

# THE MINNESOTA DAILY

Vol. VI.

THE UNIVERSITY OF MINNESOTA, SATURDAY, MARCH 4, 1905.

No. 108

## SOPHOMORE PARTY TO BE A WHOPPER

EVERYBODY HAS BEEN INVITED TO THE GREAT EVENT.

Freshmen will be there, Sophomores to turn out en masse, Juniors will forget troubles, and Seniors will take care of them all.

The Sophomore class party which comes off Monday night, promises to be a real success. The committee in charge have been hard at work during the last few weeks getting everything ready.

### Decorations.

The Armory will be decorated in the class colors, green and white. Music will be furnished from the latest operas by Rossiter's Orchestra, and dancing will begin promptly at 8:30, and continue until 12:00.

A musical program will be given, however, from 8:00 until 8:30.

Frappe will be served during the evening, and there will be plenty of it. The party will not be restricted to the Sophomore class, but is open to even the Freshmen, who have been up in the air with a fear lest they should not be allowed.

### No Harm to Freshies.

Their elders will see that no one harms them; so they may come and enjoy themselves with the others.

Tickets, which are \$1.00, may be procured from any member of the committee who are, Florence Hoffman, Harold Griggs, Madge Bogart, Grace Weltzel, and Dan Smith. Tickets are also on sale at the Corner Book Store.

## WEST POINT NOT ON THE SCHEDULE

SOLDIERS WILL NOT PLAY US AT FOOTBALL NEXT YEAR.

Rumor to the effect that a game had been scheduled with West Point Cadets is unfounded—Prexy would not have team go east.

There will be no game with West Point next fall as has been rumored.

Correspondence has been going on between the two colleges, but no definite arrangements could be agreed upon.

President Northrop said, "I do not believe there is enough to be gained to warrant the trip being taken. It would take the boys from their studies for some time and would break up their work to a great degree."

### BRYAN LECTURE.

Percentage of receipts goes to monument fund.

Tickets for the Bryan lecture can be obtained at the University Book Store, at the registrar's office, and of Prof. A. E. Haynes, at \$1.00 each.

One-third of the proceeds of tickets sold at these places goes to the soldiers' memorial fund.

### YOU ARE INVITED.

The Minnesota Academy of Science will meet Tuesday, March 7th, at 8:00 p. m., in the Director's Room of the Public Library.

Subjects of interest will be discussed and all are cordially invited.

### NOTICE.

There will be a meeting of the heads of all departments of the Circus today at 3 o'clock.

### TENNIS MEET.

Annual Election of Officers Takes Place.—Good Prospects.

The Tennis Club met yesterday in Dr. McClumpha's room before the 4th hour.

Vice-president Werner called for the treasurer's report, which showed a deficit of \$32.65 from last year.

In the election of officers following, Mr. Payne was elected president, Wm. Rhodes, vice-president; C. K. Michener, secretary; Wm. Dawson, Treasurer and Erick Schrader, manager.

### UNION MISSION TONIGHT.

Tonight the Y. M. C. A. will again assist in the services at the Union City Mission down town. The general secretary will conduct the training class from 7 to 8 in the St. James Hotel.

## RECORDS WILL BE BROKEN BY GIRLS

TRACK MEET TO BE HELD LAST WEEK IN MARCH.

Trials of physical powers will put the basketball tournament in the shade.—It will be a regular class struggle for premier honors.

The most strenuous work has already been begun for the big Girls' Field Day. Every athletically inclined maiden in college is spending all her spare minutes, training in the Armory.

### Girls Work Hard.

Some are making brave attempts to master the gentle art of hurdling. A few are manfully trying to put the shot.

Sprinting has become a favorite pastime for great numbers, who hope to take part in the 50- or 100-yard dashes. Much interest is also being shown in the preparation for the relay races.

### Will Play Ricochet.

The exciting new game of ricochet played by the teams of all four classes will be one of the features of the meet, among the four different classes separately, and the winners from each class will then contest in the finals.

The Field Day will take place in the University Armory during the last week of March.

### GIRL WRITES BACK.

Valley City, S. D.

March 2, 1905.

Here we are after a dandy trip and we are having a fine time "seeing the town." The people are simply fine to us and are treating us great—a drive over the town this P. M., dance tonight, and reception tomorrow. But I must not get ahead of my account.

Thursday morning we reached Fargo at about 6:30 where we stopped over and were entertained for breakfast at the "Waldorf" by Mr. Dunn, Isabel Dunn's father. We spent about an hour there, and boarded the train at 7:30 for Valley City and arrived here at 9:30. We were taken at once to the Hotel Kindred, where we have very nice rooms. After practice at two, we are to be driven over the city. Tonight, the game! And after that a big dance has been planned by the H. S. students, which we have learned is to be the swell affair of the season here.

