different institutions and, in his opinion, constitutes too small a part of the calendar year. The average length of the academic year for all institutions of higher learning was found to be 204 days, or not quite seven months. Vacations and holidays are too long, thinks the Dean, who is also of the opinion that if college students devoted less time to extra curricula activities more "work" could be done.

STUDENT BUSY WHILE PURSUING "U" DUTIES

His invention, the aerocar, he made in the hours between 4 a. m. and the time for his regular business to start. It has an engine containing only 40 parts which turns a propeller at the back of the car. It cannot be tipped over through an arrangement of the engine flywheel and the propeller to form a gyroscope. Its speed when used on land is from two to forty miles an hour, but in 20 minutes can be made into an ice car, in which form it can develop a speed of 60 miles an hour. One cent a mile is its cost of operation, and its original cost is approximately \$160.
 Now that he is at school, Reese has had to give up his inventing, but he still follows his habit of getting up at 4 a. m. Even securing extra time in this way will not give him enough for his studies, outside activities, and business, so he has brought his car to the cities with him and uses it to speed up his daily routine.

Sigma Beta Gamma Meets at Luncheon

Sigma Beta Gamma, the girls club of the School of Business, will hold a regular meeting Thursday at 11:30 in the private dining room of Shevlin Hall. All business and pre-business girls are asked to bring their lunch into the dining room.
 Discussion will take place in regard to dues, meeting hour, pins, and other matters relating to the purpose of the club in its relation to campus affairs.

ILLINOIS MILITARY INSTALLS SIGNAL SCHOOL

A complete code-signalling school has been installed in 304 E. E. Laboratory, by Master Sergeant J. S. Lynch. The equipment will accommodate thirty men at a time, each man being provided with a set of telephone receivers controlled by a telegraph key on the instructor's desk.
 A wireless telephone set and a portable wireless telegraph set have been installed in the adjoining room, and, in the near future, two kilowatt transmitter will be installed.

DAD ELLIOT AT THREE MEETINGS HERE

Continued from Page 1.
College Output Greatest Problem
 "I believe that the greatest problem confronting the United States is the problem of the college output in this generation. Many things which could not be avoided in a time of a world war have brought about this present situation. The general let down in standards of morals by all communities during the war, the evil effects of the S. A. T. C. at the universities and colleges of the United States, and the effect of returned soldiers whose minds have gone through a great emotional reaction because of the training and experiences which they had to undergo—all these have had their part in producing the present situation."
 "Dad" Elliot concluded his talk by saying, "The problem of the future output of our American college can only be solved by a spiritual comeback in the colleges themselves. Any college can again regain the firm and solid foundation if the students will but listen to the facts open mindedly."

GOPHER SPORTS

HILL AND DALE TEAM TAKES ON BADGERS NOV. 6

Tight Race Is Expected—Both Teams Are Working Hard in Practice.

WILL BE A GALA DAY AT MINNESOTA

Iowa Meet Will Be Held at Iowa City on Homecoming Day, November 13.

Only a little over two weeks remains before Coach Len Frank's cross country squad tilts the 1920 lid when they meet the Wisconsin Badgers at Minneapolis on November 6.

The team is hard at work every night preparing for the first clash. Captain Ken Moon leads a likely looking outfit along the river bank every afternoon. Hovestrad, Winter, Sweitzer, Leider and Putnam have all gotten the kinks out of their legs, improved their wind and are hitting a fast clip along the five mile course.

Plans have been made to make the dual meet with Wisconsin a bigger affair than ever before. The race will be run in the morning and the finish will be made around the campus so that students on leaving their fourth hour class can see the Gopher men in action and cheer them on to victory.

35 Men on Wisconsin Squad

The Gophers have their work cut out for them if they intend to down the Badger distance runners. Thirty-five men are out for the Wisconsin squad. Coach Bresnahan has been training the men for the Minnesota struggle for weeks and reports state that the men are tearing at the reins to be off over the five mile Minnesota course.

Captain Brothers is the only veteran back at Wisconsin, but from the unusual large and promising number of new men, it may be safely said that the Badgers will have a hard team to down on November 6.

Under the leadership of Coach Carpenter and Captain Kruse the Iowa distance joggers are rapidly being whipped into condition for their jaunt with Minnesota.

Meet on Homecoming Day

The Iowa-Minnesota run will be held at Iowa City on November 13 and is scheduled as one of the headliner events for the Homecoming program. The Hawkeye-Gopher football game will be played on the same day.

