"THIEU'S POLITICAL PRISONERS"

Our government still supports a dictatorship whose brutality is beyond words.

The worldwide problem of foreign-supported dictatorships is nowhere more extreme than South Vietnam. We are the foreign-supporters: American taxpayers contribute 90 percent of General Thieu's budget.

No other government in the world has thrown nearly as many of its citizens in prison for political reasons: an estimated 200,000. If our government jailed an equal proportion of our people 2,000,000 Americans would now be in prison for their political views.