Tomorrow morning a reception is to be given by the entire school. So you see a fine time is in store for us, and we certainly have enjoyed every minute of the trip.

Must hurry to the Armory now for practice. Here's to the game and the Valley City H. S.!

B. B. Girl.

## CHICAGO TEAM TO BE HERE TONIGHT

WE WILL PLAY CHICAGO IN THE ARMORY TONIGHT.

They beat us on the recent trip, but boys claim that they will turn the tables tonight.—Several men will play last game.

Tonight the last game of the basketball season will be played in the Armory when the Minnesota and Chicago teams line up against each other. The team has had time to recuperate after the arduous trip east, and has been practicing hard all the week and will be in condition to play the best game of the season.

### Their Last Game.

It will be the last chance to see Captain Tuck, Hugh Leach, Pierce and possibly Varco in a Minnesota uniform so a large crowd will undoubtedly be present.

Chicago has an eastern coach who has drilled the team with a combination of the eastern and western methods and has developed a very fast team; in fact, they defeated the Gophers at Chicago by a score of 25 to 23.

### On Their Own Floor.

The fact that the Gophers play on their own floor before the eyes of their own schoolmates will offset this advantage to a great extent.

The lineup will probably be the same as that of the Chicago game.

### The Line-Up.

Chicago—McKers, right forward; Ozame, left forward; Brown, center; Owens, right guard; Hunt, left guard. Minnesota—McRae, right forward; Pierce, left forward; Tuck, center; Kiefer, right guard; Leach, left guard. Potter's Orchestra will play for an informal of fifteen numbers after the game.

## BASKET BALL GALLORE ON TUESDAY

The Men's Basketball Tournament, which is to come off Tuesday, March 7th, at the Armory, promises to be one of the most important indoor athletic contests of the year.

The games will be played by teams representing the four academic classes, the departments, and the faculty. In the afternoon the academic championship will be decided and the winning team will represent that department in competing with the Laws, Engineers, Medics and Faculty for the championship of the University.

So far, teams have been organized by the Sophomore and Freshman Academics, Laws, Engineers and Faculty.

As the various classes and departments select their teams, they are requested to report to Mr. Coffin at Dr. Cooke's office. No admission will be charged.

### GIRLS WIN.

The girls' basket ball quint defeated the Valley City team by a score of 41 to 20 Thursday night in Valley City, S. D.

### U. C. A. MEETING.

Frederick L. McGhee of St. Paul will address the University Catholic Association Sunday, March 5th, at 4 o'clock in room 11 of the Library on the subject, "The Influence of Religion on the People." All are welcome.

### BIGELOW TO SPEAK.

Will Address U. L. A. Audience in Library Tonight.

Herbert S. Bigelow of Cincinnati will address the U. L. A. Saturday evening on "Free Soil and Free Men." The lecture will be given in Dr. McClumpha's room.

Mr. Bigelow is a speaker of rare ability and unaffected eloquence. From the work and experiences of his life he is well fitted to discuss his subject.

### "A STRENUOUS FELLOWSHIP."

The topic for the men's Sunday meeting at the Y. M. C. A. is "A Strenuous Fellowship." These meetings are increasing in interest and intensity and are proving to be of great value to the men.

## ENGINEER FRESHMAN IS REFORMER

FRESHMAN TAKES A KNOCK AT THE BOARD OF CONTROL.

He describes the rotten conditions which exist in the attic of the Mechanic Arts Palace.—Other schools have better accommodations.

Editor Daily:—

I offer you a suggestion which will help along the reform which the Daily has taken up in laying bare the treatment of the University by the state.

The entire class of Freshman Engineers would be highly elated if some member of the Daily staff would visit their drawing room in the attic of the Mechanic Arts building, and publish a complete and accurate description of the room, furniture and equipment, and also a description of what the room and equipment should be.

### At Other Universities.

The writer has just been talking to two Freshmen, one from the University of Maine, the other from the University of Wisconsin. Each one tells of large, factory-made desks about four times the size of ours, stools to sit on and room wherein to put one's knees if he has a stool.

### This is the Contrast.

In contrast to this, Minnesota Freshmen have to stand at their work for from two to four hours periods and draw upon home-made pine boxes as crude and whittled and scarred as the school furniture of our great grandfathers, about which we used to read.