Iowa has a dandy looking squad, the best they have had for years. Goodrich, Biersborn and Ristine are all letter men from last fall and Peterman, Dyke and Shope, track distance men, are working out regularly. Over fifty men have been reporting for the daily practice grind.

Try-Outs for Field Hockey to be Held

Class Managers Will Assist Coaches in Selection of Teams.

October 29 has been set as the last day of preliminary practices for field hockey, and all girls wishing to make the class teams which will be chosen on Nov. 3 or 4, will be required to have put in 8 practices by this date. During the last weeks of practices, arrangements will be made to have additional practices on Saturday at the present time.

An innovation is to be made this year in the manner of choice of teams. Heretofore the teams have been chosen by the coaches, without other assistance. This year the plan of permitting the class managers to participate in the appointments of their team mates will be tried out, and is expected to be successful. The teams will be chosen about Nov. 3, and the tournament will begin Nov. 5, according to present plans.

1,400 Former Service Men Attend Wisconsin

At least 1,400 former soldiers, sailors, and marines and nurses are expected to take advantage of Wisconsin's soldier educational bonus law to attend the University of Wisconsin this fall, according to information in the office of the university officer who advises soldier bonus students.

It has been estimated that 15,000 men will take part in some form of athletics this year at Stanford University.

West and South Lead High Football Race

Scoreless Ties Feature Early Season Play—Frank Cleve Is Shining Star

Five scrappy, evenly balanced high school teams are having a merry fight for the Minneapolis city grid-iron championship this fall.

West and South with a victory and a tie apiece have a slight edge on the other schools at present. North high has played only one game to date which resulted in a tie. Central ranks fourth with a loss and a tie, while East high is hanging gamely onto the lower rung of the ladder with one defeat against them.

Scoreless ties seem to be quite the rage this year. Last Friday South and West battled throughout the four quarters with neither being able to put the oval across, while on another field North and Central staged a similar struggle.

North Has Edge

In giving the five teams the once over, North seems to have a little the edge though they did not have the necessary punch to score on Central last week. Coach Kennedy's Northerners miss several veterans of last year's squad, but the Blue and White mentor has molded out a speedy, fighting team that will make a grand fight for the title. Mason and Seagren starred against Central behind the line while Cheese and Captain Leavitt held the Red and Blue gainless around the ends.

West has a heavy line, a speedy hard-hitting backfield, a shining star in George Matchan, and two dandy ends. The Green and White is far advanced in team play and is improving as the weeks go by. Against South, West forced the play throughout and as a team outplayed their rivals.

South Has "One Man" Team

South has a "one man" team. Frank Cleve, captain and fullback, is unquestionably head and shoulders above any man in the Minneapolis schools this year, unless it is Matchan of West.

The Southerners showed real power against Central, but fell down in their battle with West, though they were conceded the edge before the game.

Central will feel the loss of veterans before the season is far spent. Hale, the best back on the team has passed the age limit and will not get in any more games. The Red and Blue line with the exception of Captain Hall is very mediocre, while the backfield has still a couple good men in Norton and Ballentine.

East lacks weight, but makes up for this missing quality in their game-ness and fight. Coach Bob Stevenson has developed a "never say die" outfit who play low, hit hard and tackle with the best of them. The eleven misses Peter Guzy, star quarter, who was hurt in the West game and is now placing their main hopes in Captain Almquist.

The standings for the first two weeks play follow:

	G	W	L	T	Per.
West	2	1	0	1	1.000
South	2	1	0	1	1.000
North	1	0	0	1	.000
Central	2	0	1	1	.000
East	1	0	1	0	.000

NEW FOOTBALL TROPHY FOR BEST 1920 TACKLER

The best tackler on the 1920 varsity football team at the University of Wisconsin will receive a handsome trophy to be awarded by Prof. A. S. Pearce, of the zoology department of the University. Professor Pearce is offering the trophy with the condition that the winner must be a man who "sticks throughout the season."

Director T. E. Jones, of the athletic department, has selected as a committee of judges to pick the star tackler, Prof. J. F. A. Pyre, and Prof. Warner Taylor, and Capt. J. S. Wood, professor of military science and tactics. This committee will watch the squad at the various games.

First Woman Student at Harvard

The first woman ever registered as a student of Harvard is Miss Ada Neild of the University of London, England. The English woman registered yesterday for a course in the new graduate school of education.

Some of the boys who have trouble in starting their machines these mornings may have to build a fire under said cars in zero weather.

Men's Net Tourney Gets Going Today

Forty Tennis Artists Lined Up for Fall Competition—First Round Off By Friday.

