## OFFICIAL DAILY BULLETIN

VOL. IV

SATURDAY, JANUARY 21, 1922

NO. 73

### BETTER MINNESOTA AND VACCINATION

Vaccination means something more than merely personal protection against smallpox. It means the protection of your fellow students and of your University—the safeguarding of the entire community. An unvaccinated person is a potential danger in any community. Let's all show the true Minnesota spirit and do our bit towards making this the safest as well as the best University in the country.

Saturday is the last day of vaccination week. Students, faculty members and employees have one more day in which to increase the already long list of those who are for a Better Minnesota.  
Student's Health Service
