Nixon has one big problem, us. Every time he starts up a campaign of lies, we tell the truth; Every time he escalates the war, we answer, 'OUT NOW!'

This spring the power of the student movement will be more crucial than ever before. In order to plan our most effective strategy, we need to meet together to compare our experiences and decide on a course of action. The Student Mobilization Committee is sponsoring a National Student Antiwar Conference to be held in New York, Feb. 25-27. The conference is open to all young people who want to end the war. Every person has voice and vote. Add your voice. Be there!
