NOTICE TO STAFF

Any faculty member who has received an advanced degree or honorary degree from any institution other than the University of Minnesota during the past year, is requested to furnish the president's office with the following information:

1. Name of degree.
2. Name of institution granting degree.
3. Date when degree was granted.

AVAILABILITY OF TAX SAVINGS NOTES

Members of the University staff, along with all other citizens, are inevitably going to feel the pinch that comes with payment of federal income taxes for 1943. Sound family budgeting calls for providing now to meet the future payments. I am therefore calling the attention of the staff to the Treasury Department's Tax Savings Notes which make it possible for individuals to plan ahead for the payments they will be called upon to make later.

The issuance by the Treasury Department of Treasury Tax Savings Notes serves a threefold purpose. In the first place, these notes serve as a valuable anti-inflation instrument inasmuch as they sterilize consumer purchasing power. In the second place, the purchase by an individual taxpayer of Treasury Tax Savings Notes, in effect, constitutes a prepayment of income taxes and makes purchasing power immediately available to the federal government. In the third place, the use of Treasury Tax Savings Notes enables an individual to anticipate his income tax and budget the payment over a period of time.

United States Treasury Notes, Tax Series "A"-1944, are available in denominations of \$25.00; \$50.00; \$100.00; and \$1,000.00. United States Treasury Notes, Tax Series "B"-1944, are available in denominations of \$10.00; \$50.00; \$1,000.00 and higher. Tax Series "A" is adapted primarily for individuals, and Tax Series "B" is designed principally for corporations. The purchase price is determined by the month in which the notes are purchased, and the redemption value of the notes presented in payment of income taxes is determined by the month in which presentation is made. For example, a \$25.00 Treasury Tax Savings Note, Tax Series "A"-1944, will cost \$25.20 in June, 1942, and will be worth \$25.68 in June, 1943, or \$25.96 in January, 1944. These notes are interest bearing only when used to pay Federal Income taxes. Any surplus is redeemable at par without interest. Application blanks may be obtained at any commercial bank and transmitted through that institution to the local Federal Reserve Bank which will then issue the notes in registered form. The use of these notes is recommended.

Further information may be obtained at any bank, or by calling the Comptroller's office.

W. C. Coffey, President

NOTICE TO DEANS AND DEPARTMENT HEADS

From June 16 to September 15 the office hours will be from 8 a.m. to 4:30 p.m. with 1 hour for lunch. If possible it is suggested that the lunch hours of the various members of the office forces be so staggered as to make someone available at all times between 8 a.m. and 4:30 p.m. If the office must be closed for the lunch hour, this should be from noon to 1 p.m.

W. C. Coffey, President

IMPORTANT NOTICE TO FEDERAL STUDENTS

Special attention is called to the final short payroll period which ends on June 4. All payroll cards must be turned in not later than Friday noon, June 5. Students from outside the Twin Cities who leave the campus before Thursday, June 11, should leave a forwarding address on the payroll card.

Those students who find their paychecks short by \$5 will please call at the Federal Projects window with their identification sheets to receive payment.

All state supplements should be called for promptly. Students paying their tuition and fees in installments must make their final payment on or before Wednesday, June 3.

E. G. Williamson, Dean of Students

NOTICE TO STUDENTS CONCERNING INDUCTION BY SELECTIVE SERVICE DURING THE SUMMER MONTHS

Selective Service regulations require that students deferred for training in scarcity occupations shall give clear indication of their intent to return to school next fall to complete their training program. Obviously the clearest evidence of such intent is registration in summer school, and, secondly, sum-

mer employment in work which is directly and unequivocally related to their training. Such information must be filed with the dean of the college if students' deferment status is scheduled for review by the board this summer, that is, if the period of present deferment closes during the summer. Students must take responsibility for filing this information and requesting a renewal of deferment.

Students not registered in deferrable curricula may request postponement of induction to the end of the current summer term at the beginning or during that term. Postponement cannot ordinarily be requested until the summer term is under way.

Those students who are not in deferred occupational training groups are urged to notify the dean of their college and the local board of their summer plans and their summer address.

Questions concerning deferment or postponement should be raised with the dean of the college as soon as the student has received his questionnaire or has received notice of his classification. Delay in taking this action may result in immediate induction.

E. G. Williamson, Dean of Students

NOTICE TO SENIORS

Candidates for degrees on June thirteenth may obtain commencement invitations and tickets at their college windows, Office of Admissions and Records. The number of invitations issued free to each senior is ten, but any reasonable number of tickets may be secured upon request.

*Ninth hour TTh	Friday, June 5	4:00-6:00

* Including classes at this hour meeting 4 and 5 days a week.

Classes meeting 2, 3, or more hours a day are expected to use the period assigned for the first hour at which the class meets. The period for the second hour that the class meets may also be used if desired. Classes meeting four or more days per week shall be examined at the time set for Monday, Wednesday, Friday classes.

Conflict in examinations should be referred to the schedule committee of the college concerned.

Attention is called to the fact that while the final examination schedule lists examination periods for Monday, Wednesday, Friday classes and for Tuesday, Thursday, Saturday classes, it is intended that classes meeting four or more days per week shall be examined at the time set for Monday, Wednesday, Friday classes.

For example: A class meeting first hour on Monday, Tuesday, Wednesday, Thursday and Friday should report for final examination on Wednesday, June 10, 9:00-12:00 at the time scheduled for the first hour Monday, Wednesday, Friday classes.

All instructors are asked to observe this principle in order to avoid concentration of examinations and conflicts.

Leona Nelson, Acting Recorder

COMBINED CLASS SCHEDULES

Combined class schedule bulletins will be in the P. O. boxes Friday, June 5, of students in residence spring quarter in the College of Science, Literature, and the Arts, College of Education, School of Business Administration, University College, and Public Health Nursing. Copies will be issued in the fall to new students entering these colleges as part of the registration procedure. Students in other colleges may use reference copies available at the information window, office of admissions and records. Additional copies may be purchased at the Engineering book store.

Students should obtain their copies of the Combined Class Schedule and keep them for reference throughout the coming year.

INSTITUTE OF TECHNOLOGY

Acceleration Program

Registration for accelerated courses this summer in the Institute of Technology will continue through June 16. It is very desirable that the enrollment should proceed as rapidly as possible and reach a total of twice the present number. Especially next year's sophomores and juniors are urged to give this their prompt attention since they have more to gain by acceleration than the upper classmen.

In order to continue acceleration beyond this summer, it is necessary that there be a minimum registration of about 30 in each of the two lower classes in each department.