The fall tennis tournament is scheduled to start with a bang this afternoon on the university courts. Forty of the foremost racquet swingers in the university have annexed their signatures to the entry list and competition of the keenest variety is expected.

"Chet" Bros is doped by local followers of the net sport to make a good showing, if he can continue the excellent brand of tennis he has been demonstrating in the city park tourneys this summer.

Williams and Haglin, former West High luminaries, are also predicted to advance to the semi-final round. Another man who is to be feared is Holtzman, who has shown up well in the section tournaments lately.

Dark Horses Considered

There is always a goodly number of dark horses who have to be considered and the dope as to who are likely to emerge on the summit of the pile is very uncertain.

The post office and telephone numbers of all the entrants may be obtained at the athletic office. The first round contests must be completed by Friday or the match will be forfeited. The second round matches must be played off by next Tuesday and the third by a week from Friday. In case of rain dates will be advanced as much as necessary.

The drawings follow:

Bros, C. vs. Goldstein, Kelly vs. Brunner, Little vs. Eddy, Nygaard vs. Morse, Kehrer vs. Jernstrom, Kwong vs. Haglin, Ernst vs. Amidon, Hopkins vs. Williams, Fenger vs. Hoel, Sims vs. Holtzman, Treleaven vs. Nelson, Emery vs. Williams, Randall vs. Bowers, Mills vs. Sung Kohsiang, Peterson vs. Stomberg, Peck vs. Curtin, Levin vs. Steinberg, Bartlett vs. Hagey, Knapp vs. Walker, Nordstrom vs. Johnson.

Iowa Homecoming On November 12-13

Minnesota Football Game Will Be Chief Attraction at University This Year.

Homecoming at the University of Iowa for all alumni and former students will be held this year on November 12 and 13. Prof. F. C. Ensign, secretary of the University of Iowa Association, has been named chairman of the Homecoming committee by President Walter A. Jesup and is arranging his sub-committees which will work to make the occasion bigger and more attractive than ever.

As in other years a big football game will be the Homecoming attraction on Saturday, November 13. Minnesota has been scheduled to play the Hawkeyes in the final home game of the season, and the annual battle between the Gophers and the Old Gold gives every indication of being the best in many years.

Iowa has defeated Minnesota in football for two years in succession and it is the Gopher boast that no university in the conference has ever downed them three times consecutively. Iowa, after losing to Williams eleven for many years, now has the upper hand. The Old Gold machine this year looks to be the best in many seasons, and the Hawkeyes will fight hard to break Minnesota's tradition and defeat the Gophers for the third time. With the advantage of playing the game on Iowa field Coach Jones' athletes will probably start as favorites when the teams line up. It is not possible that the championship of the Big Ten will hinge on the Iowa-Minnesota game.

A big dinner for students and alumni on Friday evening will be part of the Homecoming program November 12. Details of the dinner remain to be worked out, however.

Chinese Students Hold Interesting Meetings

The Chinese Students' Alliance in America held three interesting sectional meetings in the late summer. The western section meet at the University of California, the mid-western section at the University of Michigan, and the eastern at Princeton. A total of 500 Chinese students attended these conferences and took part in both Chinese and English in debates and oratorical contests.

Wisconsin Plans Big Homecoming Program

Alumni, faculty and students of Wisconsin University, have subscribed a total of \$254,000 towards their proposed Memorial Union building. About \$91,000 of the university quota of \$100,000 has been subscribed and the rest will be raised by university mixers and musical concerts. Many industrial concerns and individuals having no more than a friendly interest in the university have subscribed to the fund.

The committee in charge is confident of raising the \$100,000, which is the mark set, as only 1,860 of the 14,000 alumni have subscribed so far. A big drive is now being planned which will be conducted in Chicago, Milwaukee and Dane county.

There isn't a student that does not realize how easy it is the night before to get up early the next morning.—Daily Kansan.

Society Brand Clothes

FOR YOUNG MEN AND MEN WHO STAY YOUNG

Style rules us all

We may pretend indifference to style, but after all we feel comfortable when our clothes are in style, and a trifle self-conscious when they are not.

This change is welcomed by every college man. He likes comfort with his style; and another thing—here is a coat that will not be noticeably passé next year.

There are seasons of extremes and seasons of conservative styles. This is the year of easy, graceful lines rather than the form-fitting, militaristic models of last season. The waist line is lower—the vent is shorter—the coats hang freely from the shoulder.

You are sure of quality, of all-wool fabric and fine tailoring—you are confident of full value, and you have the endorsement of the greatest style authority in America when you invest in a suit of Society Brand Clothes.
