DULUTH--A 1958 Swedish film directed by Ingmar Bergman entitled "The Brink of Life" will be shown at 8 p.m. Friday (Feb.2) in the UMD Science Auditorium as the second offering in the university Film Society series.

The picture was one of the first to bring Bergman world acclaim. This emotional and highly dramatic study of three women in a maternity hospital brought Best Director and Best Actress awards at the Cannes Film Festival.

Season tickets for the series of 10 films, priced at \$4, will continue to be sold at the auditorium door.