### Freshmen Engineers Work.

The Freshman Engineer spends thirty-five or thirty-seven hours a week in class. All but eleven hours of this time is spent on his feet. If he works for his board, it means twenty-one hours more of standing up.

Enough tools in the poverty-stricken qualitative laboratory, and sitting possibilities in the garret of the Mechanic Arts Palace would do much to quicken the drowsy eyes of the poor Freshman by the time he gets ready to attack the grim battlements of his mathematics in the evening.

This situation, coupled with some other economic facts which it might not do to print makes a Freshman Engineer look with longing at the comfort and sympathy lavished on the lunatics and reformers of the state asylums and reformatories. It certainly does create a longing in a student to attend some university where the administration does not try to save money at the expense of his blood and bones and his education.

Respectfully,

G. C. B., Eng. '08.

## ALUMNI GET AID OF THE STUDENTS

STUDENTS WILL EDUCATE THE LEGISLATURE OF MINNESOTA.

After listening to stirring addresses yesterday in chapel, resolutions were adopted to combine the efforts of the student body.

The alumni Association and the student body in mass-meeting yesterday, emphatically and in unmistakable terms gave expression to their views upon the Board of Control issue. The dominant note of the whole proceeding was "Alma Mater, her prosperity and advancement."

Those in a position to understand the University needs have candidly pointed out the evils of the present system of administration and called upon all students and citizens who have the interests of the University at heart, to demand that a change be made to the old, successful method of government.

### Professor Nachtrieb Presides.

Prof. Nachtrieb, president of the Association, called the meeting to order and by way of introducing the discussion read parts of the memorial to the legislature which was adopted at the Annual Meeting on February 11th. Prof. Nachtrieb spoke in a simple earnest way which immediately roused enthusiasm to a high pitch.

The first speaker introduced was Fred B. Snyder, one of the University's eminent sons. He gave the his

(Continued on 4th page.)

## LEAGUE HAS BILL IN LEGISLATURE

BILL INTRODUCED IN LEGISLATURE FOR A \$50,000 APPROPRIATION.

Woman's League Wants that amount to Build a Building on the Campus—Petitions will be Sent to the State Law Makers.

Rep. O'Laughlin has introduced in the house a bill for the appropriation of \$50,000 to construct a Woman's Building at the University. The House has referred the bill to the committee on appropriations. It is hoped that it will be hurried thru and brought up in the Senate in two or three weeks at least.

The friends and advocates of the bill are bringing as much pressure to bear upon the committee as possible. They are planning to circulate among the students a petition which it is hoped every student will sign—boys as well as girls.

When the bill comes up before the committee the petition will be unrolled and the weight of several thousand names ought to be of some importance to the legislature.

### ANOTHER GIFT.

A. F. Pillsbury Gives \$100 to the Debating Fund.

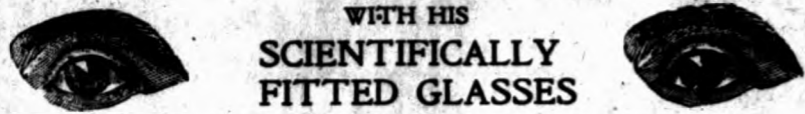

The Pillsburys never forget the University. Mr. A. F. Pillsbury has just given a check for \$100 to the Debating Fund. This is a most encouraging fact to Prof. Sanford, as she has had to pay \$450 out of her own resources thus far this year.

Today's issue edited by  
J. L. Engdahl.

**SHOULD HEAR BRYAN.**

William Jennings Bryan needs no introduction to any portion of the American public, nor should it be necessary to urge the students of this University to take advantage of the opportunity to here him next Saturday evening.

We do, however, wish to call the attention of our readers to the fact that one-third of the money paid to Prof. Haynes, the registrar or the University Book Store will go to the Soldiers' Monument fund.

'Nuff said.

**IT IS UP TO US.**

The enthusiasm and earnestness of yesterday's mass meeting marked the beginning of the undergraduate fight against the board of control. But it was only the beginning.

Laudable and inspiring as that demonstration was, it did not of itself accomplish any thing—its purpose was to call the attention of the student body to the grave crisis thru which the University is passing, and to point out the line of action most likely to prove efficient.

We believe that both these objects were fully attained at the meeting.

We now know the necessity of action and the way to act—it is now time to apply this knowledge.

It is up to us.

We have noted with regret that few students are addicted to the habit of sending in communications to be published. Those who have sent in their ideas on various subjects in the past have invariably failed to sign their names to their articles.

