MANAHAN WILL ADDRESS CLEANER POLITICS CLUB

First Meeting of New Society Will be Held Monday Evening—Membership Open.

Mr. James Manahan, a prominent Twin City attorney, will address the cleaner politics organization at its initial meeting, Monday eve., May 3, in Library 13, at 8 P. M.

"The Law and the Layman" will be the subject of Mr. Manahan's talk. It will be a discussion of the relation and influence of government to the everyday phases of life.

After the address, a permanent organization will be effected and a name for the club chosen. A constitution has been drawn up by a committee consisting of Harold Hull, chairman, Gordon Grimes, M. N. Olson, Wm. Bethke, John F. Sinclair, L. L. Bulen, C. A. Anderson, A. S. Dowdall, F. R. Johnson and L. Turnbull.

According to the constitution, the aim of the club will be to bring the best speakers obtainable to the University and to co-operate with the Minneapolis Saturday Night Club in cleaning up the political situation in Minnesota.

So far 31 charter members have been secured. Meetings will be held every Monday night, hereafter. Every man in college is eligible to join, the club being strictly non-partizan in nature.

GERMAN PLAYS IN ST. PAUL

Will be presented by a Milwaukee Company—German Students Urged to Attend.

A series of German plays will be given in Mozart Hall, St. Paul, next week, by the Milwaukee German Theatrical Company. The company is one of exceptional excellence, the entire cast being made up of people well trained for their parts.

Next Sunday, May 2nd, "Folks Stuck," a popular comedy, is to be played, May 4th, "Die Versunkene Glocke;" May 6th, "The Harvest," and May 9th, "Ash Wednesday," will be presented. No German student should miss seeing at least one of these.

Tickets range from 25c. to \$1.00.

FORTY-TWO CASES TREATED AT THE NEW U. HOSPITAL

Present Capacity to be Increased by the Use of Three More Buildings—24, the Present Limit.

Forty-two cases, medical and surgical, have been treated at the University hospital since the first patient entered on March 22. Up to date, 23 operations have been performed here by some of the best surgeons in the city, and at present there are eighteen patients being treated.

The capacity of the hospital is 24 but three other buildings have been obtained which will be turned into hospitals by next fall, when it is expected that seventy-five beds will be ready.

To the few that can be accommodated, the highest quality of service that can be offered at any of the large hospitals, is extended. The laboratory is small but so arranged that all records are carefully kept, and what cannot be carried out there is taken to the Pathological laboratory on the campus.

All the furnishings, which have been put in, are the latest and best that can be procured and are such that they can be transferred to the new Elliot hospital.

REGENTS MEET THURSDAY

Will Consider Establishing a Course in Journalism Among Other Matters.

It is expected that at the meeting of the Board of Regents next Thursday evening, the committee on science, literature and art will report the matter of a course in journalism favorably to the Board. The majority of the members seem to favor the course and it has more than an even chance of passing.

The meeting Thursday night promises to be one of the busiest of the year. Plans will be discussed for the expenditure of the \$350,000 which the recent legislature has granted the University. Four new structures—a girls' dormitory, medical and engineering buildings, and a new hospital—are to be erected and the locations for them will be decided upon. A recommendation will be made by Dean Comstock, to have the dormitory placed on the ground northeast of the campus, at the intersection of University and Eleventh Aves. S. E. No suggestions in regard to the other buildings have, as yet, been made.

It is expected that Dean Jones will hand in his formal resignation, as he goes to Yale next year. A committee will then be appointed to consider his successor. The faculty already have one man in mind. He is said to be a prominent educator in a large university of the middle west.

LAST PINAFORE VAUDEVILLE.

Pinafore will have a spread in Shevlin Hall, May 6th. After the spread there will be a vaudeville show which will be the last vaudeville of the season. Tickets will be twenty-five cents and will be on sale to-day, Monday and Tuesday, at third and fourth hours, in the Library and in Folwell Hall.

MRS. KELLEY ENCOURAGES USE OF THE WHITE LABEL

Addresses Large Audience On The Child Labor Question. Co-eds To Help The League.

Mrs. Florence Kelley of New York spoke on Child Labor yesterday afternoon to a large and interested audience. Mrs. Kelley is the general secretary of the National Consumers League and for the last twenty-five years she has been engaged in the effort of uplifting the laboring class.

Mrs. Kelley is especially interested in encouraging trade unions and the use of the white labels which are given out by the National Consumers League. These labels are given to all manufacturing establishments which employ no children sixteen years of age, which have no work done at night in their factories and which give out no work to be done at night.

The League has been greatly helped by the students of Smith and Wellesley colleges, who have patronized stores handling white label goods. Mrs. Kelley asked Minnesota students to do the same.

"DEN STUNDESLOSE" WILL BE PRESENTED NEXT THURSDAY

Arnold Lien has Title Role.—Will be Played in Norwegian—Orchestra to Tune up.

"Den Stundeslose," a Norwegian comedy, by Ludwig Holberg, will be presented by the Norwegian Club in the University chapel, Tuesday evening, May 4th. The play will be given in the Norwegian language, and will be played with the old traditional scenery and stage business, descended from the time the play was written, in 1723.

Ludwig Holberg is the greatest Teutonic author outside of Shakespeare, and from that and from the fact that Prof. Dahl, the coach, is an old actor from the Theatre at Christiania, the play will be of great interest to the Scandinavians in the Twin Cities. The University orchestra will play. Tickets may be obtained from the University Book Store, at 35c.