It seems to us that the reflection of student opinion is nowhere better shown than by communications. The Daily would therefore be glad to publish anything which any student has to say which would be of interest to the rest of the student body. The names of these students who write the communication must however accompany the articles as the Daily cannot hold itself responsible for the ideas expressed. Th names will not be published except upon request nor need they be known except by the editor.

The tennis season is approaching. Before long the devotees of the game will want to begin playing. Where can they? The old courts are in a terrible condition; most of the clay is worn off and the netting is down.

Why are there no courts on Northrop Field where every branch of outdoor athletics is provided for except tennis?

The Board of Control uses the argument that they cannot afford to spend money on a branch of athletics which is not at all self-supporting. How under the circumstances can tennis be self-supporting? Last spring a tennis team was sent down to Nebraska, where they met the Nebraskans on their own courts in their athletic field and played the matches before a large audience who paid admission.

If courts were made on Northrop Field, tennis could without doubt be made self-supporting here, and representative teams could be sent off every spring to play various other colleges.

The material from which to pick a team this spring is unusually fine. Most of last year's good players are back and besides these there are several Freshmen who have already made a name for themselves in inter-scholastic tournaments. What is wanted, and what we must have is enthusiasm and new courts; if general interest and enthusiasm are aroused we'll get the courts!

Nebraska, at least, fully expects to send a tennis team up here this spring. Would it not be a disgrace to our University to make them play on either poor courts or some borrowed one?

Lella Albrecht has been pledged to the Gamma Phi Beta sorority.

**We are the PIANO HOUSE**

of the Northwest

Simply because people have learned that they can rely on our goods and our promises. For 25 years we have been building this business and the confidence of our patrons and friends is our reward.

Steinway, Knabe, Ivers & Pond, Emerson, Gabler, Smith & Barnes, and other reliable pianos. These are the ones that have helped to give us the foremost position among piano houses.

11 A. M. TO 2 P. M.

**THESE ARE THE RESOLUTIONS**

We, the students of the University of Minnesota, in mass meeting assembled, hereby affirm our realization of the unfortunate position in which our University stands at the present time, by reason of an unwise division of authority between two boards.

Already a resultant conflict of authority has seriously crippled the efficiency of the University, and now threatens not only to prevent future development and increased usefulness, but even the very life of our institution as a real university.

Therefore, be it resolved, that we deplore the present distressing state of affairs, due as we firmly believe to the joint control of the University by two boards, which are, and of necessity must continue to be, actuated by dissimilar ideals, to the undeniable detriment of the University.

Resolved, further that we hereby pledge anew our loyalty and devotion to Alma Mater and bind ourselves to use all honorable means in our power to secure the release of the University from its present unfortunate position, and to see that it is again restored to the sole guidance of the Board of Regents.

To this end we pledge ourselves, individually to immediately write to our friends and relatives and urge upon them the necessity of prompt action in this matter, and to endeavor to secure from them definite and unqualified promises to use their influence with members of both houses of the legislature, to secure the desired relief.

LOST—Last Tuesday in Armory, pair of "gym" shoes and shirt. Box 1294.

**A Complete Encyclopedia of Amateur Sport**

**Spalding's Athletic Almanac**  
Official  
For 1905

Edited by J. E. SULLIVAN  
(Chief of Department of Physical Culture, Louisiana Purchase Exposition).

Should be read by every Minnesota student, as it contains the records of all Minnesota athletes and all amateur events in this country and abroad. It also contains a complete review of the Olympic Games from the official report of Director Sullivan and a resume of the two days devoted to sports in which savages were the only contestants, in which it is proved conclusively that savages are not the natural born athletes we have heretofore supposed them to be. This is the first time in which the athletic performances of savages have ever been systematically recorded. This is the largest Athletic Almanac ever published, containing 320 pages. Numerous illustrations of prominent athletes and track teams.

tory of the Board of Control Act from 1901, when it was introduced into the legislature as a "state measure."

D. P. Jones.  
Mayor David P. Jones received a rousing welcome. His remarks though few showed him to be thoroughly in accord with the movement.

He said: "This is a debt we owe to the University. There are men in the legislature who do not know the facts. We must teach them, and mighty quick, too. You represent every city, village and hamlet in the state. Let each one, then, do all he can to enlighten his citizens and representatives to the true state of affairs."

C. J. Rockwood.  
Mr. Chelsey J. Rockwood, '79, one of the committee which framed the memorial, said: "Economy is a good thing, but there is a limit to it when it is carried to the point that the facilities for work are cramped."

Jay J. Durand, in behalf of the students, read a set of resolutions which were seconded by a dozen "ayes," and adopted by a rising vote.