The cast of characters will be as follows:—Vielgeachrey, den Stundeslose, Arnold Lien; Pernille, hans Pige Jfr. Ruth Pingared; Leonora, hans Gotter, Jfr. FORESTRY CLUB BANQUETS.

Fifty members of the Forestry Club were present at the second annual banquet held at the Nicollet Hotel last evening. Prof. E. M. Freeman acted as toastmaster and toasts were responded to by Prof. Green, Prof. D. Lange of St. Paul, Prof. Stewart, Prof. Clements and several of the club members. The banquet was given as a send off to the junior foresters, who leave for Itasca Park next Tuesday morning, where they begin their four months course in practical forestry. The following juniors take the trip; Norman Baker, Carl Hamilton, Chas. Lewis, Arnold Benson, Bert Berry, Herman Krauch, Donald Brewster, Clarence Bowen, Clarence Underwood, and Robert Deering.

MAY HA-HA OUT WEDNESDAY

Co-ed Number is Doped to be the Best of the Year—Shevlin Cat Featured.

With a bewitchingly pretty girl pecking out of a green cover, the co-ed Minne-Ha-Ha!, coming out Wednesday, inaugurates a very novel cover design at Minnesota. Inside this attractive exterior, we find a learned and somewhat facetious discussion on the "Psychology of Men's Clothes." The Shevlin Hall cat also receives attention, as do many other things and "its" in Co-ed domain.

There will be more pages in the May number than has been the rule since the December number, and these will contain more illustrations than have ever been run before. These are all excellent, and are the work of Helen McIvor, Marion Carling, Merle Higley, and Louise Strong. The two page cartoon by Helen McIvor is entitled "In Spring the Young Man's Fancy Slightly Turns to Thots of Love." It is the best two page that has ever appeared in Minne-Ha-Ha!

Numberless jokes fill up the corners of the issue. It has been the ambition of the co-eds to get out the very best issue of Minne-Ha-Ha! that has appeared yet. Owing to the increased number of pages, and the increase in the engraving bill, the price of the May number will be fifteen cents except to subscribers.

Subconsciousness In Clothes

Is the aim of thinking men everywhere. A certain intellectual poise—a mental erectness—belongs only to the man who dresses himself responsibly from "lid" to "lingerie" and then files away the knowledge in his cerebellum. Much low thinking has been directly caused by the annoyance of faulty garters. We have entered upon a new era in this department of masculine accoutrement.

Thinking Men

have evolved a perfect garter—the only one shaped and fitted to meet Nature's model of the leg masculine. Furthermore this garter has no metal parts that can come next the wearer.

This means freedom from wear, wounds and worry. This ethical sock supporter is known as the

The makers insure the enthusiastic satisfaction of every wearer with a money-back guarantee. If your outfitter is of "the elect" he's sure to have Paris Garters. Otherwise you can supply yourself by writing the makers and enclosing twenty-five cents for the mercerized quality, or fifty cents for a de luxe edition in silk. At The Theaters

Bijou.

Beginning Sunday, promptly at twelve o'clock noon, the Bijou will make a unique departure, when it will inaugurate its spring and summer season of moving pictures, vaudeville and illustrated songs. Perhaps the most astonishing part of this announcement is that the admission price will be only ten cents, certainly the most phenomenally low admission charge ever made in the history of local amusements for a high grade entertainment. This admission price will extend to all parts of the theatre excepting the boxes, which will be 25 cents. It is the intention to open at twelve o'clock every day and run without interruption until eleven o'clock at night. A decided innovation, which will be introduced for the first time in the northwest, will be the changing of the picture films every day. These will be the best creations of the European and American manufacturers, and it is designed to show pictures which will appeal to the ladies and children. The celebrated Morris Agency, which was instrumental in bringing to this country Harry Lauder and other European stars, will furnish the vaudeville numbers, which fact is a guarantee that high-grade, classy acts will be shown. Besides the pictures and three numbers of vaudeville, which will be changed twice a week, the latest and catchiest illustrated songs will be sung by Miss Edna Randall, late of the Miles. The fact that such a fund of entertainment will be given at the ridiculously low price of ten cents should prove a bargain offer in local theatrics, that will undoubtedly revolutionize things, and create a well beaten path of enthusiastic patrons to the box office of the Bijou, during the summer months.

Congressman Stevens Writes That Privilege is Sure to be Obtained.

The University is practically assured of a concession of power privileges, valued at \$50,000 a year, in a communication from Congressman F. C. Stevens to Professor B. F. Croot of the college of mines. Mr. Stevens writes that the privilege can most likely be obtained without legislation by congress.

The power, which will generate electricity that can be put to valuable use, will come from the lower government dam. It will probably mean the establishment of a state plant for the manufacture of a fertilizer at the Agricultural college, and may mean free lighting and heating for the entire institution. ENGINEERS MAKE EXHAUSTIVE TEST.

Gigantic Engine given a Twenty-Four Hour Trial.

In order to ascertain the efficiency of the gigantic engine in use in the engineering college, one of the most exhaustive tests in the history of the University was accomplished yesterday.

For twenty four hours the machinery was kept in motion. The work began at 7:30 A. M. Tuesday and continued until the same hour yesterday morning. The amount of oil consumed and the net power of the engine were calculated and the figures tabulated. The students were divided into three relays, and each relay worked steadily for eight hours.

One result of the test is that much important data was collected. This data will be used in thesis work which the engineers must hand in before the close of the present semester.

According to those who supervised the test, the machinery was found to be O. K. in all particulars.

GERMAN STUDENTS NOTICE.
